

Appendix 1

List of Newly Established and Revised JIS Publicly Notified on December 20, 2022

<Division in charge and telephone number>

International Standardization Division (e-mail: [s-kijun-ISO@meti.go.jp](mailto:s-kijun-ISO@meti.go.jp) direct line: 03-3501-9283)

International Electrotechnology Standardization Division (e-mail: [s-iec@meti.go.jp](mailto:s-iec@meti.go.jp) direct line: 03-3501-9287)

1. Newly established standards

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Method for measuring reducing trace gases by semiconductor-type trace gas measuring equipment	K0315	Japanese Standards Association	International Standardization Division
Environmentally conscious design-Principles, requirements and guidance	Q62430	The Japan Electrical Manufacturers' Association	International Standardization Division International Electrotechnology Standardization Division
Method of droplet volume measurement by image processing using an electric pipet	Z8838	Japanese Standards Association	International Standardization Division
Earth-moving machinery-Quick couplers-Safety	A8339	Japan Construction Machinery and Construction Association	International Standardization Division
Plastic-Determination of scratch hardness of specialty films	K7317	Japan Chemical Innovation and Inspection Institute	International Standardization Division

(Accredited SDO- Japanese Standards Association)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Information technology-Generic cabling for customer premises-Part 3: Industrial premises	X5150-3	Japanese Standards Association	International Electrotechnology Standardization Division
Information technology-Implementation and operation of customer premises cabling-Part 4: Measurement of end-to-end (E2E) links, modular plug terminated links (MPTLs) and direct attach cabling	X5153	Japanese Standards Association	International Electrotechnology Standardization Division

(Total standards newly established:7)

## 2.Revised standards

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Testing methods of sealants for sealing and glazing in buildings	A1439	Japan Sealant Industry Association	International Standardization Division
Sealants for sealing and glazing in buildings	A5758	Japan Sealant Industry Association	International Standardization Division
Spray-applied rigid polyurethane foam for thermal insulation	A9526	The Japan Plastics Industry Federation	International Standardization Division
Gauges for taper pipe threads-Measuring method	B0262	Japan Precision Measuring Instruments Manufacturers Association	International Standardization Division
Aneroid pressure gauges-Part 2: Measuring instruments used in transaction or certification	B7505-2	Japan Measuring Instruments Federation	International Standardization Division
Boiler feed water, boiler water and steam quality-Testing methods	B8224	Thermal And Nuclear Power Engineering Society	International Standardization Division
Aluminium dross for iron and steel making	G2402	Japan Aluminium Association	International Standardization Division
Aluminium dross for iron and steel making-Sampling and sample preparation procedures	G2403	Japan Aluminium Association	International Standardization Division
Methods for chemical analysis of aluminium dross for iron and steel making	G2404	Japan Aluminium Association	International Standardization Division
Method for photoelectric emission spectrochemical analysis of zinc metal	H1113	Japan Mining Industry Association	International Standardization Division
Aluminium and aluminium alloy extruded profiles	H4100	Japan Aluminium Association	International Standardization Division
Magnesium alloy castings	H5203	The Japan Magnesium Association	International Standardization Division
General rules for ICP-mass spectrometry	K0133	Japan Analytical Instruments Manufacturers' Association	International Standardization Division
Fuel gases and natural gas - Methods for chemical analysis and testing	K2301	The Japan Gas Association	International Standardization Division
Ores-Methods for determination of copper	M8121	Japan Mining Industry Association	International Standardization Division
Metallic powders-Determination of particle size by dry sieving	Z2510	Japan Power Metallurgy Association	International Standardization Division

(Accredited SDO- Japanese Standards Association)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
International Standard Recording Code (ISRC)	X0308	Japanese Standards Association	International Electrotechnology Standardization Division

(Accredited SDO-The Japan Iron and Steel Federation)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Method of macro-streak-flaw test for steel	G0556	The Japan Iron and Steel Federation	International Standardization Division
Method of spark test for steels	G0566	The Japan Iron and Steel Federation	International Standardization Division
Rerolled steel bars for concrete reinforcement	G3117	The Japan Iron and Steel Federation	International Standardization Division
Hot-dip zinc-coated steel sheet and strip	G3302	The Japan Iron and Steel Federation	International Standardization Division
Hot-dip aluminium-coated steel sheet and strip	G3314	The Japan Iron and Steel Federation	International Standardization Division
Hot-dip zinc-5 % aluminium alloy-coated steel sheet and strip	G3317	The Japan Iron and Steel Federation	International Standardization Division
Hot-dip 55 % aluminium-zinc alloy-coated steel sheet and strip	G3321	The Japan Iron and Steel Federation	International Standardization Division
Hot-dip zinc-aluminium-magnesium alloy-coated steel sheet and strip	G3323	The Japan Iron and Steel Federation	International Standardization Division
Steel tubes for fired heater	G3467	The Japan Iron and Steel Federation	International Standardization Division
Polyethylene coated steel pipes-Part 1: External 3 layer extruded polyethylene coated steel pipes	G3477-1	The Japan Iron and Steel Federation	International Standardization Division
Polyethylene coated steel pipes-Part 2: External extruded polyethylene coated steel pipes	G3477-2	The Japan Iron and Steel Federation	International Standardization Division
Polyethylene coated steel pipes-Part 3: External polyethylene powder coated steel pipes	G3477-3	The Japan Iron and Steel Federation	International Standardization Division

(Total standards revised:29)
