

## Existing Function of JIIN

- **Japan Israel Innovation Network (JIIN)** is a platform by governments/economic organizations to strengthening business relations between Japan/Israel.
- In 2018, JIIN has done business networking for [1,000+] companies through organizing 50 events including 9 business missions and 41 business seminars.

## New Approach

- On 15 Jan 2019, both governments welcomed strengthening the function of JIIN to further promote investment / trade between the two countries.
  - Establish **“JIIN Hub”** as front office in Tel Aviv to provide hands-on support to companies developing business in Japan/Israel.
  - Establish **“Digital Health Gateway(DHG)”** in both countries to provide hands-on support to companies developing business in Japan/Israel in the field of digital health.
  - Establish two subcommittees under JIIN; (1) **Investment Subcommittee** and (2) **Digital Healthcare Subcommittee**, to support activities of JIIN Hub/DHG through sharing knowledge and holding business seminars.
