

Appendix 1

List of Newly Established and Revised JIS Publicly Notified on January 20, 2022

<Division in charge and telephone number >

International Standardization Division (e-mail: s-kijun-ISO@meti.go.jp direct line: 03-3501-9283)

International Electrotechnology Standardization Division (e-mail: s-iec@meti.go.jp direct line: 03-3501-9287)

1. Newly established standards

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Vacuum insulating glass	R3225	Flat Glass Manufacturers Association Of Japan	International Standardization Division
Direct injection gasoline engines-Installation of the high pressure fuel pump to the engine	D3611	Society Of Automotive Engineers Of Japan, Inc.	International Standardization Division
Determination of the net length of an endless(spliced) conveyor belt	K6377-5	Japan Machinery Belt Association	International Standardization Division
Total belt thickness and thickness of constitutive elements-Test methods	K6377-6	Japan Machinery Belt Association	International Standardization Division
Conveyor belts-Full thickness tensile strength, elongation at break and elongation at the reference load-Test method	K6377-7	Japan Machinery Belt Association	International Standardization Division
Conveyor belts-Adhesion between constitutive elements-Test methods	K6377-8	Japan Machinery Belt Association	International Standardization Division
Conveyor belts-Transverse flexibility (troughability)-Test method	K6377-9	Japan Machinery Belt Association	International Standardization Division
Common testing methods for products with consideration of babies, toddlers and young children-Detachment of components	S0122	National Institute of Technology and Evaluation	International Standardization Division
The details of information to communicate regarding confirmation of synthetic resin safety of utensils, containers and packaging for food	S2061	Japan Chemical Innovation And Inspection Institute	International Standardization Division

(Total standards newly established:9)

2. Revised standards

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Determination of asbestos in building material products- Part 3: Quantitative analysis of containing asbestos by X-ray diffraction method	A1481-3	Association For Working Environment Measurement	International Standardization Division
Road vehicles-Brake types, braking mechanics and brake operation-Vocabulary	D0106	Society Of Automotive Engineers Of Japan, Inc.	International Standardization Division
Road vehicles-Braking equipments-Vocabulary	D0107	Society Of Automotive Engineers Of Japan, Inc.	International Standardization Division
General rules of brake test method of automobiles and motor cycles	D0210	Society Of Automotive Engineers Of Japan, Inc.	International Standardization Division
Automotive parts-Glow plugs for diesel engines-General requirements and dimensions	D5103	Society Of Automotive Engineers Of Japan, Inc.	International Standardization Division
Petroleum waxes	K2235	Wax Industry Association of Japan	International Standardization Division
Diesel engines-NOx reduction agent AUS 32-Part 4: Refilling interface	K2247-4	Society Of Automotive Engineers Of Japan, Inc.	International Standardization Division
Diesel engines-NOx reduction agent AUS 32-Part 5: Refilling interface for passenger cars	K2247-5	Society Of Automotive Engineers Of Japan, Inc.	International Standardization Division
Conveyor belts-Specification for rubber covered conveyor belts of textile construction	K6322	Japan Machinery Belt Association	International Standardization Division
Polyethylene pipes for the supply of gaseous fuels	K6774	The Japan Gas Association	International Standardization Division
Polyethylene pipe - fittings for the supply of gaseous fuels - Part 2: Spigot fittings	K6775-2	The Japan Gas Association	International Standardization Division
Polyethylene pipe - fittings for the supply of gaseous fuels - Part 3: Electrofusion fittings	K6775-3	The Japan Gas Association	International Standardization Division
Plastics-Impact-resistant polystyrene (PS-I) moulding and extrusion materials-Part 1: Designation system and basis for specifications	K6926-1	The Japan Plastics Industry Federation	International Standardization Division

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Plastics-Impact-resistant polystyrene (PS-I) moulding and extrusion materials-Part 2: Preparation of test specimens and determination of properties	K6926-2	The Japan Plastics Industry Federation	International Standardization Division
Plastics-Determination of flexural properties	K7171	The Japan Plastics Industry Federation	International Standardization Division
Glossary of terms used in nonwoven industry	L0222	All Nippon Nonwovens Association	International Standardization Division
Float glass and polished plate glass Bonded abrasive products- Limit deviations and run-out tolerances	R3202	Flat Glass Manufacturers Association Of Japan	International Standardization Division
Bonded abrasive products- Limit deviations and run-out tolerances	R6244	Japan Grinding Wheel Association	International Standardization Division
Household water purifiers	S3241	Japan Water Purifier Association	International Standardization Division
Lighters-Safety specifications	S4801	Japanese Standards Association	International Standardization Division
Utility lighters-Safety specifications	S4802	Japanese Standards Association	International Standardization Division
Lighters and utility lighters- Safety specifications for child-resistance by high operating force	S4803	Japanese Standards Association	International Standardization Division
Testing methods of pressure-sensitive adhesive tapes and sheets	Z0237	Japan Adhesive Tape manufacturerers Association	International Standardization Division

(Total standards revised:23)
