# Briefing Material on the Notification of Business, Ver. 05

For enterprises intending to display the PSLPG mark on Liquefied Petroleum Gas Appliances, etc. specified in the Act on the Securing of Safety and the Optimization of Transaction of Liquefied Petroleum Gas

"Specified Liquefied Petroleum Gas Appliances, etc."

Cartridge gas stoves Semi-closed instantaneous water heaters for liquefied petroleum gas Semi-closed bath heaters for liquefied petroleum gas with a burner Bath heaters Bath burners for liquefied petroleum gas Semi-closed stoves for liquefied petroleum gas Gas plugs for liquefied petroleum gas

"Liquefied Petroleum Gas Appliances, etc." other than Specified Liquefied Petroleum Gas Appliances, etc.

#### Regulators

General gas stoves

Open, closed, or outdoor instantaneous water heaters for liquefied petroleum gas

High-pressure hoses for liquefied petroleum gas with a metal joint Closed or outdoor bath heaters for liquefied petroleum gas with a burner

Open, closed, or outdoor stoves for liquefied petroleum gas Gas leak alarms for liquefied petroleum gas

Low-pressure hoses for liquefied petroleum gas with a metal joint Automatic earthquake-resistant gas circuit breakers for liquefied petroleum gas

March 2022 Product Safety Division, Industrial Safety Group, Ministry of Economy, Trade and Industry

#### Table of Contents

1. Overview of the Act on the Securing of Safety and the Optimization of Transaction of Liquefied	
Petroleum Gas	. 1
1-1. Laws and regulations related to the Act on the Securing of Safety and the Optimization of Transaction of Liquefied Petroleum Gas	
1-2. PSLPG marking ( <	. 1
2. Procedures for starting manufacture/import of products: Procedure Flowchart	.4
2-1. Scope of Liquefied Petroleum Gas Appliances, etc.	. 5
2-2. Conformity to Technical Requirements for Liquefied Petroleum Gas Appliances, etc	. 6
2-3. PSLPG mark $\langle PS \\ PS \\ PS \\ PS \end{pmatrix}$ displayed on products	.7
2-4. The name of the Notifying Enterprise, cautions, and other matters to be displayed on the	
product	.7
3. How to prepare notification documents	. 8
3-1. Notification of business	. 8
3-2. Notification of change	12
4. Where to submit notifications	13
5. Notification and application forms for Liquefied Petroleum Gas Appliances, etc	14

#### 1. Overview of the Act on the Securing of Safety and the Optimization of Transaction of Liquefied Petroleum Gas

- 1-1. Laws and regulations related to the Act on the Securing of Safety and the Optimization of Transaction of Liquefied Petroleum Gas
  - Act on the Securing of Safety and the Optimization of Transaction of Liquefied Petroleum Gas (the "Act")

https://elaws.e-gov.go.jp/search/elawsSearch/elaws\_search/lsg0500/detail?lawId=342 AC0000000149

• Order for Enforcement of the Act on the Securing of Safety and the Optimization of Transaction of Liquefied Petroleum Gas (the "Enforcement Order")

https://elaws.e-gov.go.jp/search/elawsSearch/elaws\_search/lsg0500/detail?lawId=343 CO0000000014

• Ministerial Order on Technical Requirements for Liquefied Petroleum Gas Appliances, etc. (the "Ministerial Order")

- Implementation of the Ministerial Order on Technical Requirements for Liquefied Petroleum Gas Appliances, etc. (the "Circular Notice") https://www.meti.go.jp/policy/consumer/seian/ekiseki/contents/ekiseki\_211115tsutatsu \_zenbun.pdf
- Product Safety Guide (contacts for inquiries about notifications and applications) https://www.meti.go.jp/product\_safety/opinion/index.html
- (1) Purpose and overview of the system

The Act on the Securing of Safety and the Optimization of Transaction of Liquefied Petroleum Gas was established to <u>prevent liquefied petroleum gas (LPG) from causing disasters</u>, <u>optimize LPG transactions</u>, and promote public welfare by <u>regulating</u> the sale of LPG to general consumers, etc. and <u>the manufacture</u>, <u>sale</u>, etc. of Liquefied Petroleum Gas <u>Appliances</u>, etc.

The term "Liquefied Petroleum Gas Appliances, etc." as defined in this Act means machines, apparatus or materials that are mainly used by general consumers, etc. for consuming LPG (including those that are used to supply LPG to general consumers, etc. for consumption) and that are specified by the Cabinet Order (Article 3 and Appended Table 1 of the Enforcement Order). The term "Specified Liquefied Petroleum Gas Appliances, etc." means those that are deemed to be very likely to cause an LPG disaster in light of their structure, condition of use, and status of use and that are specified by Cabinet Order (Article 4 and Appended Table 2 of the Enforcement Order).

The next page shows specific items of Liquefied Petroleum Gas Appliances, etc.

https://elaws.e-gov.go.jp/search/elawsSearch/elaws\_search/lsg0500/detail?lawId=343 M50000400023

#### "Liquefied Petroleum Gas Appliances, etc."

other than Specified Liquefied Petroleum Gas Appliances, etc.

Regulators; general gas stoves; open, closed, or outdoor instantaneous water heaters for liquefied petroleum gas; high-pressure hoses for liquefied petroleum gas with a metal joint; closed or outdoor bath heaters for liquefied petroleum gas with a burner;

open, closed, or outdoor stoves for liquefied petroleum gas; gas leak alarms for liquefied petroleum gas; low-pressure hoses for liquefied petroleum gas with a metal joint; automatic earthquake-resistant gas circuit breakers for liquefied petroleum gas

\* For their definitions, see p. 5 or Article 3 and Appended Table 1 of the Enforcement Order.

"Specified Liquefied Petroleum Gas Appliances, etc."

Cartridge gas stoves; semi-closed instantaneous water heaters for liquefied petroleum gas; semi-closed bath heaters for liquefied petroleum gas with a burner; bath heaters; bath burners for liquefied petroleum gas; semi-closed stoves for liquefied petroleum gas; gas plugs for liquefied petroleum gas

\* For their definitions, see p. 5 or Article 4 and Appended Table 2 of the Enforcement Order.

Specifically, <u>a person engaged in the business of manufacturing, importing or selling</u> Liquefied Petroleum Gas Appliances, etc. must not sell or display for sale any Liquefied Petroleum Gas Appliances, etc. other than that labeled (with the PSLPG mark  $\stackrel{(PS)}{\xrightarrow{PS}}$   $\stackrel{(PS)}{\xrightarrow{PS}}$ ) in a manner permitted when duties, such as conforming to the Technical Requirements established for each notification or product, have been performed (Article 39 of the Act).

See the Attachment to the Circular Notice for examples of technical properties that meet the performance specified in the above Technical Requirements (Appended Table 3 in Article 11 of the Ministerial Order).

(2) Notification of business

<u>A person engaged in the business of manufacturing or importing</u> Liquefied Petroleum Gas Appliances, etc. <u>may submit a notification of business</u> to the national government (Article 41 of the Act).

This briefing material assumes that such notification is submitted before the start of business.

- (3) Duty to conform to requirements and the preparation and retention of inspection records An enterprise that has submitted the notification stated in (2) (the "<u>Notifying Enterprise</u>") must perform an inspection of the Liquefied Petroleum Gas Appliances, etc. of the type subject to notification to verify that they conform to the performance requirements specified in Appended Table 3 in Article 11 of the Ministerial Order\* ("<u>Self-inspection</u>") and <u>prepare and keep an</u> <u>inspection record</u> (Article 46 of the Act). Inspection records must include the following six items and be kept for three years from the date of inspection (Article 13 of the Ministerial Order).
  - \* The Circular Notice shows examples of technical properties that meet the performance specified in the Ministerial Order for reference purposes.

(Article 13, paragraphs (1) to (3) of the Ministerial Order)

(i) the classification of Liquefied Petroleum Gas Appliances, etc. and the outline of their structure, materials, and performance

- (ii) the date and place of the inspection conducted
- (iii) the name of the person who conducted the inspection
- (iv) the quantity of the Liquefied Petroleum Gas Appliances, etc. inspected
- (v) the method of inspection
- (vi) the inspection results
- (4) Conformity Inspection of Specified Liquefied Petroleum Gas Appliances, etc. and retention of certificates

Among Liquefied Petroleum Gas Appliances, etc., Specified Liquefied Petroleum Gas Appliances, etc. must be inspected by a person registered with the competent minister (Minister of Economy, Trade and Industry) (the "Registered Conformity Inspection Body"), to verify conformity to the Technical Requirements for each classification of the notified type, in addition to the Self-inspection in (3), and <u>a certificate of conformity must be obtained and kept</u> (Article 47, paragraph (1) of the Act).

The Japan Gas Appliances Inspection Association and the Japan L.P. Gas Instrument Inspection Association are the Registered Conformity Inspection Bodies for Specified Liquefied Petroleum Gas Appliances, etc.

For more information, access the following URLs:

Japan Gas Appliances Inspection Association

https://www.jia-page.or.jp/certification/tekigo/

Japan L.P. Gas Instrument Inspection Association (for gas plugs for liquefied petroleum gas only) https://www.lia.or.jp/index.html

#### (5) Labeling (PSLPG mark $\langle P_{PS}^{S} \rangle$ )

A Notifying Enterprise that has performed the duties described in (2) to (4) may affix the PSLPG mark  $\langle p_{s} \rangle \langle p_{s} \rangle \langle p_{s} \rangle$  (see p. 7 for details) (Article 48 of the Act).

(6) On-site inspection

For product safety, officials of the Ministry of Economy, Trade and Industry (those of the Regional Bureaus of Economy, Trade and Industry are limited to inspections of manufacturing and import businesses) and/or the National Institute of Technology and Evaluation may enter the business office or other office or workplace of a person engaged in manufacturing, importing or selling Liquefied Petroleum Gas Appliances, etc. to perform on-site inspection in which they inspect the books, documents, and any other articles of the person (Article 83, paragraph (1) of the Act).

(7) Order for improvement and prohibition of labeling, etc.

If an enterprise fails to perform the duties in (2) to (4) or sells any Liquefied Petroleum Gas Appliances, etc. without labeling them with the PSLPG mark as in (5), it may face an order for improvement, prohibition of labeling, or other similar actions (Articles 49 and 50 of the Act).

The next part explains to enterprises manufacturing or importing Liquefied Petroleum Gas Appliances, etc. the procedures and how to prepare notification documents under the PSLPG marking system described in 1-2.

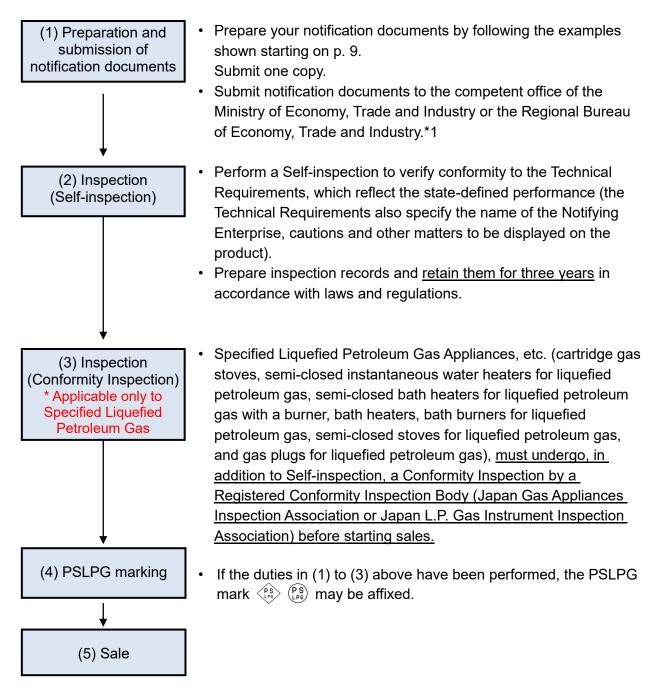

2. Procedures for starting manufacture/import of products: Procedure Flowchart

Among the necessary procedures, the following documents may be completed and submitted via the Safety Net on the internet.

- Notification of the start of manufacturing or import business (Article 41 of the Act)
- Notification of change to particulars of the notification of business (Article 43 of the Act)
- Notification of discontinuation of manufacturing or import business (Article 44 of the Act)
- Notification of display of registered trademark (Appended Table 3 of the Ministerial Order on Technical Requirements for Liquefied Petroleum Gas Appliances, etc.)

For more information on the procedures, access the following website:

(What Is the Safety Net?) https://www.meti.go.jp/product\_safety/seian\_hoan-net\_guide.html

#### \*1 Notification destination

- If your domestic factories or workplaces involved in the manufacture or import of Liquefied Petroleum Gas Appliances, etc. are <u>located only within the jurisdiction of a single Regional</u> <u>Bureau of Economy, Trade and Industry</u>, submit the notification documents to <u>that</u> <u>competent Regional Bureau of Economy, Trade and Industry</u>.
   See p. 13 for specific jurisdictions and the department of the Regional Bureau of Economy, Trade and Industry that should be notified.
- (2) If your domestic factories or workplaces involved in the manufacture or import of Liquefied Petroleum Gas Appliances, etc. are <u>located across the jurisdictions of two or more</u> <u>Regional Bureaus of Economy, Trade and Industry</u>, submit the notification documents to the Product Safety Division, Industrial Safety Group, Ministry of Economy, Trade and Industry.
- 2-1. Scope of Liquefied Petroleum Gas Appliances, etc.

The scope of the Liquefied Petroleum Gas Appliances, etc. (including Specified Liquefied Petroleum Gas Appliances, etc.) defined by the Act and the Enforcement Order is as follows.

(Article 2, paragraphs (7) and (8) of the Act, and Appended Table 1 of Article 3 and Appended Table 2 of Article 4 of the Enforcement Order)

1 Regulators

Limited to those that can depressurize up to 30 kilograms of LPG in an hour.

2 Liquefied petroleum gas stoves

((a) is classified as Specified Liquefied Petroleum Gas Appliances, etc.)

- (a) Those with a structure that allows a container filled with LPG to be a part or accessory that can be attached.
- (b) Those for which total LPG consumption per hour is 14 kilowatts (or 21 kilowatts for those with gas ovens) or less, of which LPG consumption per hour per stove is 5.8 kilowatts or less (excluding those specified in (a)).
- Instantaneous water heaters for liquefied petroleum gas
   (Semi-closed type is classified as Specified Liquefied Petroleum Gas Appliances, etc.)
   Those for which LPG consumption per hour is 70 kilowatts or less.
- 4 High-pressure hoses for liquefied petroleum gas with a metal joint Limited to rubber hoses 1.2 meters long or less with an internal diameter of 10 millimeters or less.
- 5 Bath heaters for liquefied petroleum gas with a burner (Semi-closed type is classified as Specified Liquefied Petroleum Gas Appliances, etc.) Limited to those for which LPG consumption per hour is 21 kilowatts (or 91 kilowatts if a bathtub has its own water heater) or less.
- 6 Bath heaters (classified as Specified Liquefied Petroleum Gas Appliances, etc.) Limited to those with a structure that allows the use of an LPG burner for which the LPG consumption per hour is 21 kilowatts or less when using an LPG burner, excluding closed combustion type, outdoor installation type, and those with an integrated LPG burner.

7 Bath burners for liquefied petroleum gas

(classified as Specified Liquefied Petroleum Gas Appliances, etc.)

Limited to those for which LPG consumption per hour is 21 kilowatts or less, excluding those integrated into bath heaters.

8 Stoves for liquefied petroleum gas

(Semi-closed type is classified as Specified Liquefied Petroleum Gas Appliances, etc.) Limited to those for which LPG consumption per hour is 19 kilowatts or less.

- 9 Gas plugs for liquefied petroleum gas

   (classified as Specified Liquefied Petroleum Gas Appliances, etc.)
   Excluding those which can be used as a component of combustion machines or equipment.
- 10 Gas leak alarms for liquefied petroleum gas Excluding those with a gas density indicator and portable LPG gas leakage alarms.
- 11 Low-pressure hoses for liquefied petroleum gas with a metal joint Limited to rubber hoses up to 1.2 meters long with an internal diameter of 15 millimeters or less.
- 12 Automatic earthquake-resistant gas circuit breakers for liquefied petroleum gas Limited to those with threaded connections used for piping with an internal diameter of 60 millimeters or less, which are designed to block gas at a given location where the gauge pressure is 3.5 kilopascals or less.
- 2-2. Conformity to Technical Requirements for Liquefied Petroleum Gas Appliances, etc. The Technical Requirements for Liquefied Petroleum Gas Appliances, etc. and their interpretation are provided as follows.
- (Article 11, Article 13, and Appended Table 3 of the Ministerial Order) https://elaws.e-gov.go.jp/search/elawsSearch/elaws\_search/lsg0500/detail?lawId=343M50000 400023

#### (Circular Notice)

https://www.meti.go.jp/policy/consumer/seian/ekiseki/contents/gijutsukijunkaishaku\_pslpg.pdf

The Technical Requirements for Liquefied Petroleum Gas Appliances, etc. were revised to define performance requirements instead of specification requirements as before and became effective on April 1, 2016. The details of the revision are available at the following website:

https://www.meti.go.jp/policy/consumer/seian/ekiseki/contents/ekiseki\_seinoukitei\_top.pdf

### 2-3. PSLPG mark $\stackrel{(PS)}{\underset{L^{PS}}{\overset{(PS)}{\overset{PS}}{\overset{(PS)}{\overset{(PS)}{\overset{PS}{\overset{PS}}{\overset{PS}}{\overset{PS}}{\overset{PS}}{\overset{PS}}{\overset{PS}}{\overset{PS}}}}\overset{PS}{\overset{PS}}{\overset{PS}}$

The PSLPG mark is divided into the following two types.

(Article 39 of the Act, and Appended Table 1 of Article 3 and Appended Table 2 of Article 4 of the Enforcement Order)

	PSLPG mark	Classification of Gas Equipment
Specified Liquefied Petroleum Gas Appliances, etc.	P S L P G	<ul> <li>Cartridge gas stoves</li> <li>Semi-closed instantaneous water heaters for liquefied petroleum gas</li> <li>Semi-closed bath heaters for liquefied petroleum gas with a burner</li> <li>Bath heaters</li> <li>Bath burners for liquefied petroleum gas</li> <li>Semi-closed stoves for liquefied petroleum gas</li> <li>Gas plugs for liquefied petroleum gas</li> </ul>
Liquefied Petroleum Gas Appliances, etc. other than Specified Liquefied Petroleum Gas Appliances, etc.	PS LPG	<ul> <li>Regulators</li> <li>General gas stoves</li> <li>Open, closed, or outdoor instantaneous water heaters for liquefied petroleum gas</li> <li>High-pressure hoses for liquefied petroleum gas with a metal joint</li> <li>Closed or outdoor bath heaters for liquefied petroleum gas with a burner</li> <li>Open, closed, or outdoor stoves for liquefied petroleum gas</li> <li>Gas leak alarms for liquefied petroleum gas</li> <li>Low-pressure hoses for liquefied petroleum gas with a metal joint</li> <li>Automatic earthquake-resistant gas circuit breakers for liquefied petroleum gas</li> </ul>

For the proportions (ratios, etc.) of the mark, access the following URLs:

https://elaws.e-gov.go.jp/search/elawsSearch/elaws\_search/lsg0500/detail?lawId=343M500004000 23#357

https://elaws.e-gov.go.jp/search/elawsSearch/elaws\_search/lsg0500/detail?lawId=343M500004000 23#358

2-4. The name of the Notifying Enterprise, cautions, and other matters to be displayed on the product The rules for display are specified in, in addition to the Ministerial Order, the Circular Notice, which requires that the information specified for each type of Liquefied Petroleum Gas Appliance, etc. be displayed (in an easily visible area of the equipment body in a manner that does not fade easily).

(Example: Information to be displayed on cartridge gas stoves)

The Circular Notice requires the following information to be displayed:

- Type of Liquefied Petroleum Gas Appliance, etc.
- Name of the Notifying Enterprise
- Name of the Domestically Registered Conformity Inspection Body or Overseas Registered Conformity Inspection Body
- Year and month of manufacture and manufacturing number
- Name of the container to be used (excluding built-in stoves using containers conforming to the Japanese Industrial Standards)
- Precautions for use

The name of the Notifying Enterprise to be displayed may be replaced by an <u>abbreviated</u> <u>name</u> or a <u>mark</u> approved by the Minister of Economy, Trade and Industry or a <u>registered</u> <u>trademark</u> of which the Minister of Economy, Trade and Industry has been notified. For such display, please consult the Product Safety Division, Industrial Safety Group, Ministry of Economy, Trade and Industry, in advance and submit an Application for Approval for Display of Abbreviation (Form No. 15) or a Notification of Display of Registered Trademark (Form No. 16).

#### 3. How to prepare notification documents

#### 3-1. Notification of business

(1) Overview

For the notification of business, a document conforming to the government-designated form (Form No. 3 in the Ministerial Order) must be prepared, along with the following attachments. If you wish to obtain a duplicate of the notification documents with proof of receipt, please submit two copies and enclose a return envelope. Before submitting a notification, please consult the addressee in the Ministry of Economy, Trade and Industry or the Regional Bureau of Economy, Trade and Industry (see p. 13).

#### <Attachments>

• Classification of the type of Liquefied Petroleum Gas Appliance, etc.(Appended Table 2 of Ministerial Order)

https://elaws.e-gov.go.jp/search/elawsSearch/elaws\_search/lsg0500/detail?lawId=343M 50000400023#349

\* Submission is needed for <u>every type of classification</u> that you plan to manufacture or import.

 An enterprise whose factories or workplaces for manufacturing the Liquefied Petroleum Gas Appliances, etc. or offices for importing the Liquefied Petroleum Gas Appliances, etc. are located across the jurisdictions of two or more Regional Bureaus of Economy, Trade and Industry may be requested to submit a list of its business locations as an attachment. (2) Example of the cover sheet (Form No. 3): Use A4 size paper.

Notification of <u>Manufacturing (Import)<sup>\*1</sup></u> of Liquefied Petroleum Gas Appliances, etc. mm dd, yyyy<sup>\*2</sup>

To Minister of Economy, Trade and Industry\*3

Taro Anzen, President and CEO XX Industries Co., Ltd.<sup>\*4</sup> x-x-x Kasumigaseki, Chiyoda-ku, Tokyo

Pursuant to the provisions of Article 41 of the Act on the Securing of Safety and the Optimization of Transaction of Liquefied Petroleum Gas, I hereby declare as follows:

- 1 The date of commencement of business: <u>mm dd, yyyy<sup>\*5</sup></u>
- 2 The classification of the Liquefied Petroleum Gas Appliance, etc. <u>manufactured</u> (<u>imported</u>)<sup>\*1</sup>: <u>YYYY<sup>\*6</sup></u>
- 3 The classification of the type of the Liquefied Petroleum Gas Appliance, etc.: As stated in the Attachment
- 4 <u>The name and location of the factory or workplace manufacturing the Liquefied Petroleum</u> <u>Gas Appliance, etc. (in the case of an importer, the name and address of the manufacturer</u> <u>of the Liquefied Petroleum Gas Appliance, etc.)</u>

#### (Instructions)

- \*1 Enter either "Manufacturing" or "Import."
- \*2 Enter the date of submission of this notification.
- \*3 Enter either "Director-General, XX Regional Bureau of Economy, Trade and Industry" or "Minister of Economy, Trade and Industry," depending on the competent authority. For more information, see "\*1 Notification destination" on p. 4.
- \*4 Enter the name, address, and the title and name of the representative, of the enterprise as stated on the registration.
- \*5 "The date of commencement of business" must be the planned date of starting the business of manufacturing or importing the Liquefied Petroleum Gas Appliance, etc. (or the date of its designation as a Liquefied Petroleum Gas Appliance, etc. [implementation date] if the business started before the designation).
- \*6 Enter the Liquefied Petroleum Gas Appliance, etc. that you plan to manufacture (or import).
- \*7 Enter contact information, such as the name and telephone number of the contact person.

(3) Example of attachments (classification of type): Use A4 size paper, in principle.

Complete this document for every type of Liquefied Petroleum Gas Appliance, etc. that you plan to manufacture or import, according to the classification of the types of Liquefied Petroleum Gas Appliances, etc. defined in Appended Table 2 of the Ministerial Order.

	Classification of Type				
Liquefied Petroleum Gas Appliances, etc.	Elements	Classification of the Structure, etc.			
Cartridge gas stoves	Material of the main burner	<ol> <li>(1) Aluminum alloy casting</li> <li>(2) Stainless steel</li> <li>(3) Aluminum coated steel</li> <li>(4) Zinc coated steel</li> <li>(5) Enameled steel</li> <li>(6) Copper or copper alloy</li> <li>(7) Aluminum</li> <li>(8) Any other material</li> </ol>			
	Application of the High Pressure Gas Safety Act with regard to the liquefied petroleum gas contained	(1) Applied (2) Not applied			
	Structure of the cartridge gas stove	<ul> <li>(1) Built-in type</li> <li>(2) Detachable type</li> <li>(3) Direct connection type</li> </ul>			
	Appliance plug fitting position	<ul> <li>(1) Located in a low-pressure part</li> <li>(2) Located in a high-pressure part and a low-pressure part</li> <li>(3) Any other position</li> </ul>			
	Number of nozzles in the main burner	(1) One (2) Two or more			
	Number of fuel containers to be used	(1) One (2)Two or more			
	Structure of the depressurizing device	(1) Regulators (2) Appliance governor (3) Depressurizing function			
	Inner diameter of the tip of the nozzle	<ul> <li>(1) Less than 0.3 millimeters</li> <li>(2) 0.3 millimeters or more but less than 0.6 millimeters</li> <li>(3) 0.6 millimeters or more</li> </ul>			
	Ignition type	<ul><li>(1)Electric ignition</li><li>(2) Any other type</li></ul>			
	Structure of the safety device	<ol> <li>The liquefied petroleum gas passage is closed.</li> <li>The fuel container is disconnected from the combustion equipment.</li> </ol>			

#### (Instructions)

• Circle <u>one classification per element</u> of the Liquefied Petroleum Gas Appliance, etc. that the Notifying Enterprise plans to manufacture or import. If the manufacture (or import) of multiple types of Liquefied Petroleum Gas Appliances, etc. is planned and thus more than one classification applies per element, prepare a separate attachment for each. Be aware that when the appliance contains even a single dissimilar element, it must be considered another type.

(4) Example of attachments (addresses and maps): Use A4 size paper, in principle.

An enterprise whose factories or workplaces for manufacturing the Liquefied Petroleum Gas Appliance, etc. or offices for importing the Liquefied Petroleum Gas Appliance, etc. are <u>located</u> across the jurisdictions of two or more Regional Bureaus of Economy, Trade and Industry may be requested to submit a list of its business locations<sup>\*1</sup> as an attachment. In such case, create a list as follows and submit it.

When the Notifying Enterprise is a manufacturer:

List of the names and locations of the factories/workplaces manufacturing the Liquefied Petroleum Gas Appliance, etc.

(i) Name: XX Factory, YY Co., Ltd. Location: xxxxxx
(ii) Name: XX Site, YY Co., Ltd. Location: xxxxxx

#### When the Notifying Enterprise is an importer:

List of the names and addresses of the offices/stores/warehouses involved in the import of the Liquefied Petroleum Gas Appliance, etc.

(i) Name: XX Office, YY Co., Ltd. Location: xxxxxx(ii) Name: XX Store

Location: xxxxxx

(iii) Name: XX Warehouse Location: xxxxxx

(Instructions)

\*1 This document may be in Excel format as long as the list contains the necessary information.

#### 3-2. Notification of change

If any change needs to be made to the content of the notification of business (in Form No. 3, etc.), a Notification of Change of Notified Particulars (Form No. 8) must be submitted. This notification should be accompanied by attachments, as necessary.

- (2) Example of the cover sheet (Form No. 8): Use A4 size paper.
  - (i) When changing manufacturing factories
    - 1 Particulars changed: Change of manufacturing factories
    - 2 Date of change: mm dd, yyyy
    - 3 Reason for change: To change the content of the Notification (of Business or Change of Notified Particulars) dated mm dd, yyyy, as the production of XX [name of the Liquefied Petroleum Gas Appliance, etc.] will discontinue at the YY factory and move to the new ZZ factory.
  - (ii) Changing the type
    - 1 Particulars changed: Change of the type
    - 2 Date of change: mm dd, yyyy
    - 3 Reason for change: To change the content of the Notification (of Business or Change of Notified Particulars) dated mm dd, yyyy, with respect to the classification of the type of XX [name of the Liquefied Petroleum Gas Appliance, etc.], as the production described in Attachment 1 will discontinue and the production described in Attachment 2 will start instead.
  - (iii) Adding a manufacturing factory
    - 1 Particulars changed: Addition of a manufacturing factory
    - 2 Date of change: mm dd, yyyy
    - 3 Reason for change: To add a manufacturing factory to the Notification (of Business or Change of Notified Particulars) dated mm dd, yyyy, as XX [name of the Liquefied Petroleum Gas Appliance, etc.] will additionally be produced at the YY factory.
  - (iv) Adding a type
    - 1 Particulars changed: Addition of a type
    - 2 Date of change: mm dd, yyyy
    - 3 Reason for change: To add a type to the Notification (of Business or Change of Notified Particulars) dated mm dd, yyyy, as XX [name of the Liquefied Petroleum Gas Appliance, etc.] will be produced in the classification type described in the Attachment.
  - (v) Removing a manufacturing factory
    - 1 Particulars changed: Removal of a manufacturing factory
    - 2 Date of change: mm dd, yyyy
    - 3 Reason for change: To remove a manufacturing factory from the Notification (of Business or Change of Notified Particulars) dated mm dd, yyyy, as production of XX [name of the Liquefied Petroleum Gas Appliance, etc.] has discontinued at the XX factory.
  - (vi) Removing a type
    - 1 Particulars changed: Removal of a type
    - 2 Date of change: mm dd, yyyy
    - 3 Reason for change: To remove a type from the Notification (of Business or Change of Notified Particulars) dated mm dd, yyyy, as the production of XX [name of the Liquefied Petroleum Gas Appliance, etc.] in the classification type described in the Attachment has discontinued.

#### 4. Where to submit notifications

(1) If your domestic factories or workplaces involved in the manufacture or import of the Liquefied Petroleum Gas Appliance, etc. are located only within the jurisdiction of a single Regional Bureau of Economy, Trade and Industry, submit your notification documents to that Regional Bureau of Economy, Trade and Industry.

(i) Hokkaido

Product Safety Office, Consumer Affairs Division, Hokkaido Bureau of Economy, Trade and Industry, Ministry of Economy, Trade and Industry

1-1 Nishi 2-chome, Kita 8-jo, Kita-ku, Sapporo, Hokkaido 060-0808

5. Notification and application forms for Liquefied Petroleum Gas Appliances, etc.

(The forms are downloadable as electronic files at the following URL.) https://www.meti.go.jp/policy/consumer/seian/ekiseki/contents/ekiseki\_yoshiki\_top.pdf

Note!

If you wish to obtain a duplicate of the notification documents with proof of receipt, please submit two copies and enclose a return envelope.

The next part provides major notification and application forms for Liquefied Petroleum Gas Appliances, etc., including the notification of business, and associated instructions for your reference.

Notification of Manufacturing (Import) of Liquefied Petroleum Gas Appliances, etc.

Date

То

Address Name (and the name of the representative)

Pursuant to the provisions of Article 41 of the Act on the Securing of Safety and the Optimization of Transaction of Liquefied Petroleum Gas, I hereby declare as follows:

- 1 The date of commencement of business
- 2 The classification of the Liquefied Petroleum Gas Appliance, etc. manufactured (imported)
- 3 The classification of the type of the Liquefied Petroleum Gas Appliance, etc.
- 4 The name and location of the factory or workplace manufacturing the Liquefied Petroleum Gas Appliance, etc. (in the case of an importer, the name and address of the manufacturer of the Liquefied Petroleum Gas Appliance, etc.)

(Remarks) The size of this paper shall be Japanese Industrial Standards A4.

#### Notification of Change of Notified Particulars

Date

То

Address Name (and the name of the representative)

Pursuant to the provisions of Article 43 of the Act on the Securing of Safety and the Optimization of Transaction of Liquefied Petroleum Gas, I hereby declare as follows:

- 1 Particulars changed
- 2 The date of change
- 3 The reason for change

(Remarks) The size of this paper shall be Japanese Industrial Standards A4.

Form No. 4 (Re: Article 6)

Notification of Succession of Manufacturing (Import) of Liquefied Petroleum Gas Appliances, etc.

Date

То

The name of the person who makes a notification, and where such person is a corporation, the name of the representative thereof

#### Address

Pursuant to the provisions of Article 42, paragraph (2) of the Act on the Securing of Safety and the Optimization of Transaction of Liquefied Petroleum Gas, I hereby declare as follows:

Cause of		
Succession		
	The name of the person who makes a notification, and where such person is a corporation, the name of the representative thereof	
	Address	
Particulars concerning	The date of notification of manufacturing (import)	
the	The classification of the	
Predecessor	Liquefied Petroleum Gas	
	Appliance, etc. manufactured (imported)	
	The classification of the type of the Liquefied Petroleum Gas Appliance, etc.	
	The name and location of the factory or workplace	
	manufacturing the Liquefied	
	Petroleum Gas Appliance, etc.	
	(in the case of an importer, the	
	name and address of the	
	manufacturer of the Liquefied	
	Petroleum Gas Appliance, etc.)	

(Remarks) 1 The size of this paper shall be Japanese Industrial Standards A4.

Form No. 9 (Re: Article 9)

Notification of Discontinuation of Manufacturing (Import) of Liquefied Petroleum Gas Appliances, etc.

Date

То

#### Address

Name (and the name of the representative)

Pursuant to the provisions of Article 44 of the Act on the Securing of Safety and the Optimization of Transaction of Liquefied Petroleum Gas, I hereby declare as follows:

- 1 The date of notification of manufacturing (import)
- 2 The classification of the Liquefied Petroleum Gas Appliance, etc. manufactured (imported)
- 3 The date of discontinuation

(Remarks) The size of this paper shall be Japanese Industrial Standards A4.

#### Form No. 1 (Re: Article 2, paragraph (1) and Article 12)

Notification of Exception to Liquefied Petroleum Gas Appliances, etc. for Export

Date

То

Address Name (and the name of the representative)

Pursuant to the provisions of Article 39, paragraph (2), item (i) (Article 46, paragraph (1), item (i)) of the Act on the Securing of Safety and the Optimization of Transaction of Liquefied Petroleum Gas, I hereby declare as follows:

- 1 The classification of Liquefied Petroleum Gas Appliances, etc. and the outline of their structure, materials, and performance;
- 2 The quantity to be exported;
- 3 The destination and time of export;
- 4 The name and location of the factory or workplace manufacturing the appliance (and the date of notification and the classification of the type of Liquefied Petroleum Gas Appliance, etc. in the case that the manufacturer or importer is the Notifying Enterprise).

(Remarks) The size of this paper shall be Japanese Industrial Standards A4.

Form No. 15 (Re: Appended Table 3)

#### Application for Approval for Display of Abbreviation

Date<sup>\*1</sup>

To the Minister of Economy, Trade and Industry

The name of the person who makes a notification, and where such person is a corporation, the name of the representative thereof<sup>\*2</sup>

#### Address

Pursuant to the provisions of the Ministerial Order on Conformance to Technical Requirements for Liquefied Petroleum Gas Appliances, etc., I hereby file an application to obtain approval for the display of an abbreviated name (mark) of the Notifying Enterprise (Domestically Registered Conformity Inspection Body or Overseas Registered Conformity Inspection Body) in lieu of its name, as follows:

Classification of Liquefied	Particulars replaced with an	Abbreviated name (mark)
Petroleum Gas Appliances, etc.	abbreviated name (mark)	
	Name of the Notifying	
	Enterprise <sup>*3</sup>	

(Remarks)

- 1 The size of this paper shall be Japanese Industrial Standards A4.
- 2 You may sign this document instead of affixing your name and seal to it.

#### <Instructions>

This application must be filed for each relevant classification of Liquefied Petroleum Gas Appliances, etc., and only one abbreviated name (mark) is allowed per enterprise, in principle. Be aware that an abbreviated name (mark) must be a simplified name (mark) of an enterprise that can be easily associated with the name of the enterprise.

- \*1 In the Date section, type the date of submission.
- \*2 If the applicant is a corporation, enter the title and name of its representative as "the name of the representative."
- \*3 In the "Particulars replaced with an abbreviated name (mark)" column in the table on the application, enter the **name of the Notifying Enterprise**, as indicated above, and not the name of the enterprise (company name).
- \*4 If the display of the abbreviated name (mark) is approved, the applicant will receive written approval of the Minister of Economy, Trade and Industry. Please enclose a return envelope.

Form No. 16 (Re: Appended Table 3)

### Notification of Display of Registered Trademark

Date

To Minister of Economy, Trade and Industry

The name of the person who makes a notification, and where such person is a corporation, the name of the representative thereof

#### Address

Pursuant to the provisions of the Ministerial Order on Technical Requirements for Liquefied Petroleum Gas Appliances, etc., I hereby make notification of the display of a registered trademark of the Notifying Enterprise in lieu of its name, as follows:

Classification of Liquefied Petroleum Gas Appliances, etc.	Particulars replaced with a registered trademark	Registered trademark

(Remarks)

1 The size of this paper shall be Japanese Industrial Standards A4.

2 Documents confirming the registration of the registered trademark must be attached.

(Revision History)

- March 1, 2018: Created Ver. 01
- ◆ June 1, 2018: Created Ver. 02
  - Deleted text referring to "Attachment 5" due to revision of the Circular Notice
- ◆ June 25, 2018: Created Ver. 03
  - Revised the example in 3-1-(4) to make the expression more appropriate
- ♦ January 26, 2021: Created Ver. 04
  - Revised forms to align with partial amendment of the Ministerial Order on Technical Requirements for Liquefied Petroleum Gas Appliances, etc. (to review the procedure requiring the affixation of the seal)
  - Partially revised instructions for the Application for Approval for Display of Abbreviation
  - Revised some URLs
- ◆ March 24, 2022: Created Ver. 05
  - Revised the title of the Circular Notice and its URL
  - Added "Safety Net" to "2. Procedures for starting manufacture/import of products"
  - Changed the telephone number of the Product Safety Division of the Ministry of Economy, Trade and Industry
- May 12, 2023: Maintained Ver. 05 but changed the telephone number and email address of the staff in charge of Gas Equipment in the Product Safety Division

Editor: Staff in charge of Gas Equipment, Product Safety Division, Industrial Safety Group, Ministry of Economy, Trade and Industry 1-3-1 Kasumigaseki, Chiyoda-ku, Tokyo 100-8901

# Introduction

The following four types of procedures are covered by the safety net in the Four Product Safety Acts.

- 1. Notification of Manufacture or Import Business
- 2. Notification of Changes to Business Registration
- 3. Notification of Discontinuation of Manufacture or Import Business
- 4. Notification of Registered Trademark

In addition to the basic operations of the safety net, this document also introduces the procedures for the safety net in 1 and 2 above.

- Table of Contents -
- Basic Operations • P. 2 P. 4
- Notification of Manufacture or Import Business • P. 5 P. 14
- Notification of Changes to Business Registration • P. 15 P. 20
