

Appendix 1

List of Newly Established and Revised JIS Publicly Notified on August 20, 2024

<Division in charge and telephone number>

International Standardization Division (e-mail: bzl-s-kijun-ISO@meti.go.jp direct line: 03-3501-9283)

International Electrotechnology Standardization Division (e-mail: bzl-s-kijun-IEC@meti.go.jp direct line: 03-3501-9287)

1. Newly established standards

(Japanese Industrial Standards Committee)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Requirements related to service quality for organizations providing drone services	Y1011	Public Interest Incorporated Foundation of Fukushima Innovation Coast Framework Promotion Organizati	International Standardization Division

(Total standards newly established: 1)

2. Revised standards

(Japanese Industrial Standards Committee)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Textiles-Care labelling code using symbols	L0001	Japan Textile Evaluation Technology Council	International Standardization Division
Metal components for car port	A6604	Japan Exterior Industry Association	International Standardization Division
Gypsum boards	A6901	Gypsum Board Association Of Japan	International Standardization Division
Earth-moving machinery-Basic types-Identification and vocabulary	A8308	Japan Construction Machinery And Construction Association	International Standardization Division
Earth-moving machinery-Graders-Part 1: Terminology and commercial specifications	A8423-1	Japan Construction Machinery And Construction Association	International Standardization Division
Gray cast iron valves	B2031	Japan Valve Manufacturers' Association	International Standardization Division
Connections for fluid power and general use-Ports and stud ends with ISO 261 metric threads and O-ring sealing-Part 1: Ports with truncated housing for O-ring seal	B2355-1	Japan Fluid Power Association	International Standardization Division
Lamp controlgear-Part 2-13: Particular requirements for d.c. or a.c. supplied electronic controlgear for LED modules	C8147-2-13	Japan Lighting Manufacturers Association	International Electrotechnology Standardization Division

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Low-voltage switchgear and controlgear-Part 1: General rules	C8201-1	The Japan Electrical Manufacturers' Association	International Electrotechnology Standardization Division
Secondary sealed nickel-cadmium cells and batteries for portable applications	C8705	Battery Association Of Japan	International Electrotechnology Standardization Division
Arc welding equipment-Part 10: EMC requirements	C9300-10	The Japan Welding Engineering Society	International Electrotechnology Standardization Division
Household and similar electrical appliances-Safety-Part 2-34: Particular requirements for motor-compressors	C9335-2-34	The Japan Refrigeration And Air Conditioning Industry Association	International Electrotechnology Standardization Division
Textiles-Domestic washing and drying procedures for textile testing	L1930	Japan Textile Evaluation Technology Council	International Standardization Division
Information technology-Radio frequency identification for item management-RFID Emblem	X6352	Japan Electronics And Information Technology Industries Association	International Electrotechnology Standardization Division
Public information symbols	Z8210	Japanese Standards Association	International Standardization Division

(Submitted by Accredited SDO-Japanese Standards Association)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Packaging of components for automatic handling-Part 2: Tape packaging of components with unidirectional leads on continuous tapes	C0806-2	Japanese Standards Association	International Electrotechnology Standardization Division
Packaging of components for automatic handling-Part 3: Packaging of surface mount components on continuous tapes	C0806-3	Japanese Standards Association	International Electrotechnology Standardization Division
Directly heated negative temperature coefficient thermistors-Part 1: Generic specification	C2570-1	Japanese Standards Association	International Electrotechnology Standardization Division
Winding wires-Test methods-Part 2: Determination of dimensions	C3216-2	Japanese Standards Association	International Electrotechnology Standardization Division
Winding wires-Test methods-Part 5: Electrical properties	C3216-5	Japanese Standards Association	International Electrotechnology Standardization Division
Fixed capacitors for use in electronic equipment-Part 13: Sectional specification-Fixed polypropylene film dielectric metal foil d.c. capacitors	C5101-13	Japanese Standards Association	International Electrotechnology Standardization Division

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Fixed capacitors for use in electronic equipment-Part 14: Sectional specification-Fixed capacitors for electromagnetic interference suppression and connection to the supply mains	C5101-14	Japanese Standards Association	International Electrotechnology Standardization Division
Fixed electric double-layer capacitors for use in electric and electronic equipment-Part 1: Generic specification	C5160-1	Japanese Standards Association	International Electrotechnology Standardization Division
Fixed resistors for use in electronic equipment-Part 2: Sectional specification: Low-power film resistors with leads for through-hole assembly on circuit boards (THT)	C5201-2	Japanese Standards Association	International Electrotechnology Standardization Division
Fixed resistors for use in electronic equipment-Part 4: Sectional specification: Power resistors for through hole assembly on circuit boards (THT) or for assembly on chassis	C5201-4	Japanese Standards Association	International Electrotechnology Standardization Division
Connectors for electrical and electronic equipment-Tests and measurements-Part 15-2: Connector tests (mechanical)-Test 15b: Insert retention in housing (axial)	C5402-15-2	Japanese Standards Association	International Electrotechnology Standardization Division
Fiber optic active components and devices-Package and interface standards-Part 1: General and guidance	C5952-1	Japanese Standards Association	International Electrotechnology Standardization Division
Fiber optic active components and devices-Performance standards-Part 3: Modulator-integrated laser diode transmitters for 40 Gbit/s fiber optic transmission systems	C5953-3	Japanese Standards Association	International Electrotechnology Standardization Division
Fiber optic active components and devices-Performance standards-Part 4: 1?300 nm fiber optic transceivers for Gigabit Ethernet application	C5953-4	Japanese Standards Association	International Electrotechnology Standardization Division
Secondary sealed nickel-metal hydride cells and batteries for portable applications	C8708	Japanese Standards Association	International Electrotechnology Standardization Division
Classification of environmental conditions-Part 2-3: Environmental conditions appearing in nature-Air pressure	C60721-2-3	Japanese Standards Association	International Electrotechnology Standardization Division
Fiber optic interconnecting devices and passive components-Basic test and measurement procedures-Part 3-4: Examinations and measurements-Attenuation	C61300-3-4	Japanese Standards Association	International Electrotechnology Standardization Division
Electromechanical elementary relays-Part 1: General and safety requirements	C61810-1	Japanese Standards Association	International Electrotechnology Standardization Division

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Systems and software engineering-Systems and software assurance-Part 2: Assurance case	X0134-2	Japanese Standards Association	International Electrotechnology Standardization Division
Systems and software engineering-Life cycle processes-Risk management	X0162	Japanese Standards Association	International Electrotechnology Standardization Division
Guidelines for older persons and persons with disabilities-Information and communications equipment, software and services-Part 1: Common Guidelines	X8341-1	Japanese Standards Association	International Electrotechnology Standardization Division
Information technology-Cloud computing-Part 1: Vocabulary	X22123-1	Japanese Standards Association	International Electrotechnology Standardization Division

(Total standards revised: 37)
