

## List of Figures and Tables

Figure I-1-1-1.	Projection of real GDP growth rates .....	1
Figure I-1-1-2.	Real GDP growth rates by country and region in 2023 .....	3
Figure I-1-1-3.	Long-term projection of real GDP growth rates and changes therein.....	3
Figure I-1-1-4.	Projection of inflation rates.....	5
Figure I-1-1-5.	Changes in policy interest rates in G20 countries and regions .....	5
Figure I-1-1-6.	Changes in foreign currency reserves in emerging and developing regions .....	7
Figure I-1-1-7.	Amount of the outstanding balance of external debts in emerging and developing regions .....	8
Figure I-1-1-8.	Amount of external debt repayments in emerging and developing regions.....	9
Figure I-1-1-9.	Rates of exports and primary income to external debt repayments .....	10
Column Figure 1-1.	Chinese investment projects in Africa (2014-2023).....	11
Column Figure 1-2.	Outstanding balance of direct investments in Africa by country (comparison between 2017 and 2021) .....	12
Column Figure 1-3.	Profitability (net profit rate) of Japanese companies' foreign subsidiaries .....	13
Column Figure 1-4.	Proportion and profitability of the manufacturing industry in the investment in Africa .....	14
Column Table 1-5.	Year-to-year changes in industries having conducted many M&A projects .....	14
Figure I-3-1-1.	Changes in outstanding balance of Japan's outward direct investments (manufacturing industry).....	16
Figure I-3-1-2.	Outstanding balance of Japan's outward direct investments in major Asian countries and regions (manufacturing sector) .....	17
Table I-3-1-3.	Number of Japanese companies' overseas subsidiaries (FY2021).....	18
Figure I-3-1-4.	Sales of Japanese manufacturing industries by location region (FY2021) .....	18
Figure I-3-1-5.	Number of new establishments and withdrawals, etc. of Japanese manufacturing subsidiaries .....	19
Figure I-3-1-6.	Direction of business development for the next 1-2 years (by major country and region) .....	20
Column Figure 2-1.	Scenes from training at the head office and business operations at the subsidiary in India.....	22
Figure I-3-1-7.	Amount of procurements by machinery manufacturing industries in Japan and share by procurement source.....	24
Figure I-3-1-8.	Amount of procurements by machinery manufacturing industries in Japan and share by procurement source (by industry) .....	25
Figure I-3-1-9.	Share of procurements from companies with which machinery manufacturing industries in Japan have a relationship .....	26
Figure I-3-1-10.	Forward or backward participation in global value chains .....	27
Figure I-3-1-11.	Participation of major countries in global value chains.....	27

Figure I-3-1-12. Forward and backward linkages between major countries and regions and China (2020)	29
Figure I-3-1-13. Changes in forward and backward linkages between major countries and regions and China (1995 → 2000 → 2005 → 2010 → 2015 → 2018 → 2020).....	30
Figure I-3-1-14. Linkages between major countries and regions and China (electric and electronic equipment, and automobiles in 2020) .....	31
Figure I-3-1-15. Shares of China in imports by the U.S. ....	32
Figure I-3-1-16. Imports by the U.S. from China (2020).....	33
Figure I-3-1-17. Imports by the U.S. from China (by country and region of last transit) .....	34
Figure I-3-1-18. Countries of last transit of Chinese value added contained in imports by the U.S. ....	34
Figure I-3-1-19. Region-by-region shares of imports by the U.S. ....	35
Figure I-3-1-20. Shares of Chinese value added in exports from countries and regions to the U.S. ....	35
Figure I-3-1-21. Shares of the U.S. and China in exports from major countries and regions (2000 → 2015 → 2020 → 2023) .....	36
Figure I-3-2-1. Changes in current account balance in Japan .....	38
Figure I-3-2-2. Changes in trade balance in Japan.....	39
Table I-3-2-3. Export value in Japan (by major item) .....	39
Table I-3-2-4. Import value in Japan (by major item) .....	40
Table I-3-2-5. Export value in Japan (by major region).....	40
Table I-3-2-6. Import value in Japan (by major region) .....	41
Figure I-3-2-7. Breakdown of factors affecting the trade balance (change from 2021 levels, estimates) .....	42
Figure I-3-2-8. Changes in services balance in Japan.....	42
Table I-3-2-9. Service-related receipts in Japan (by breakdown) .....	44
Table I-3-2-10. Service-related payments (by breakdown) .....	44
Figure I-3-2-11. Changes in the primary income balance in Japan.....	45
Table I-3-2-12. Primary income receipts in Japan (by breakdown).....	46
Table I-3-2-13. Primary income payments in Japan (by breakdown).....	46
Figure II-1-1-1. Changes in uncertainty indexes.....	48
Figure II-1-1-2. Number of cases of use of the WTO's dispute settlement system .....	49
Table II-1-1-3. Outlines of major meetings at which references to economic coercion were made (meetings held since 2022) .....	52
Figure II-1-2-1. Shares in the production of critical minerals .....	60
Figure II-1-3-1. Changes in subsidies to 10 priority sectors designated under the Made in China 2025 initiative .....	65
Table II-1-3-2. Outline of the new Washington consensus .....	67
Table II-1-3-3. Requirements for EV tax credits .....	69
Table II-1-3-4. National security guardrail provisions contained in the CHIPS and Science Act .....	71
Table II-1-3-5. Outline of the Green Deal Industrial Plan .....	73

Table II-1-3-6.	Value of tax credit per unit of target products under the tax concessions for promoting domestic production in strategic areas .....	76
Table II-1-3-7.	Plans falling under the scope of filing an application and receiving an approval for measures to support semiconductor production .....	77
Figure II-1-3-8.	Market equilibrium prices and production volumes in Countries A and B in the initial state.....	79
Figure II-1-3-9.	Changes in international prices and trade volumes in the case where Country B provides domestic companies with an industrial subsidy .....	79
Figure II-1-3-10.	Changes in international prices and trade volumes in the case where not only Country B but also Country A provide domestic companies with an industrial subsidy .....	80
Figure II-1-3-11.	Economic approaches to securing a level playing field (pictures for illustrative purpose) .....	81
Column Figure 3-1.	Number of chairperson and equivalent posts assumed at ISO working groups .....	83
Column Table 3-2.	Number of ISO/IEC international secretariats assumed by countries.....	84
Column Figure 3-3.	Japanese-style standardization acceleration model .....	84
Figure II-1-4-1.	Basic concept of the Slow model (conceptual picture).....	87
Figure II-1-4-2.	Estimation results of conditional convergence .....	89
Figure II-1-4-3.	Changes in GDP by region (PPP base; total values).....	91
Figure II-1-4-4.	Breakdown of GDP by region.....	92
Figure II-1-4-5.	Impact of mid- to long-term global economic growth to trade structure .....	94
Figure II-1-4-6.	Numbers of Japan's overseas subsidiaries in manufacturing and wholesale and retail trade industries in 2019.....	96
Figure II-1-4-7.	Forecasts of the future magnification of the numbers of Japan's overseas subsidiaries between 2019 and 2075 .....	96
Figure II-1-4-8.	GDP per capita, population, and GDP by income group .....	98
Figure II-1-4-9.	Relationship between growth factors and GDP per capita growth rates .....	101
Figure II-1-4-10.	Relationship between growth factors and the gaps of GDP per capita growth rates between estimated and observed ones.....	102
Figure II-1-5-1.	Most serious global risks expected over the next 10 years.....	107
Figure II-1-5-2.	Planetary boundaries.....	112
Table II-1-5-3.	Major trends in accordance with some conventions, etc. ....	116
Table II-1-5-4.	Major trends in TCFD and TNFD .....	118
Figure II-1-5-5.	Overview of Respecting Human Rights in Responsible Supply Chains.....	125
Figure II-2-1-1.	Distribution of the Herfindahl-Hirschman Index values in major countries .....	132
Figure II-2-1-2.	Number of items for which the countries depend on specific import sources for 50% or higher of imports (tallied by import source country).....	133
Figure II-2-1-3.	Characteristics of items whose HHI value is higher than 50 (tallied based on the products falling under the 2-digit HS code).....	134
Figure II-2-2-1.	Countries/regions on which Japanese companies have a high level of procurement dependency and the levels of dependency.....	136

Table II-2-2-2.	Top 5 industries as the largest procurement source by country/region on which Japanese companies have a high level of procurement dependency.....	137
Table II-2-2-3.	Top 10 industries as the largest procurement source for Japanese companies by industry and workforce size .....	138
Figure II-2-2-4.	Types of Japanese companies' procured goods by country/region on which the companies have a high level of procurement dependency.....	140
Figure II-2-2-5.	Types of Japanese companies' procured goods by industry and workforce size.....	141
Figure II-2-2-6.	Types of supplier companies by country/region on which Japanese companies have a high level of procurement dependency .....	142
Figure II-2-2-7.	Details of Japanese companies' risk recognition by country/region on which the companies have a high level of procurement dependency.....	143
Figure II-2-2-8.	Status of Japanese companies' engagement in the activity to reduce procurement dependency by country/region on which the companies have a high level of the dependency .....	144
Figure II-2-2-9.	Status of engagement in the activity to reduce dependency among Japanese companies by industry and workforce size .....	145
Figure II-2-2-10.	Countries/regions considered to be promising as alternative procurement sources ...	146
Figure II-2-2-11.	Reasons for selecting countries/regions as promising alternative procurement sources classified by country/region .....	147
Figure II-2-2-12.	Reasons for facing difficulty in engaging in the activity to reduce procurement dependency .....	148
Figure II-2-2-13.	Reasons for feeling no need to engage in the activity to reduce procurement dependency .....	149
Column Figure 5-1.	Pictures showing the factory building, a scene from a manufacturing process, and a turret punch press of the subsidiary in the Philippines .....	150
Figure II-2-2-14.	Challenges in increasing supply chain resilience in manufacturing, including procurement and sales.....	152
Figure II-2-2-15.	Challenges in increasing supply chain resilience in wholesale/retail trade, including procurement and sale .....	153
Figure II-2-2-16.	Response-by-response characteristics of differences in companies' engagement in the activity to reduce the level of procurement dependency .....	155
Figure II-2-2-17.	Response-by-response characteristics of alternative procurement sources.....	157
Figure II-2-2-18.	Trade structures of major countries and regions regarding intermediate goods and services .....	159
Figure II-2-2-19.	Status of intermediate inputs from overseas in major countries and regions (2020/FPEM).....	160
Figure II-2-2-20.	Changes in FPEM in major countries.....	161
Figure II-2-2-21.	Status of intermediate inputs from overseas (mix of major countries and regions in FPEM).....	162

Figure II-2-2-22. Changes in shares of major partner countries in terms of FEPM in the U.S. and Japan (1995→2000→2005→2010→2015→2020) .....	163
Figure II-2-2-23. Dependency on intermediate inputs from China (FPEM) .....	164
Column Figure 6-1. Pictures showing the head office, factories in Japan, China, and Viet Nam, and some of the products .....	165
Figure II-2-3-1. Types of companies by the level of engagement in exports .....	168
Figure II-2-3-2. TSR Corporate Correlation File and Economic Census for Business Activity .....	169
Figure II-2-3-3. Number of companies by export type .....	170
Figure II-2-3-4. Shares of companies by export type (major industries) .....	171
Figure II-2-3-5. Shares of companies by export type (number of companies, number of employees, and sales) .....	172
Figure II-2-3-6. Companies' performance by export type .....	173
Figure II-2-3-7. Major export destinations of respondent companies .....	175
Figure II-2-3-8. Major export clients (by exporters' workforce size) .....	176
Figure II-2-3-9. Reasons for starting direct exports (direct exporters) .....	178
Figure II-2-3-10. Future business expansion (direct exporters) .....	179
Table II-2-3-11. "Future business expansion" and "perceived challenges in achieving overseas business expansion" (direct exporters) .....	180
Figure II-2-3-12. Future business expansion (indirect exporters) .....	181
Table II-2-3-13. "Future business expansion" and "reasons for not engaging in direct exports" (indirect exporters) .....	182
Figure II-2-3-14. Future business expansion (non-exporters) .....	182
Table II-2-3-15. "Future business expansion" and "reasons for not engaging in direct exports" (non-exporters) .....	183
Table II-2-3-16. "Future business expansion" and "reasons for not engaging in indirect exports" (non-exporters) .....	184
Figure II-2-3-17. Characteristics of approaches to future business expansion for direct exporters by response .....	187
Figure II-2-3-18. Characteristics of approaches to future business expansion for indirect exporters by response .....	189
Figure II-2-3-19. Characteristics of approaches to future business expansion for companies not engaging in exports by response .....	191
Figure II-2-4-1. Distribution of the rates of change in the wages, employment, and tangible fixed assets of manufacturing companies (FY2012 →FY2021) .....	194
Figure II-2-4-2. Sample of balance sheet .....	195
Figure II-2-4-3. Conceptual chart of structural equation model assumed .....	196
Figure II-2-4-4. Change in the values of asset items at manufacturing companies with a capital amount of 1 billion yen or higher .....	197
Figure II-2-4-5. Results of the estimation of the usage of liability items based on structural equation modeling .....	198

Figure II-2-4-6. Relationship between human capital investment and labor productivity .....	201
Figure II-2-4-7. Relationship between R&D investment and sales .....	203
Figure II-2-4-8. Relationship between the value of investments in relevant companies and sales .....	205
Figure II-2-4-9. Diagram showing companies' growth and expansion in light of analysis results, etc. .....	207
