

Appendix 1

List of Newly Established and Revised JIS Publicly Notified on August 21, 2017

<Division in charge and telephone number>

International Standardization Division (direct line: 03-3501-9283)

International Electrotechnology Standardization Division (direct line: 03-3501-9287)

1. Newly established standards

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Motorcycles-Measurement method for gaseous exhaust emissions and fuel consumption-Part 1: General test requirements	D1047-1	Society of Automotive Engineers of Japan, Inc.	International Standardization Division
Motorcycles-Measurement method for gaseous exhaust emissions and fuel consumption-Part 2: Test cycles and specific test conditions	D1047-2	Society of Automotive Engineers of Japan, Inc.	International Standardization Division
Motorcycles-Measurement method for gaseous exhaust emissions and fuel consumption- Part 3: Fuel consumption measurement at a constant speed	D1047-3	Society of Automotive Engineers of Japan, Inc.	International Standardization Division
Direct connecting and Flexible hose connecting type portable gas cookers with LPG cartridge	S2152	Japan Gas Appliances Inspection Association	International Standardization Division
Portable gas space heaters with LPG cartridge	S2153	Japan Gas Appliances Inspection Association	International Standardization Division
Digital technical product documentation (DTPD)-Part 3: Presentation of design model for 3D annotated model	B0060-3	Japanese Standards Association	International Standardization Division
Digital technical product documentation (DTPD)-Part 4: Indication of annotation for 3D annotated model-Dimensions and dimensional tolerances	B0060-4	Japanese Standards Association	International Standardization Division
Liquid filled system thermometers	B7549	JAPAN MEASURING INSTRUMENTS FEDERATION	International Standardization Division
Photovoltaic devices - Part 10: Methods of linearity measurement	C8904-10	The Japan Electrical Manufacturers' Association	International Electrotechnology Standardization Division

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Photovoltaic devices - Part 9: Solar simulator performance requirements	C8904-9	The Japan Electrical Manufacturers' Association	International Electrotechnology Standardization Division
Salt mist corrosion testing of photovoltaic(PV) modules	C8930	The Japan Electrical Manufacturers' Association	International Electrotechnology Standardization Division
Surface chemical analysis-Vocabulary-Part 1: General terms and terms used in spectroscopy	K0147-1	Technical Committee 201 on Surface Chemical Analysis of the International Organization for Standardization	International Standardization Division
Surface chemical analysis-Vocabulary-Part 2: Terms used in scanning-probe microscopy	K0147-2	Technical Committee 201 on Surface Chemical Analysis of the International Organization for Standardization	International Standardization Division
Surface chemical analysis-Guidelines for preparation and mounting of specimens for analysis	K0154	Technical Committee 201 on Surface Chemical Analysis of the International Organization for Standardization	International Standardization Division
Colloidal systems-Methods for zeta-potential determination-Optical methods	Z8836	The Association of Powder Process Industry and Engineering	International Standardization Division

(Total standards newly established: 15)

2. Revised standards

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Electric vacuum cleaners	C9108	The Japan Electrical Manufacturers' Association	International Electrotechnology Standardization Division
Portable gas cookers with LPG cartridge	S2147	Japan Gas Appliances Inspection Association	International Standardization Division
Vapour pressure thermometers	B7529	JAPAN MEASURING INSTRUMENTS FEDERATION	International Standardization Division
Brinell hardness test-Verification	B7724	Japan Testing	International

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
and calibration of testing machines		Machinery Association	Standardization Division
Rockwell hardness test-Verification and calibration of testing machines and indenters	B7726	Japan Testing Machinery Association	International Standardization Division
Rockwell hardness test-Calibration of reference blocks	B7730	Japan Testing Machinery Association	International Standardization Division
Brinell hardness test-Calibration of reference blocks	B7736	Japan Testing Machinery Association	International Standardization Division
Electrical insulating materials used under severe ambient conditions - Test methods for evaluating resistance to tracking and erosion	C2136	The Institute of Electrical Engineers of Japan	International Electrotechnology Standardization Division
Household and similar electrical appliances-Safety- Part 2-7: Particular requirements for washing machine	C9335-2-7	The Japan Electrical Manufacturers' Association	International Electrotechnology Standardization Division
Stainless steel tubes for machine and structural purposes	G3446	The Japan Iron and Steel Federation	International Standardization Division
Carbon steel pipes for pressure service	G3454	The Japan Iron and Steel Federation	International Standardization Division
Reagents for stability tests of explosives	K4822	Japan Explosives Industry Association	International Standardization Division
Beds for domestic use	S1102	Bed Manufacturers Association of Japan	International Standardization Division

(Total standards revised: 13)
