

List of Figures and Tables

Figure I-1-1-1	Frequently used words seen in economic projection reports	2
Figure I-1-1-2	Changes in projections of global GDP growth rate.....	3
Figure I-1-1-3	Changes in important words seen in IMF World Economic Outlook.....	5
Figure I-1-1-4	Trends in global economic growth.....	6
Figure I-1-1-5	Risks that may have negative effects on global GDP growth rate	7
Figure I-1-1-6	Changes in uncertainty indices.....	8
Table I-1-2-1	Projections of real GDP growth rates in Russia for 2022 and result.....	9
Figure I-1-2-2	Changes in real GDP and components in Russia	10
Figure I-1-2-3	Crude oil and gas mining production in Russia and crude oil prices	11
Figure I-1-2-4	Revenue of the Federal Government of Russian.....	11
Figure I-1-2-5	Employment and nominal wages in Russia	12
Figure I-1-2-6	Employment in Russia by sector.....	12
Figure I-1-2-7	Exports of integrated circuits to Russia (2022).....	14
Figure I-1-2-8	Real GDP growth rates in Ukraine.....	14
Figure I-1-2-9	Export values of corn, sunflower oil, and wheat from major exporters	15
Figure and Table I-1-2-10	World trends in natural gas production and trends in Russia's trade	16
Figure I-1-2-11	Trends in natural gas supply to EU	17
Figure I-1-2-12	Trends in imports of natural gas (other than the EU).....	18
Figure I-1-2-13	Global trends in crude oil production and trends in Russia's trade.....	19
Figure I-1-2-14	Trends in imports of crude oil.....	20
Table I-1-2-15	Export restrictions related to food and energy enforced after February 24, 2022.....	21
Figure I-1-2-16	Changes in export values of wheat from major wheat exporters	25
Figure I-1-2-17	Trends in imports of wheat from Russia	26
Figure I-1-2-18	Trends in imports of wheat from Ukraine.....	26
Figure I-1-2-19	Changes in export values of fertilizers from major fertilizer exporters	27
Figure I-1-2-20	Trends in imports of fertilizers from Russia	28
Table I-1-2-21	Reference to Russia's aggression against Ukraine in the Communiqué released at the G7 Ministers' Meeting on Climate, Energy and Environment in Sapporo	30
Table I-1-2-22	Reference to Russia's aggression against Ukraine in the Communiqué released at the G7 Agriculture Ministers' Meeting in Miyazaki.....	33
Table I-1-2-23	Japan's responses to Russia's aggression against Ukraine	34
Figure I-1-2-24	Business facilities owned by Japanese companies in Russia and Ukraine.....	36
Figure I-1-2-25	Trends in business of Japanese companies in Russia.....	37
Figure I-1-3-1	Outlook of the global inflation rate	38
Figure I-1-3-2	Outlook of the inflation rate in developed countries.....	39
Figure I-1-3-3	Changes in the contributions to inflation in developed countries	39
Figure I-1-3-4	Outlook of inflation rate in emerging and developing countries.....	41
Table I-1-3-5	Main factors of inflation and countermeasures	42
Figure I-1-3-6	Changes in major energy prices	43

Figure I-1-3-7	Food price indices by item	43
Figure I-1-3-8	Trends in the Baltic container indices	44
Figure I-1-3-9	Trends in container charges	45
Figure I-1-3-10	ISM economic index in the U.S. (manufacturing and service industries).....	45
Figure I-1-3-11	Constraining factors for the manufacturing sector in Europe	46
Figure I-1-3-12	Changes in growth rates of nominal wages and real wages in developed countries..	46
Figure I-1-3-13	Increase in the cost burden related to energy and food from 2019 average in Japan (% in income).....	48
Figure I-1-3-14	Gaps between the shares of expenditures on goods by income bracket and the inflation rate by income bracket (U.S.).....	48
Table I-1-3-15	Countermeasures for consumers taken against inflation in major countries.....	49
Figure I-1-3-16	Changes in policy interest rates in G20 countries and regions.....	54
Table I-1-3-17	Changes in economic projections in G20 countries and regions.....	55
Figure I-1-3-18	Financial Conditions Indices in countries and regions.....	57
Figure I-1-3-19	Changes in banks' stance on lending in countries and regions	57
Figure I-1-3-20	Changes in demand for loans in countries and regions	58
Figure I-1-3-21	Changes in the outstanding balance of credit to non-financial corporations and households.....	59
Figure I-1-3-22	Housing prices in G20 countries and regions	60
Figure I-1-3-23	Stock markets in developed and emerging countries	61
Figure I-1-3-24	Outstanding balance of financial assets held by households in countries and regions	62
Table I-1-4-1	Exchange arrangements by category and adopting countries	64
Figure I-1-4-2	Currency indexes in emerging and developing regions	66
Figure I-1-4-3	Changes in foreign currencies reserves in emerging and developing regions	66
Figure I-1-4-4	External debts in emerging and developing regions	68
Figure I-1-4-5	Measures against COVID-19 by regional income classification	68
Figure I-1-4-6	Real GDP growth rates by regional income classification.....	69
Figure I-1-4-7	Central bank independence index for G20 (except G7).....	71
Figure I-1-4-8	Reserves of major important resources.....	72
Figure I-1-4-9	External debt repayments by region.....	73
Table I-1-4-10	Outline of the Paris Club.....	74
Figure and Table I-1-4-11	Number of debt restructuring cases agreed upon at the Paris Club and details thereof in recent years	76
Table I-1-4-12	Debt restructuring arrangements involving a debt swap provision.....	78
Figure I-1-4-13	Share of borrowings from Paris Club members in each country's external debts (2021).....	80
Figure I-1-4-14	U.S. policy and long-term interest rates, and commercial bank deposits	81
Figure I-1-4-15	Securities investment flows to emerging countries.....	81
Figure I-1-4-16	Changes in outstanding balance of external debts by country	83

Figure I-1-4-17	Changes in ratio of external debts to nominal GDP by country.....	83
Figure I-1-4-18	Changes in exchange rate of each country's currency against dollar.....	84
Figure I-1-4-19	Share of foreign currency-denominated debts in overall external debts.....	85
Figure I-1-4-20	Changes in ratios of external debt repayment by country.....	85
Figure I-1-4-21	Rate of change in the level of foreign currency reserves.....	86
Figure I-1-4-22	Level of foreign currency reserves.....	86
Figure I-1-4-23	Changes in ratio of current account balance to nominal GDP.....	87
Figure I-1-4-24	Changes in outstanding balance of external debts and those in ratio of external debts to nominal GDP in five major countries in Central and Latin America.....	88
Figure I-1-4-25	Share of foreign currency-denominated debts in overall external debts in five major countries in Central and Latin America.....	89
Figure I-1-4-26	Rate of appreciation/depreciation in domestic currencies of five major countries in Central and Latin America against U.S. dollar.....	90
Figure I-1-4-27	Changes in level of foreign currency reserves in five major countries in Central and Latin America.....	91
Figure I-1-4-28	Ratios of current account balance to nominal GDP in five major countries in Central and Latin America.....	92
Figure I-1-4-29	Changes in outstanding balance of external debts and those in ratio of external debts to nominal GDP in five major countries in Africa.....	93
Figure I-1-4-30	Changes in level of foreign currency reserves in major countries in Africa.....	94
Figure I-1-4-31	Ratio of current account balance to nominal GDP in five major countries in Africa.....	95
Column Figure I-1	Changes in ratio of external debt outstanding in three South and Central American countries (to GNI).....	97
Figure I-1-5-1	Changes in the total value of trade and major countries' shares (before World War II).....	99
Figure I-1-5-2	Changes in the total value of trade and major countries' shares (since 1960).....	100
Figure I-1-5-3	Export and import trends in Japan-U.S. trade.....	101
Figure I-1-5-4	U.S.-China export and import trends.....	103
Figure I-1-5-5	U.S.-China export and import trends (by end-use commodity category).....	104
Table I-1-5-6	Top 10 items in U.S.-China trade.....	104
Figure I-1-5-7	U.S.-China export and import trends in the advanced technology sector.....	105
Figure I-1-5-8	Trend in U.S. exports to China (in the advanced technology and other sectors).....	106
Figure I-1-5-9	Trend in the shares of the advanced technology sector in U.S. exports to China (by technology group).....	106
Figure I-1-5-10	Impact of "decoupling" on the global economy (upper figure: Scenario 1; lower figure: Scenario 2).....	110
Table I-1-5-11	Overview of conferences, speeches, etc. in which references to economic coercion were made (since 2022).....	111
Figure I-2-1-1	Price fluctuation mechanism from the viewpoint of demand and supply curves (conceptual picture).....	115

Figure I-2-1-2	Measures for curbing inflation	116
Figure I-2-1-3	Decomposition of unit labor costs.....	117
Figure I-2-1-4	Inflation-suppressing effect of capital stock and total factor productivity per employee	118
Figure I-2-1-5	Decomposition of labor productivity	119
Figure I-2-1-6	Distribution of Composite Trade Share (CTS)	120
Figure I-2-1-7	World distribution of CTS (2019).....	121
Figure I-2-1-8	CTS and total factor productivity.....	122
Figure I-2-1-9	Worldwide Governance Indicators (2021).....	123
Figure I-2-1-10	Relationship between global governance indicators and trade reduction effects due to increased uncertainty.....	124
Figure I-2-2-1	Changes in average annual nominal GDP growth rates in China and the Global South	134
Figure I-2-2-2	Demographic projections for China and the Global South	134
Figure I-2-2-3	Efforts for striking the balance between a free trade regime and economic security	135
Table I-2-3-1	Global risks ranked by severity over the next 10-year period.....	139
Table I-2-3-2	Assessment of impact of human activities on global warming	140
Table I-2-3-3	SDGs and targets of Sustainable Development Goal 13	142
Figure I-2-3-4	Wedding cake model.....	143
Figure I-2-3-5	Major EU climate change policies	149
Column Figure 2-1	Conceptual picture of Doughnut Economics	152
Figure I-2-3-6	Overview of Respect for Human Rights in Responsible Supply Chains	161
Figure II-1-1-1	Changes in balance of outward direct investment by Japan (manufacturing).....	163
Figure II-1-1-2	Changes in balance of outward direct investment from Japan to major Asian countries and regions (manufacturing).....	163
Table II-1-1-3	Number of Japanese companies' overseas subsidiaries (FY2020)	164
Figure II-1-1-4	Locations and procurements of Japanese manufacturing subsidiaries (FY2020)	165
Figure II-1-1-5	Procurement sources (value) of Japanese manufacturing subsidiaries located in Asia (China and ASEAN)	166
Figure II-1-1-6	Procurement sources (share) of Japanese manufacturing subsidiaries located in Asia (China and ASEAN)	167
Figure II-1-1-7	Procurement sources of Japanese manufacturing subsidiaries located in Asia (by industry)	167
Figure II-1-1-8	Share of procurement sources in total procurement by machinery manufacturing industries located in Japan	168
Figure II-1-1-9	Share of procurement sources for machinery manufacturing industries located in Japan (by industry).....	169
Figure II-1-1-10	Share of procurements from related companies in the procurement of machinery manufacturing industries located in Japan	170

Figure II-1-1-11	Number of new establishments, withdrawal, etc. by local Japanese manufacturing subsidiaries.....	171
Figure II-1-1-12	Major industries to which companies withdrawn, etc. belong (FY2020)	171
Figure II-1-1-13	Forward and backward participation in global value chains.....	173
Figure II-1-1-14	Participation of major countries in global value chains (forward and backward linkages with the world).....	173
Figure II-1-1-15	Forward and backward linkages between major countries and regions and China..	175
Figure II-1-1-16	Changes in forward and backward linkages between major countries and regions and China (1995 → 2000 → 2005 → 2010 → 2015 →2018).....	176
Figure II-1-1-17	Linkages between major countries and regions and China (electric and electronic equipment, and automobiles)	177
Figure II-1-1-18	Shares of U.S. and China in exports from major countries and regions (2000→2015→2021)	178
Figure II-1-1-19	Experience of supply chain disruption since 2020.....	180
Figure II-1-1-20	Countries and regions in which supply chain disruptions occurred (FY2020-FY2022)	180
Figure II-1-1-21	Impact of supply chain disruptions on production and sales	181
Figure II-1-1-22	Perception of challenges based on the experience of supply chain disruptions	182
Figure II-1-1-23	Countries and regions where supply chain risk has heightened.....	183
Figure II-1-1-24	Supply chain risks	184
Figure II-1-1-25	Countries and regions considered important as procurement sources, sales and direct investment destinations	185
Figure II-1-1-26	Reasons for considering China and ASEAN6 important as direct investment destinations.....	186
Figure II-1-1-27	Promising countries as locations for future business operations in the medium and long terms.....	187
Figure II-1-1-28	Changes in the rates of business “expansion” in the short term.....	188
Figure II-1-1-29	Management problems in India.....	189
Figure II-1-1-30	Demographic Indicators of the United Nations Population Fund (UNFPA)	189
Figure II-1-1-31	Status of the internal system to manage supply chain risk.....	190
Figure II-1-1-32	Status of actual situations identified in supply chains.....	191
Figure II-1-1-33	Challenges in identifying the actual status of supply chains.....	192
Column Figure 4-1	Key Points of the ASEAN-Japan Economic Co-Creation Vision (Interim Report)	195
Figure II-1-1-34	Overseas production ratio and overseas capital investment ratio of Japanese manufacturing industry	196
Figure II-1-1-35	Overseas production ratio of the manufacturing industry in Japan (by industry)	197
Figure II-1-1-36	Changes in indices of production capacity.....	198
Figure II-1-1-37	Changes in total industrial supply, domestic production, and import indices.....	198
Figure II-1-1-38	Import penetration ratio by industry	199

Figure II-1-1-39	Import source concentration in Japan and major countries.....	199
Figure II-1-1-40	Import source concentration and share of top importing countries in Japan.....	200
Figure II-1-1-41	Global shares of semiconductor sales	201
Figure II-1-1-42	Import source concentration of semiconductor devices and integrated circuits in Japan	202
Figure II-1-2-1	Outline of the Economic Security Promotion Act	206
Table II-1-2-2	Specified critical products designated in the Cabinet Orders.....	208
Figure II-1-2-3	Status of an initiative related to economic security.....	215
Figure II-1-2-4	Current status of systems developed related to economic security	216
Figure II-1-2-5	Challenges in systems developed related to economic security.....	217
Figure II-2-1-1	Changes in current account balance in Japan.....	219
Figure II-2-1-2	Changes in trade balance in Japan (by main product item).....	220
Figure II-2-1-3	Changes in trade balance by main product item in Japan compared with the level in 2000.....	221
Figure II-2-1-4	Changes in trade balance (by major region).....	221
Figure II-2-1-5	Changes in trade balance by main product item and by major region (from the first half of the 2000s to the second half of the 2010s)	222
Figure II-2-1-6	Changes in electrical machinery imports from China by product item compared with 2000.....	222
Figure II-2-1-7	Changes in service balance	223
Figure II-2-1-8	Changes in service balance by region	224
Figure II-2-1-9	Changes in primary income balance in Japan	225
Figure II-2-1-10	Changes in Japan's direct investment income receipts by region	225
Figure II-2-1-11	Changes in the ratio of direct investments withdrawn to direct investments implemented.....	226
Table II-2-1-12	Change in Japan's income earning power seen from current account balance	226
Figure II-2-2-1	Explanations of decomposition of change in trade balance into factors	228
Figure II-2-2-2	Decomposition of rate of change in trade balance into factors in 2022	229
Figure II-2-2-3	Composition of primary energy supply in Japan	230
Figure II-2-2-4	Elasticity of mineral fuel imports to an increase of one unit of real GDP	230
Figure II-2-2-5	Export promoting effect backed by the depreciation of yen (against dollars)	232
Figure II-2-2-6	Changes in dollar-denominated unit prices and the status of yen-denominated export income (from 2021 to 2022)	233
Figure II-2-2-7	Changes in yen-denominated export income backed by 10% fall in dollar-denominated unit prices	234
Figure II-2-2-8	Rate of change in dollar-denominated unit price (from 2021 to 2022).....	235
Table II-2-3-1	Main background to border control measures for tourism.....	238
Figure II-2-3-2	Changes in the number of foreign tourists to Japan (from January 2019 to March 2023)	239

Figure II-2-3-3	Comparison of consumption value spent by foreign tourists to Japan and export value by major product item (2019).....	240
Table II-2-3-4	Production spillover effects brought by consumption by foreign tourists to Japan (2019).....	241
Figure II-2-3-5	Changes in the number of foreign tourists to Japan by country/region of origin and the consumption value spent by them (from 2003 to 2022).....	243
Figure II-2-3-6	Composition ratio of consumption value spent by foreign tourists to Japan by nationality and region (2019).....	244
Table II-2-3-7	Factors of growth in the number of foreign tourists to Japan	245
Figure II-2-3-8	Changes in Real GDP and exchange rates in major East Asian countries and regions.....	246
Table II-2-3-9	Situations of relaxation of major visa requirements for foreign tourists to Japan ...	246
Figure II-2-3-10	Changes in exchange rates and the number of foreign tourists to Japan (from January 2010 to March 2023).....	247
Figure II-2-3-11	Changes in value of tourism expenditure per foreign tourist to Japan and growth rate	248
Figure II-2-3-12	Percentage of visitors among foreign tourists to Japan in top 20 prefectures (2019)	249
Figure II-2-3-13	Ranking of countries in the number of foreign tourists accepted (2019).....	250
Figure II-2-3-14	Travel & Tourism Development Index 2021 Rebuilding for a Sustainable and Resilient Future	251
Figure II-2-4-1	Effects of start of overseas expansion (growth rates after five years).....	255
Figure II-2-4-2	Comparison of total factor productivity	256
Figure II-2-4-3	Comparison of compensation per employee	257
Figure II-2-4-4	Impact of an increase in the overseas production ratio of global companies on the value of exports from business establishments located in the region around the global companies' domestic business establishments.....	259
Figure II-2-4-5	Capital expected to be acquired and returned to Japan by companies' overseas expansion	260
Figure II-2-4-6	Results of questionnaire survey on companies' export policies.....	261
Figure II-2-4-7	Challenges that companies face in exports	262
Figure II-2-4-8	Future overseas expansion policy	262
Figure II-2-4-9	Companies' reasons for selecting a business expansion location	264
Figure II-2-4-10	Changes in and directions of trade and services balance, investment income, and current account balance.....	264
Figure II-2-4-11	Three viewpoints for promoting overseas expansion of Japanese companies	266
Figure II-2-4-12	Directions of measures for promoting overseas expansion.....	267
Column Figure5-1	Overview of Japan and Emerging countries CO-creation Project (JECOP) and scenes of business matching events	269
Column Figure 5-2	Scenes from training programs for local coordinators.....	270

Figure II-2-5-1	Relationship between the value of venture capital investments and total factor productivity (TFP).....	272
Figure II-2-5-2	Changes in the value of venture capital investments (rates to GDP) in G7 member countries	273
Figure II-2-5-3	Changes in world venture capital investments	273
Table II-2-5-4	Large-scale fund-raising in 2022 (top 10 companies by quarter)	274
Figure II-2-5-5	Number of IPOs in the world	276
Figure II-2-5-6	Changes in the value of funds raised.....	276
Figure II-2-5-7	Changes in share prices of U.S. tech companies through the end of 2022	277
Figure II-2-5-8	Value of funds raised by domestic startups.....	277
Table II-2-5-9	Case examples of large-scale fund-raising by startups in Japan (2022).....	278
Figure II-2-5-10	Number of unicorn companies by country (as of February 2023)	281
Figure II-2-5-11	Changes in the rates of R&D expenditures to GDP in Asian countries	282
Figure II-2-5-12	Projects adopted as Asia DX support projects (ASEAN) by sector and country (2022)	283
Figure II-2-5-13	Change in the number of foreign professionals admitted under the Points-based System for Highly Skilled Foreign Professionals (total)	285
Figure II-2-5-14	Preferential treatments in other countries for highly skilled foreign professionals that were newly established in FY2022	287
Figure II-2-5-15	Number of foreign students worldwide and share of each country (those who were accepted)	289
Figure II-2-5-16	Changes in the number of foreign students accepted by major countries	289
Figure II-2-5-17	Percentage of foreign students by course of study	290
Table II-2-5-18	Framework of the OECD Indicators of Talent Attractiveness	291
Figure II-2-5-19	Talent attractiveness ranking by ITA group (2023)	295
Figure II-2-5-20	Comparison of attractiveness between Japan and Singapore based on GTCI	295
Figure II-2-5-21	Roadmap for the Realization of a Society of Harmonious Coexistence with Foreign Nationals	297
Figure II-2-5-22	Changes in the number of foreign students who graduated or completed their courses at universities and graduate schools, the number of students employed in Japan, and employment rates of foreign students in Japan	298
Figure II-2-5-23	Career path after graduation of graduates	299
Figure II-2-5-24	Types of companies where foreign students would like to work	300
Figure II-2-5-25	Challenges in recruiting highly skilled foreign professionals in Japan	301
Figure II-2-5-26	Main measures for encouraging foreign students to settle in Japan.....	302
Figure II-2-5-27	Levels of communication in Japanese required to foreign students at the time of tentative employment offer (selection) and after employment	303
Figure II-2-5-28	Status of employee evaluation and treatment developed	304
Figure II-2-5-29	Changes in the amount of FDI stocks in Japan	305

Figure II-2-5-30	Countries and regions that foreign companies consider to be the most attractive as business bases	307
Figure II-2-5-31	Strong points and weak points of business environments in Japan in comparison with other developed countries	308
