

Outline of the Service Desk on Preparations for Brexit

- Aiming to encourage mid-ranking enterprises, SMEs and other entities to make full preparations for a “no-deal Brexit” concerning the United Kingdom's departure from the EU, METI will provide them with support measures tailored to individual enterprises, such as measures involving tariffs, custom clearance procedures, regulations, and consultation services on financing.
- Nearly 200 staff and experts of METI and JETRO will be deployed to consultation counters as personnel in charge of individual enterprises and will conduct individual-based, push-mode approaches to SMEs and other entities.
