

# Asia Energy Transition Initiative (AETI)

To achieve both sustainable growth and carbon neutrality in Asia, where energy demand will continue to grow, **various and pragmatic energy transitions, that reflect different circumstances of each country, and utilise all energy sources and all technologies, are essential.**

The Government of Japan announced the “Asia Energy Transition Initiative (AETI)”, which includes a variety of support for realising energy transitions in Asia.

**1. Support drawing roadmaps for energy transitions**

**2. Asian version of transition finance**

**3. US\$10 billion finance support**

(e.g.) renewable energy, energy efficiency, LNG etc.

**4. Technology development and deployment, utilizing the achievement of 2 trillion yen fund**

(e.g.) Offshore wind power generation, Fuel-ammonia, Hydrogen etc.

**5. Capacity building of decarbonisation technologies, and knowledge sharing through Asia CCUS network**

➤ Capacity building of decarbonisation technologies for 1,000 people in Asian countries

➤ Workshops and Seminars on energy transitions
