

**Appendix 1**

List of Newly Established and Revised JIS Publicly Notified on September 23, 2020

&lt;Division in charge and telephone number&gt;

International Standardization Division (e-mail: [s-kijun-ISO@meti.go.jp](mailto:s-kijun-ISO@meti.go.jp) direct line: 03-3501-9283)International Electrotechnology Standardization Division (e-mail: [s-iec@meti.go.jp](mailto:s-iec@meti.go.jp) direct line: 03-3501-9287)

## 1. Newly established standards

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Safety requirements for horse riding style electric wheelchair	T9210	Japanese Standards Association	International Standardization Division
Microscopes-Definition and measurement of illumination properties-Part 2: Illumination properties related to the colour in bright field microscopy	B7253-2	Japan Microscope Manufacturer'S Association	International Standardization Division
Cover glasses for microscopes-Part 1: Dimensional tolerances, thickness and optical properties	B7258-1	Japan Microscope Manufacturer'S Association	International Standardization Division
Cover glasses for microscopes-Part 2: Quality, test methods and labeling	B7258-2	Japan Microscope Manufacturer'S Association	International Standardization Division
Household and similar electrical appliances-Safety-Part 2-120: Particular requirements for heated tobacco device	C9335-2-120	Tobacco Institute of Japan	International Electrotechnology Standardization Division
Shot media of circulation type shot peening for steel structure	G0951	Japan Steel Structure Circulation Blast Association	International Standardization Division
Fine ceramics (advanced ceramics, advanced technical ceramics)- Method of measurement for	R1762	Japan Fine Ceramics Association	International Standardization Division

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
assessing the power generation characteristics of piezoelectric device for self-sustaining power source			

( Accredited SDO )

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Dependability management-Guidance for management and application-Open systems dependability	C62853	Japanese Standards Association	International Electrotechnology Standardization Division
Geometrical product specifications (GPS)-Matrix model	B0661	Japanese Standards Association	International Standardization Division
Environmental testing-Part 2-85:Tests Fj: Vibration-Long time history replication	C60068-2-85	Japanese Standards Association	International Electrotechnology Standardization Division
Fiber optic interconnecting devices and passive components-Basic test and measurement procedures-Part 2-42: Tests-Static side load for strain relief	C61300-2-42	Japanese Standards Association	International Electrotechnology Standardization Division
Fiber optic interconnecting devices and passive components-Basic test and measurement procedures-Part 3-54: Examinations and measurements-Angular misalignment between ferrule bore axis and ferrule axis for cylindrical ferrules	C61300-3-54	Japanese Standards Association	International Electrotechnology Standardization Division

(Total standards newly established:12)

## 2. Revised standards

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Mechanical presses-Testing of the grades and the accuracy	B6402	Japan Forming Machinery Association	International Standardization Division
Hydraulic presses - Testing of the grades and the accuracy	B6403	Japan Forming Machinery Association	International Standardization Division
Sound level meters-Measuring instruments used in transaction or certification	C1516	Japan Measuring Instruments Federation	International Electrotechnology Standardization Division
Steel sheet, plates and strip for gas cylinders	G3116	The Japan Iron And Steel Federation	International Standardization Division
Titanium and titanium alloys-General rules for chemical analysis	H1611	The Japan Titanium Society	International Standardization Division
Textile glass rovings	R3412	Glass Fiber Association	International Standardization Division

### ( Accredited SDO )

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Balanced biaxially oriented polyethylene terephthalate films used for electrical purposes	C2318	Japanese Standards Association	International Electrotechnology Standardization Division
Photoelectric controls for public lighting	C8369	Japanese Standards Association	International Electrotechnology Standardization Division

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Environmental testing-Part 3-5: Supporting documentation and guidance-Confirmation of the performance of temperature chambers	C60068-3-5	Japanese Standards Association	International Electrotechnology Standardization Division
Environmental testing-Part 3-6: Supporting documentation and guidance-Confirmation of the performance of temperature/humidity chambers	C60068-3-6	Japanese Standards Association	International Electrotechnology Standardization Division
Fire hazard testing-Part 1-10: Guidance for assessing the fire hazard of electrotechnical products-General guidelines	C60695-1-10	Japanese Standards Association	International Electrotechnology Standardization Division
Fire hazard testing-Part 11-2: Test flames-1 kW nominal pre-mixed flame-Apparatus, confirmatory test arrangement and guidance	C60695-11-2	Japanese Standards Association	International Electrotechnology Standardization Division
Fiber optic interconnecting devices and passive components-Basic test and measurement procedures-Part 3-28: Examinations and measurements-Transient loss	C61300-3-28	Japanese Standards Association	International Electrotechnology Standardization Division
Method for the determination of toner cartridge yield for colour printers and multi-function devices that contain printer components	X6932	Japanese Standards Association	International Electrotechnology Standardization Division

(Total standards revised: 14)
