

Appendix 1

List of Newly Established and Revised JIS Publicly Notified on June 20, 2024

< Division in charge and telephone number >

International Standardization Division (e-mail: bzl-s-kijun-ISO@meti.go.jp direct line: 03-3501-9283)

International Electrotechnology Standardization Division (e-mail: bzl-s-iec@meti.go.jp direct line: 03-3501-9287)

1. Newly established standards

(Japanese Industrial Standards Committee)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Shutter for residential window	A4717	Japan Sash Manufacturers Association	International Standardization Division
Fine grain ferronickel-slag	A5016	Japanese Standards Association	International Standardization Division
Geometrical product specifications (GPS)-Population specification	B0626	Japan Society For Design Engineering	International Standardization Division
Nondestructive testing-Method of measurement for mechanical impedance of bolted joints	Z2339	Japanese Standards Association	International Standardization Division

(Total standards newly established: 4)

2. Revised standards

(Japanese Industrial Standards Committee)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Information security, cybersecurity and privacy protection-Information security controls	Q27002	Japanese Standards Association	International Electrotechnology Standardization Division
Glass in building-Destructive-windstorm-resistant security glazing-Test method	R3109	Flat Glass Manufacturers Association Of Japan	International Standardization Division
Wafer type rubber-seated butterfly valves	B2032	Japan Valve Manufacturers' Association	International Standardization Division
General safety code for industrial combustion furnaces-Part 2: Combustion and fuel handling systems	B8415-2	Japan Industrial Furnace Manufacturers Association	International Standardization Division
Safety match	S4001	Japan Match Manufacturers' Association	International Standardization Division

(Submitted by Accredited SDO-The Japan Iron And Steel Federation)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Glossary of terms used in iron and steel (Testing)	G0202	The Japan Iron And Steel Federation	International Standardization Division
Steel and steel products - Inspection documents	G0415	The Japan Iron And Steel Federation	International Standardization Division
Method of sulphur print for steel	G0560	The Japan Iron And Steel Federation	International Standardization Division

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Automated full peripheral ultrasonic thickness examination of steel pipes and tubes	G0589	The Japan Iron And Steel Federation	International Standardization Division
Iron and steel - Determination of selenium - Spectrophotometric method after extraction of 2,3-diaminonaphthalene complex	G1233	The Japan Iron And Steel Federation	International Standardization Division
Prepainted hot-dip zinc-coated steel sheet and strip	G3312	The Japan Iron And Steel Federation	International Standardization Division
Prepainted hot-dip zinc-5 % aluminium alloy-coated steel sheet and strip	G3318	The Japan Iron And Steel Federation	International Standardization Division
Prepainted hot-dip 55 % aluminium-zinc alloy-coated steel sheet and strip	G3322	The Japan Iron And Steel Federation	International Standardization Division
Nickel and nickel alloys - Sampling and general rules for analytical methods	H1270	The Japan Iron And Steel Federation	International Standardization Division
Vickers hardness test-Part 1: Test method	Z2244-1	The Japan Iron And Steel Federation	International Standardization Division

(Total standards revised: 15)
