

Form 1 (Relating to Article 2)

Notification of manufacture (import) of a new chemical substance

Date of Submission:

To:

Minister of Health, Labour, and Welfare,
Minister of Economy, Trade and Industry, and
Minister of the Environment

Name, and if a juridical person, the name
of its representative
Address

Based on the provision of paragraph (1) of Article 3 of the Act on the Evaluation of Chemical Substances and Regulation of their Manufacture, etc., I hereby submit this notification containing the following, in accordance with the provision of article 2 of the Ordinance Related to Notification, etc. Concerning the Manufacture or Import of New Chemical Substances .

1. Name of the new chemical substance
2. Structural formula or rational formula of the new chemical substance (where neither of these is known, the outline of its manufacturing process)
3. Physicochemical properties and composition of the new chemical substance
4. Use of the new chemical substance
5. Planned quantity of manufacture or planned quantity of import of the new chemical substance for each year during the three-year period after the commencement of its manufacture or import
6. Where a person intends to manufacture a new chemical substance, the name and address of the establishment where the new chemical substance is to be manufactured and where a person intends to import a new chemical substance from, the name of the country or region where the new chemical substance is manufactured.

Notes

1. Use A4-size paper, as defined in the Japanese Industrial Standards.
2. The name of the new chemical substance shall be entered in accordance with the nomenclature established by the International Union of Pure and Applied Chemistry (IUPAC nomenclature)
3. Where neither the structural nor the rational formula of the new chemical substance is known, enter the outline of the manufacturing process, the physicochemical properties, and the composition in detail.
4. The documents, etc., may be attached to serve as references for judging which of the items of paragraph (1) of Article 4 of the Act the new chemical substance that is being notified falls under. All documents must be written in Japanese except minor items such as terms in diagrams.
5. Attach Form 11: "Proposal for exception to evaluation of low production volume of a new chemical substance" when making a request, in accordance with paragraph (1) of Article 5 of the Act on the Evaluation of Chemical Substances and Regulation of Their Manufacture, etc.
6. The juridical person shall state the department and person responsible for the said notification as well as the contact information at the end of the notification document.
7. Signature may be used in lieu of name and seal.

Form 1-2 (relating to Article 2-2)

**Notification of new chemical substance manufacture (export)
by a manufacturer, etc., in a foreign country**

Date of Submission:

To:

Minister of Health, Labour, and Welfare,
Minister of Economy, Trade and Industry, and
Minister of Environment

Name, and if a juridical person, the
name of its representative
Address

Based on the provision of paragraph (1) of Article 7 of the Act on the Evaluation of Chemical Substances and Regulation of Their Manufacture, etc., I hereby submit this notification containing the following, in accordance with the provision of Article 2-2 of the Ordinance Related to Notification, etc. Concerning the Manufacture or Import of New Chemical Substances.

1. Name of the new chemical substance
2. Structural formula or rational formula of the new chemical substance (where neither of these is known, the outline of its manufacturing process)
3. Physicochemical properties and composition of the new chemical substance
4. Use of the new chemical substance
5. Planned quantity of export of the new chemical substance to Japan for each year during the three-year period after the commencement of export
6. Where a person intends to manufacture a new chemical substance, name and address of the establishment where the new chemical substance is to be manufactured and where the person intends to import a new chemical substance from, the name of the country or region where the new chemical substance is manufactured

Notes

1. Use A4-size paper, as defined in the Japanese Industrial Standards.
2. The name of the new chemical substance shall be entered in accordance with the nomenclature established by the International Union of Pure and Applied Chemistry (IUPAC nomenclature).
3. Where neither the structural formula nor the rational formula of the new chemical substance is known, enter the outline of its manufacturing process, the physicochemical properties, and the composition in detail
4. Documents, etc., may be attached as references for judging which of the items of Paragraph (1) of Article 4 applied correspondingly in Paragraph (2) of Article 7 of the Act on the Evaluation of Chemical Substances and Regulation of Their Manufacture, etc., that the new chemical substance that is being notified falls under. All documents must be written in Japanese except minor items such as terms in diagrams.
5. The juridical person shall state the department and person responsible for the said notification as well as the contact information at the end of the notification document.
6. Signature may be used in lieu of name and seal.

Form 2 (relating to Article 3)

Request relating to manufacture (import) of new chemical substances to be used as intermediates

Date of Submission:

To:

Minister of Health, Labour, and Welfare,
Minister of Economy, Trade and Industry, and
Minister of Environment

Name, and if a juridical person, the
name of its representative

Address

I hereby submit the following application, in accordance with the provision of Article 3 of the Ministerial Ordinance on Notification, etc., of the Manufacture or Import of New Chemical Substances.

1. Name of the new chemical substance	
2. Structural formula or rational formula of the new chemical substance (where neither of these is known, the outline of its manufacturing process)	
3. Physicochemical properties and composition of the new chemical substance	
4. Planned quantity of annual manufacture (import) of the new chemical substance	
5. Where a person intends to manufacture a new chemical substance, the name and address of the establishment where the new chemical substance is to be manufactured (where a person intends to import a new chemical substance from, the name of the country or region where the new chemical substance is manufactured)	
6. Name and address of the person or the juridical person and its representative who will use the new chemical substance as the intermediate substance	
7. Name and address of the establishment where the new chemical substance is to be used	
8. Name of the chemical substance that is manufactured by using the new chemical substance	
9. Other matters that may serve as references	

- Note:
1. Use A4-size paper, as defined in the Japanese Industrial Standards.
 2. Attach the following documents as attachments:
 - (1) Drawing(s) that illustrates the production equipment and the facility
 - (2) Documents that describe the handling process used for manufacturing
 - (3) Documents that describe the measures taken to prevent environmental pollution relating to the manufacture of the new chemical substance
 - (4) Documents that describe the chemical substance management system of the business that intends to manufacture (import) the substance
 - (5) Document that describe the measures taken to prevent the environmental pollution that can be caused by the new chemical substance in the shipment form and during shipment
 3. Use kilograms as the quantity unit and round the number off to the nearest integer before entering it.
 4. Erase the one that does not apply (either “manufacture” or “import”) in the title.
 5. The juridical person shall state the department and person responsible for the said notification as well as the contact information at the end of the notification document.
 6. Signature may be used in lieu of name and seal.
 7. In the column, “Other matters that may serve as a reference,” state every possible application and all of the names of the end substances produced using the new chemical substance.

Form 3 (relating to Article 3)

Confirmation

Date of Submission:

To:

Minister of Health, Labour, and Welfare,
Minister of Economy, Trade and Industry, and
Minister of the Environment

Name, and if a juridical person, the
name of its representative

Address

As per the Exhibits, it is confirmed that the new chemical substance [the name of the substance] shall be used as an intermediate substance and that all necessary measures shall be taken to prevent environmental pollution by the new chemical substance.

Note:

1. Use A4-size paper, as defined in the Japanese Industrial Standards
2. Use kilograms as the quantity unit and round the number off to the nearest integer before entering it.
3. Signature may be used in lieu of name and seal.

Exhibits :

1. The Name and address of the user who will use the substance as an intermediate substance. Also, the name of the representative, responsible department, and person as well as their contact information in the case of a juridical person
2. Location of the equipment where the substance is used and stored
3. Drawing(s) that illustrates the equipment and the facility related to the use
4. A pathway through which the new chemical substance becomes another chemical substance by the user mentioned in 1. and the projected amount of the new chemical substance that will be released into the environment
5. Measures taken when handling the new chemical substance to prevent environmental pollution by the substance
6. A chemical substance management system of the user mentioned in 1.
7. Planned quantity of the new chemical substance to be used annually by the user mentioned in 1.
8. A document that describes the measures taken by the manufacturer (importer) to confirm that the user mentioned in 1. is using the substance in accordance with the obtained confirmation

Form 4 (relating to Article 3)

Request relating to the manufacture (import) of a new chemical substance for closed system application, etc.

Date of Submission:

To:

Minister of Health, Labour, and Welfare,
Minister of Economy, Trade and Industry, and
Minister of the Environment

Name, and if a juridical person, the
name of its representative

Address

I hereby submit the application containing the following information, in accordance with the provision of Article 3 of the Ordinance Related to Notification, etc. Concerning the Manufacture or Import of New Chemical Substances .

1. Name of the new chemical substance	
2. Structural formula or rational formula of the new chemical substance (where neither of these is known, the outline of its manufacturing process)	
3. Physicochemical properties and component composition of the new chemical substance	
4. Planned quantity of annual manufacture (import) of the new chemical substance	
5. Where a person intends to manufacture a new chemical substance, the name and address of the establishment where the new chemical substance is to be manufactured (where a person intends to import a new chemical substance, the name of the country or region where the new chemical substance is manufactured)	
6. Name and address of the person or (if the juridical person) its representative who will surely use the new chemical substance for the closed system application	
7. Name and address of the establishment where the new chemical substance is to be used	
8. Intended use of the new chemical substance	

- Note:
1. Use A4-size paper, as defined in the Japanese Industrial Standards.
 2. Attach the following documents as exhibits:
 - (1) Drawing(s) that illustrates the production equipment and the facility
 - (2) A document that describes the handling process used for the manufacture
 - (3) A document that describes the measures taken for the prevention of environmental pollution related to the production of the new chemical substance
 - (4) A document that describes the chemical substance management system of the party that intends to manufacture (import) the substance
 - (5) A document that describes the measures taken to prevent the environmental pollution that can be caused by the new chemical substance in the shipment form and during shipment
 3. Use kilograms as a quantity unit and round the number off to the nearest integer before entering it.
 4. Erase the one that does not apply (either “manufacture” or “import”) in the title.
 5. The juridical person shall state the department and person responsible for the said notification as well as the contact information at the end of the notification document.
 6. Signature may be used in lieu of name and seal.

Form 5 (relating to Article 3)

Confirmation

Date of Submission:

To:

Minister of Health, Labour, and Welfare,
Minister of Economy, Trade and Industry, and
Minister of the Environment

Name, and if a juridical person, the
name of its representative
Address

As per the Exhibits, it is confirmed that the new chemical substance [name of the substance] shall be used (employing the process where there is no risk of release to outside the facility or equipment) for closed system application and that all necessary measures shall be taken to prevent environmental pollution by the new chemical substance.

Note:

1. Use A4-size paper, as defined in the Japanese Industrial Standards
2. Use kilograms as the quantity unit and round the number off to the nearest integer before entering it.
3. Signature may be used in lieu of name and seal.

Exhibits:

1. The name and address of the user who will use the substance for the closed system application. Also, the name of the representative, responsible department, and person as well as their contact information in the case of a juridical person
2. Location of the equipment where the substance is used and stored
3. A drawing that illustrates the equipment and the facility related to the use
4. The intended use and the method for use of the new chemical substance by the user mentioned in 1. above and the projected amount of the new chemical substance that will be released into the environment
5. Measures taken when handling the new chemical substance to prevent environmental pollution by the substance
6. A chemical substance management system of the user mentioned in 1.
7. Planned quantity of the new chemical substance to be used annually by the user mentioned in 1.
8. A document that describes the measures taken by the manufacturer (importer) to confirm that the user mentioned in 1. is using the substance in accordance with the obtained confirmation

Form 6 (relating to Article 3)

Request for the manufacture (import) of a new chemical substance for export only

Date of Submission:

To:

Minister of Health, Labour, and Welfare,
Minister of Economy, Trade and Industry, and
Minister of the Environment

Name, and if a juridical person, the
name of its representative

Address

I hereby submit the proposal containing the following information, in accordance with the provision of Article 3 of the Ordinance Related to Notification, etc. Concerning the Manufacture or Import of New Chemical Substances .

1. Name of the new chemical substance	
2. Structural formula or rational formula of the new chemical substance (where neither of these is known, the outline of its manufacturing process)	
3. Physicochemical properties and component composition of the new chemical substance	
4. Planned quantity of annual manufacture (import) of the new chemical substance	
5. Where a person intends to manufacture a new chemical substance, the name and address of the establishment where the new chemical substance is to be manufactured (where a person intends to import a new chemical substance, the name of the country or region where the new chemical substance is manufactured)	
6. Country or region that intends to export the new chemical substance	
7. Name and address of the person (if a juridical person, its representative) who will surely use the new chemical substance for the closed system application	
8. Name and address of the person (if a juridical person, its representative) that will import the new chemical substance in the country or region mentioned in 6.	

- Note:
1. Use A4-size paper, as defined in the Japanese Industrial Standards.
 2. Attach the following documents as exhibits:
 - (1) Drawing(s) that illustrates the production equipment and the facility
 - (2) A document that describes the handling process used for manufacturing
 - (3) A document that describes the measures taken to prevent the environmental pollution that can be caused by the production of the new chemical substance
 - (4) A document that describes the chemical substance management system of the party that intends to manufacture (import) the substance
 - (5) A document that describes the measures to prevent the environmental contamination that can be caused by the new chemical substance in the shipment form and during shipment
 3. Use kilograms as a quantity unit and round the number off to the nearest integer before entering it.
 4. Erase the one that does not apply (either “manufacture” or “import”) in the title.
 5. The juridical person shall state the department and person responsible for the said notification as well as the contact information at the end of the notification document.
 6. Signature may be used in lieu of name and seal.

Form 7 (relating to Article 3)

Confirmation

Date of Submission:

To:

Minister of Health, Labour, and Welfare,
Minister of Economy, Trade and Industry, and
Minister of the Environment

Name, and if a juridical person, the
name of its representative
Address

As per the Exhibits, it is confirmed that the new chemical substance [the name of the substance] shall be manufactured only for export.

Note:

1. Use A4-size paper, as defined in the Japanese Industrial Standards.
2. Use kilograms as the quantity unit and round the number off to the nearest integer before entering.
3. Signature may be used in lieu of name and seal

Exhibits:

1. The name and address of the party who will export the new chemical substance (hereafter referred to as the "exporter"). Also, the name of the representative, responsible department, and person as well as the contact information in the case of a juridical person
2. The name of the importer in the foreign country and the name and location of the business premise
3. Planned quantity of the new chemical substance annually the exporter plans to export
4. Evaluation situation of new chemical substances of the country or region of export destination
5. A document that describes the measures taken by the manufacturer (importer) to confirm that the new chemical substance is exported in accordance with the obtained confirmation

Form 8 (relating to Article 3-2)

Report of the manufacture (import) of a new chemical substance

Date of Submission:

To:

Minister of Health, Labour, and Welfare,
Minister of Economy, Trade and Industry, and
Minister of the Environment

Name, and if a juridical person, the
name of its representative

Address

With regard to the handling the new chemical substance that falls under [Item (i) of Paragraph (1) of Article 3; Item (ii) of Paragraph (1) of Article 3; and Item (iii) of Paragraph (1) of Article 3] of the Order for Enforcement of the Act on the Evaluation of Chemical Substances and Regulation of their Manufacture, etc., I hereby submit this report containing the following information, in accordance with the provision of Paragraph (2) of Article 3 of the Ordinance Related to Notification, etc. Concerning the Manufacture or Import of New Chemical Substances.

1. The name of the new chemical substance	
2. Date of the confirmation	
3. Recorded manufacture (import) quantity in the past	
4. Past record of quantity of the new chemical substance used by the user (past record of export quantity by each export destination in the case of Item (iii) of Paragraph (1) of Article 3 of the Order)	
5. Where the new chemical substance is released or emission outside of the facility during the process of handling such as manufacture (import) and use, describe the overall condition.	
6. Where there is a slight change in the confirmed content, describe the changes.	

Note:

1. Use A4-size paper, as defined in the Japanese Industrial Standards.
2. Erase the one that does not apply (either “manufacture” or “import”) in the title.
3. Erase words that are not applicable in [].
4. The juridical person shall state the department and person responsible for the said notification as well as the contact information at the end of the notification document.
5. Signature may be used in lieu of name and seal.

Form 9 (relating to Paragraph (1) of Article 4)

Name of the business premise		
Location		
The name of the new chemical substance		
Structural formula or rational formula of the new chemical substance (where neither is of these known, the outline of its manufacturing process)		
Physicochemical properties of the new chemical substance		Component composition
Fiscal year for which confirmation is requested (fiscal year when manufacture/import is intended)		
Planned quantity of manufacture or import	kg	
Intended use of the new chemical substance		
Where a person intends to import a new chemical substance, the name of the country or region where the new chemical substance is manufactured		
Reference matters		

- In order to obtain confirmation as defined in Item (v) of Paragraph (1) of Article 3 of the Act on the Evaluation of Chemical Substances and Regulation of their Manufacture, etc., I hereby submit this request containing the above information, in accordance with the provision of Paragraph (1) of Article 4 of the Ordinance Related to Notification, etc. Concerning the Manufacture or Import of New Chemical Substances.

Form 10 (relating to Article 4-2)

Request for the manufacture (import) of polymeric compounds pursuant to Item (vi) of Paragraph (1) of Article 3 of the Act

1. The name of the new chemical substance	
2. Structural formula or rational formula of the new chemical substance (where neither of these is known, the outline of its manufacturing process)	
3. The number average molecular weight of the new chemical substance	
4. The weight-average molecular weight of the new chemical substance	
5. Molar ratio of the new chemical substance per monomer	
6. Weight ratio of the new chemical substance per monomer	
7. Appearance of the new chemical substance	
8. Intended use of the new chemical substance	
9. Purity of the new chemical substance and impurities	
10. Matters serving as reference	

Note:

1. Use A4-size paper, as defined in the Japanese Industrial Standards.
2. Attach the following documents as exhibits:
 - (1) Purity of the test sample, impurities, and their content
 - (2) The name of a monomer of which the test sample is made, monomer's Reference Number in the Gazette List, molar ratio, and weight ratio per monomer
 - (3) The results of physicochemical stability tests and results of acid/alkali solubility tests
 - (4) The results of solubility tests in water/organic solvent
 - (5) Molecular weight distribution, the content of a component with a molecular weight of 1,000 or lower, etc.
 - (6) Presence or absence of a functional group of concern
3. The juridical person shall state the department and person responsible for the said notification as well as the contact information (telephone number) at the end of the notification document.
4. Signature may be used in lieu of name and seal.

In order to obtain confirmation as defined in Item (vi) of Paragraph (1) of Article 3 of the Act on the Evaluation of Chemical Substances and Regulation of their Manufacture, etc., I hereby submit this request containing the above information, in accordance with the provision of Article 4-2 of the Ordinance Related to Notification, etc. Concerning the Manufacture or Import of New Chemical Substances .

Form 11 (relating to Article 4-3)

Request for exception to evaluation of low production volume of a new chemical substance

Date of Submission:

To:

Minister of Health, Labour, and Welfare,
Minister of Economy, Trade and Industry, and
Minister of the Environment

Name, and if a juridical person, the name
of its representative
Address

In order to receive judgment as defined in Paragraph (1) of Article 5 of the Act on the Evaluation of Chemical Substances and Regulation of their Manufacture, etc., I hereby submit this request containing the following information, in accordance with the provision of Article 4-3 of the Ordinance Related to Notification, etc. Concerning the Manufacture or Import of New Chemical Substances .

Name of the new chemical substance

Note:

1. Use A4-size paper, as defined in the Japanese Industrial Standards.
2. For the name of the new chemical substance, state the same name as that of the new chemical substance notified, in accordance with the provision of Paragraph (1) of Article 3 of the Act on the Evaluation of Chemical Substances and Regulation of their Manufacture, etc.
3. Documents, etc., may be attached to serve as references for judging which item of the items of Paragraph (1) of Article 5 of the Act applies to the chemical substance related to the request. All documents must be written in Japanese except minor items such as terms in diagrams.
4. The juridical person shall state the department and person responsible for the said notification as well as the contact information at the end of the notification document.
5. Signature may be used in lieu of name and seal.

Form 13 (relating to Article 4-5)

Request for continuation of the evaluation of low production volume of a new chemical substance

Date of Submission:

To:

Minister of Health, Labour, and Welfare,
Minister of Economy, Trade and Industry, and
Minister of the Environment

Name, and if a juridical person, the name of
its representative

Address

In order to receive judgment as defined in Paragraph (7) of Article 5 of the Act on the Evaluation of Chemical Substances and Regulation of their Manufacture, etc., I hereby submit this request containing the following information, in accordance with the provision of Article 4-5 of the Ordinance Related to Notification, etc. Concerning the Manufacture or Import of New Chemical Substances .

Name of the new chemical substance

Note:

1. Use A4-size paper, as defined in the Japanese Industrial Standards.
2. For the name of the new chemical substance, state the same name as that of the new chemical substance notified, in accordance with the provision of Paragraph (1) of Article 3 of the Act on the Evaluation of Chemical Substances and Regulation of their Manufacture, etc.
3. Attach the results of tests necessary for the judgment, as defined in Paragraph (7) of Article 5 of the Act on the Evaluation of Chemical Substances and Regulation of Their Manufacture, etc. All submitted test results must be written in Japanese except minor items such as terms in diagrams.
4. The juridical person shall state the department and person responsible for the said notification as well as contact information at the end of the notification document.
5. Signature may be used in lieu of name and seal.

This is a provisional translation. Only the original Japanese texts of the laws and regulations have legal effect, and the translations are to be used solely as reference material to aid in the understanding of Japanese laws and regulations.

Form 14 [Article 8]

Request for the use of electronic information processing systems

Date of Submission:

To:

Minister of Health, Labour, and Welfare,
Minister of Economy, Trade and Industry, and
Minister of the Environment

Name, and if a juridical person, the name
of its representative

Address

I hereby submit this application containing the following information, based on the regulations described in Paragraph (1) of Article 8 of the Ordinance Related to Notification, etc. Concerning the Manufacture or Import of New Chemical Substances .

Applicant Confirmation Code

- Note:
- 1 Use A4-size paper, as defined in the Japanese Industrial Standards.
 - 2 Fill in the field of “Applicant Confirmation Code” with seven-digit Arabic numerals.
 - 3 The juridical person shall state the following information of the contact person for this notification at the end of the notification document:
 - (1) Name of the department/section
 - (2) Name of the applicant
 - (3) Postal cord
 - (4) Address
 - (5) Telephone number
 - (6) Facsimile number
 - (7) E-mail address
 - 4 Signature may be used in lieu of name and seal.

This is a provisional translation. Only the original Japanese texts of the laws and regulations have legal effect, and the translations are to be used solely as reference material to aid in the understanding of Japanese laws and regulations.

Form 15 [Article 8]

Notification of the change in the use of electronic information processing systems

Date of Submission:

To:

Minister of Health, Labour, and Welfare,
Minister of Economy, Trade and Industry, and
Minister of the Environment

Name, and if a juridical person, the name
of its representative

Address

I hereby apply for this notification containing the following information, based on the regulations described in Paragraph (3) of Article 8 of the Ordinance Related to Notification, etc. Concerning the Manufacture or Import of New Chemical Substances .

Matters to be changed:

Before the change

After the change

- Note
- 1 Use A4-size paper, as defined in the Japanese Industrial Standards.
 - 2 Fill in the field of “Matters to be Changed” with the “Name of the applicant or, in the case of a juridical person, the name of its representative” or “the address of the applicant.”
 - 3 The juridical person shall state the following information of the contact person for this notification at the end of the notification document:
 - (1) Name of the department/section
 - (2) Name of the applicant
 - (3) Postal cord
 - (4) Address
 - (5) Telephone number
