

Appendix 1

List of Newly Established and Revised JIS Publicly Notified on November 21, 2022

<Division in charge and telephone number >

International Standardization Division (e-mail: s-kijun-ISO@meti.go.jp direct line: 03-3501-9283)

International Electrotechnology Standardization Division (e-mail: s-iec@meti.go.jp direct line: 03-3501-9287)

1. Newly established standards

(Accredited SDO- Japanese Standards Association)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Environmental testing-Part 2-5: Tests-Test S: Simulated solar radiation at ground level and guidance for solar radiation testing and weathering	C60068-2-5	Japanese Standards Association	International Electrotechnology Standardization Division
Fire hazard testing-Part 11-11: Test flames - Determination of the characteristic heat flux for ignition from a non-contacting flame source	C60695-11-11	Japanese Standards Association	International Electrotechnology Standardization Division

(Total standards newly established:2)

2.Revised standards

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Fiberboards	A5905	Japan Fiberboard and Particleboard Manufacturers Association	International Standardization Division
Particleboards	A5908	Japan Fiberboard and Particleboard Manufacturers Association	International Standardization Division
Methods for chemical analysis of refractory products-Part 2: Silica refractories	R2212-2	The Technical Association of Refractories, Japan	International Standardization Division

(Accredited SDO- Japanese Standards Association)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Glossary of terms for power plants-Steam turbines and auxiliary equipment for thermal and renewable energy including geothermal power plants	B0127	Japanese Standards Association	International Electrotechnology Standardization Division
Methods for model tests of hydraulic turbine and reversible pump-turbine	B8103	Japanese Standards Association	International Electrotechnology Standardization Division

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Environmental testing-Part 3-7: Supporting documentation and guidance-Measurements in temperature chambers for tests A (Cold) and B (Dry heat) (with load)	C60068-3-7	Japanese Standards Association	International Electrotechnology Standardization Division
Fire hazard testing-Part 4: Terminology concerning fire tests for electrotechnical products	C60695-4	Japanese Standards Association	International Electrotechnology Standardization Division
Electromagnetic compatibility (EMC)-Part 4-3: Testing and measurement techniques-Radiated, radio-frequency, electromagnetic field immunity test	C61000-4-3	Japanese Standards Association	International Electrotechnology Standardization Division
Quality discrimination method of optical disks and operating method of storage system for long-term data preservation	X6257	Japanese Standards Association	International Electrotechnology Standardization Division

(Total standards revised:9)
