

Appendix 1

List of Newly Established and Revised JIS Publicly Notified on April 20, 2021

<Division in charge and telephone number >

International Standardization Division (e-mail: s-kijun-ISO@meti.go.jp direct line: 03-3501-9283)

International Electrotechnology Standardization Division (e-mail: s-iec@meti.go.jp direct line: 03-3501-9287)

1. Newly established standards

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Unmanned aircraft system design management requirements	W0711	Japan Uav Association	International Standardization Division

(Total standards newly established: 1)

2. Revised standards

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Earth-moving machinery-Object detection systems and visibility aids-Performance requirements and tests	A8338	Japan Construction Machinery And Construction Association	International Standardization Division
Safety glazing materials for road vehicles	R3211	Flat Glass Manufacturers Association Of Japan	International Standardization Division
Test methods of safety glazing materials for road vehicles	R3212	Flat Glass Manufacturers Association Of Japan	International Standardization Division
Test method for automatic door systems	A1551	Apan Automatic Door Association	International Standardization Division
Earth-moving machinery-Machine safety labels-General principles	A8312	Japan Construction Machinery And Construction Association	International Standardization Division
Leaf chains	B1804	Japan Chain Association	International Standardization Division
Diamond/CBN products-Safety requirements	B4142	Industrial Diamond Association Of Japan	International Standardization Division
Diesel engines-Steel tubes for high-pressure fuel injection pipes-Part 1: Requirements for seamless cold-drawn single-wall tubes	D3607-1	Society Of Automotive Engineers Of Japan, Inc.	International Standardization Division
Diesel engines-Tapers for shaft ends of fuel injection pumps and hubs	D3608	Society Of Automotive Engineers Of Japan, Inc.	International Standardization Division
Document management applications-Archiving of electronic data-Computer output microform (COM)/Computer output laser disc (COLD)	Z6018	Japan Image And Information Management Association	International Standardization Division
Statistical methods for use in proficiency testing by interlaboratory comparison	Z8405	Japanese Standards Association	International Standardization Division

(Accredited SDO)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Automated eddy current examination of steel pipes and tubes	G0583	The Japan Iron And Steel Federation	International Standardization Division
Automated flux leakage examination of steel pipes and tubes	G0586	The Japan Iron And Steel Federation	International Standardization Division
Carbon steel plates for pressure vessels for low temperature service	G3126	The Japan Iron And Steel Federation	International Standardization Division
Cold-reduced carbon steel sheet and strip	G3141	The Japan Iron And Steel Federation	International Standardization Division
Dimensions, shape, mass and permissible variations of hot rolled steel sections	G3192	The Japan Iron And Steel Federation	International Standardization Division
Cold rolled special steel strip	G3311	The Japan Iron And Steel Federation	International Standardization Division
Light gauge steel sections for general structure	G3350	The Japan Iron And Steel Federation	International Standardization Division
Stainless steel pipes	G3459	The Japan Iron And Steel Federation	International Standardization Division
Large diameter welded stainless steel pipes	G3468	The Japan Iron And Steel Federation	International Standardization Division
Carbon steels for cold heading-Part 1: Wire rods	G3507-1	The Japan Iron And Steel Federation	International Standardization Division
Boron steels for cold heading-Part 1: Wire rods	G3508-1	The Japan Iron And Steel Federation	International Standardization Division
Low-alloyed steels for cold heading-Part 1: Wire rods	G3509-1	The Japan Iron And Steel Federation	International Standardization Division
Rockwell hardness test-Test method	Z2245	The Japan Iron And Steel Federation	International Standardization Division

(Total standards revised: 24)
