

List of Figures and Tables

Figure I-1-1-1.	Real GDP growth rates	2
Figure I-1-1-2.	Projection of growth rates and actual growth rates in 2024	2
Figure I-1-1-3.	Changes in inflation rates by major country and region.....	3
Figure I-1-1-4.	Policy interest rates by major country and region	3
Figure I-1-1-5.	U.S. dollar index.....	4
Figure I-1-2-1.	Consumer confidence indices of China	5
Figure I-1-2-2.	China's import quantities.....	6
Figure I-1-2-3.	Breakdown of GDP demand components by major country and region (2023).....	7
Figure I-1-2-4.	Changes in capital coefficients in Japan and China.....	7
Figure I-1-2-5.	Changes in the differences between steel production capacity and production amount in China	8
Figure I-1-2-6.	Changes in export prices and quantities in China.....	9
Figure I-1-2-7.	Changes in growth rates of export values in China by country and region	9
Figure I-1-3-1.	Projections of IMF global economic growth rates (as of April 2025)	11
Table I-2-1-1.	Recent major trade measures and countermeasures against them	13
Figure I-2-1-2.	Number of global trade-restrictive measures.....	15
Figure I-2-1-3.	Effective tariff rate in the U.S.....	17
Figure I-2-1-4.	Current account balance to global GDP by major country and region and U.S. fiscal balance to U.S. GDP.....	18
Figure I-2-2-1.	Number of trade remedy investigations launched and trade remedies implemented worldwide	20
Figure I-2-3-1.	Changes in Geopolitical Risk (GPR) Index.....	21
Figure I-2-3-2.	International state of commodity prices	22
Figure I-2-3-3.	Current state of sea lanes	23
Figure I-2-4-1.	Share of developed, emerging, and developing countries in GDP	24
Figure I-2-5-1.	Changes in Digital Services Trade Restrictiveness Index	27
Column Figure 1-1.	Long-term changes in Geopolitical Risk (GPR) Index	28
Column Figure 1-2.	Geopolitical Risk (GPR) Index by major country and region.....	29
Figure I-3-1-1.	Global Economic Policy Uncertainty (EPU) Index.....	31
Figure I-3-1-2.	Economic Policy Uncertainty (EPU) Index for developed countries and Asia	32
Figure I-3-1-3.	Economic Policy Uncertainty (EPU) Indexes for major European countries	33
Figure I-3-1-4.	EPU Index and Trade Policy Uncertainty Index for China	35
Figure I-3-1-5.	Changes in EPU Index and VIX Index for the U.S.	36
Figure I-3-1-6.	Trade Policy Uncertainty Index for the U.S.	37
Table I-3-2-1.	Correlation coefficients between various uncertainty indexes and economic and financial variables.....	38
Figure I-3-2-2.	Impact of the increase in uncertainty at the beginning of 2025.....	40
Table I-4-1-1.	Example of calculation of geopolitical distance	43

Figure I-4-1-2.	G20 countries' geopolitical distance from the U.S.	44
Figure I-4-1-3.	G20 countries' geopolitical distances from China.....	45
Figure I-4-2-1.	Trade-based geopolitical distance in major countries.....	47
Figure I-4-2-2.	Distribution of Japan's geopolitical distance.....	48
Figure I-4-2-3.	Changes in the share of trade according to geopolitical distance	49
Figure II-1-1-1.	Gini coefficients of major countries	53
Table II-1-1-2.	Differences between fast-growing economies and those lagging behind.....	54
Figure II-1-1-3.	Participation rates in international trade (low-skilled workers, women, and MSMEs)	55
Figure II-1-1-4.	China's import penetration in U.S. goods-related consumption and percentage of manufacturing employees in the U.S.....	57
Table II-1-1-5.	Major studies on China Shock.....	58
Figure II-1-1-6.	Shares of intermediate goods in exports from China.....	59
Figure II-1-1-7.	Level of similarity in export items between China and Japan, Germany, or the ROK	59
Table II-1-1-8.	Results of elections from 2024 and 2025 in major countries and regions	60
Figure II-1-2-1.	Changes in world trade values.....	65
Table II-1-2-2.	Top 20 countries in world services trade (2023)	66
Figure II-1-2-3.	Changes in shares of top 10 countries in service exports	66
Figure II-1-2-4.	Changes in shares of top 10 countries in service imports.....	67
Figure II-1-2-5.	Comparison of the composition of world services exports (by item).....	67
Table II-1-2-6.	Classification of services trade by service provision mode.....	68
Figure II-1-2-7.	Composition of the values of value-added exports in manufacturing and services exports by mode	70
Figure II-1-2-8.	Changes in world services exports by mode	71
Figure II-1-2-9.	Trade in modern services.....	72
Table II-1-2-10.	Export values by services category and by mode worldwide (2022)	72
Figure II-1-2-11.	Changes in trade cost indexes.....	73
Figure II-1-2-12.	Global volume of cross-border flows of data	73
Figure II-1-2-13.	Increase rates in trade resulting from a rise in digital connectivity by 1%.....	74
Figure II-1-2-14.	Export values of services that can be digitally provided and export values of overall services	74
Table II-1-2-15.	Definition of digital-related trade.....	76
Figure II-1-2-16.	Digital-related trade balance by country	77
Figure II-1-2-17.	Digital-related trade balance by country as a proportion of GDP	78
Figure II-1-2-18.	Changes in export values related to charges for the use of intellectual property, n.i.e. by country.....	79
Figure II-1-2-19.	Flows of charges for the use of intellectual property, n.i.e.	79
Figure II-1-2-20.	Breakdown of U.S. exports of charges for the use of intellectual property, n.i.e.	80

Figure II-1-2-21.	Export destinations of charges for the use of intellectual property, n.i.e. from the U.S.	81
Figure II-1-2-22.	Changes in export values in telecommunications, computer and information services by country	82
Figure II-1-2-23.	Breakdown of export values in telecommunications, computer and information services (2023)	82
Figure II-1-2-24.	Changes in export values in computer services by country	83
Figure II-1-2-25.	Flows of trade in telecommunications, computer and information services	84
Figure II-1-2-26.	Export destinations of telecommunications, computer and information services from Ireland	84
Figure II-1-2-27.	Total values of exports of telecommunications, computer and information services and values of value-added exports thereof (2020)	85
Figure II-1-2-28.	Composition of value added source countries in Ireland's exports of telecommunications, computer and information services	86
Figure II-1-2-29.	Changes in export values of professional and management consulting services by country	86
Figure II-1-2-30.	Flows of professional and management consulting services	87
Figure II-1-2-31.	Export destinations of professional and management consulting services from the U.S.	88
Table II-1-2-32.	Major actions	92
Figure II-1-2-33.	Compliance label (conceptual picture of "STAR-1")	94
Table II-1-3-1.	NDCs and long-term goals for net-zero emissions by country	99
Figure II-1-3-2.	Production capacity by country and region (2023)	100
Figure II-1-3-3.	Shares in major countries' exports by product and raw material (2010 to 2023)	101
Figure II-1-3-4.	Relationship between trade and circular economy	111
Figure II-1-4-1.	Shares of mining, refining and processing of critical minerals	122
Table II-1-4-2.	Trends in resource-rich countries' policies for creating value added and their resource nationalism	123
Figure II-1-4-3.	Number of export restriction measures imposed on industrial raw materials	124
Figure II-1-4-4.	Shares of export restriction measures imposed on industrial raw materials by country (2009-2022)	124
Figure II-1-4-5.	Shares in the production of gallium, germanium, and antimony	125
Figure II-1-4-6.	Changes in antimony products exported from China	125
Figure II-1-5-1.	Case where the average cost decreases	130
Table II-1-5-2.	Outline of the new Washington consensus	138
Figure II-2-1-1.	Changes in GDP by major country and region	143
Table II-2-1-2.	The annual amount of increase in China's GDP	143
Figure II-2-1-3.	Changes in GDP and the number of employees by industry in China	144

Figure II-2-1-4.	Changes in the amount of value added produced in the manufacturing industry by major country and region.....	145
Figure II-2-1-5.	Economic size of China and other major countries (2020; mining and industrial sector)	145
Figure II-2-1-6.	Changes in the shares of major countries and regions in global manufacturing exports	146
Figure II-2-1-7.	Shares of countries and regions in manufacturing value added worldwide (2020)	147
Figure II-2-1-8.	Shares of sales by enterprise type in major industrial sectors in China (2023)	148
Figure II-2-1-9.	Changes in sales by enterprise type in major industrial sectors in China.....	149
Figure II-2-1-10.	Changes in export shares by enterprise type in China.....	149
Figure II-2-1-11.	Changes in the number of enterprises in major countries ranked among the Fortune Global 500	150
Figure II-2-1-12.	Estimates of business establishment rates and closure rates of enterprises in China	151
Figure II-2-1-13.	Number of unicorn companies in major countries	152
Figure II-2-1-14.	Changes in research and development expenditure by major country and region	153
Figure II-2-1-15.	Changes in the number of researchers by major country and region.....	154
Figure II-2-1-16.	Changes in the number of patents filed and acquired by major country and region	154
Figure II-2-1-17.	WIPO Global Innovation Index of major countries (2024).....	155
Figure II-2-1-18.	Changes in bank loans in China	156
Figure II-2-1-19.	Current state of government guidance funds in China	157
Figure II-2-1-20.	Estimates of subsidies to listed enterprises in China	158
Table II-2-1-21.	International comparison of venture capital investment.....	159
Figure II-2-2-1.	Factors that drive active entry in China.....	164
Figure II-2-2-2.	Mechanism of industrial policies oriented toward demand expansion.....	165
Table II-2-3-1.	Changes in China's major industrial policies	168
Figure II-2-3-2.	Cumulative installed capacity for wind power generation in major countries	171
Figure II-2-3-3.	Exports and imports of wind-power generators in China.....	172
Table II-2-3-4.	Legislation, plans, etc. related to wind power generation in China.....	172
Figure II-2-3-5.	Cumulative installed capacity for solar power generation in major countries	174
Figure II-2-3-6.	Export values of solar cells in major countries.....	175
Table II-2-3-7.	China's installed capacity targets for solar power generation	175
Figure II-2-3-8.	Production volume of new energy vehicles by region in China	177
Figure II-2-4-1.	Changes in imports in China	181
Figure II-2-4-2.	Share of exports to GDP in China	181
Figure II-2-4-3.	Changes in major export products in China	182
Figure II-2-4-4.	Changes in exports of vehicles (by motor type) in China	183

Figure II-2-4-5.	Changes in Chinese outward FDIs	185
Figure II-2-4-6.	Changes in Chinese outward FDIs and M&A	185
Figure II-2-4-7.	Chinese FDIs by major partner country and region (2023)	186
Figure II-2-4-8.	Changes in Chinese FDIs by region	188
Figure II-2-4-9.	Changes in trade values between the U.S. and China.....	188
Figure II-2-4-10.	Expenditures by industrial policies by major country and region	191
Figure II-2-4-11.	Compositions of expenditures by industrial policy by major country and region	191
Figure II-2-4-12.	Changes in return on assets by enterprise type in China (industrial sector)	193
Table II-2-4-13.	Major policies for state-owned enterprises in China	193
Figure II-2-4-14.	Changes in Chinese inward FDIs (international balance of payments basis)	196
Figure II-2-4-15.	Direction of business development for the next 1-2 years (Japanese companies in China/All industries)	197
Table II-2-4-16.	Major proposals by the Japanese Chamber of Commerce and Industry in China (Jul. 2024).....	198
Table II-2-4-17.	Major proposals by the European Union Chamber of Commerce in China (Sep. 2024)	199
Table II-2-4-18.	Major proposals by the American Chamber of Commerce in China (Apr. 2024)	200
Figure II-2-5-1.	Changes in ROK's exports to the U.S. and China	201
Figure II-2-5-2.	Changes in shares of the ROK's major export items to China (2-digit HS code)	202
Figure II-2-5-3.	Changes in shares of value added in the ROK in exports from China	203
Figure II-2-5-4.	Changes in shares of the ROK's major export items to the U.S. (2-digit HS code)	203
Figure II-2-5-5.	Changes in imports by the ROK from China	204
Figure II-2-5-6.	Changes in shares of the ROK's major import items from China (2-digit HS code)	204
Figure II-2-5-7.	Changes in FDIs in the U.S. and China from the ROK.....	205
Figure II-2-5-8.	Changes in inward FDIs in the ROK.....	206
Table II-2-5-9.	ASEAN's trade and investment relationships with Japan, the U.S., and China	207
Figure II-2-5-10.	Changes in trade balance with the U.S. and China in ASEAN.....	207
Figure II-2-5-11.	Import share by source country and region in ASEAN and share of imports from China in ASEAN countries.....	208
Figure II-2-5-12.	Changes in shares of ASEAN's major import items from China (2-digit HS code)	208
Table II-2-5-13.	ASEAN's major import items from China (4-digit HS code; 2023)	209
Figure II-2-5-14.	Shares of export destination countries and regions in ASEAN	209
Figure II-2-5-15.	Changes in shares of ASEAN's major export items to China (2-digit HS code)	210

Figure II-2-5-16.	Changes in shares of ASEAN's major export items to the U.S. (2-digit HS code)	211
Figure II-2-5-17.	Changes in imports to the U.S. (China, ASEAN, and Viet Nam)	211
Figure II-2-5-18.	Changes in shares of value added created in China in imports from ASEAN and Viet Nam to the U.S.	211
Figure II-2-5-19.	Changes in FDI flows to ASEAN (by investor country and region)	212
Table II-2-5-20.	Changes in FDIs to ASEAN (shares by investor country and region)	213
Figure II-2-5-21.	FDIs from China to ASEAN (by industry)	214
Figure II-2-5-22.	Changes in FDIs to ASEAN manufacturing industry (China, Hong Kong, and Japan)	214
Figure II-2-5-23.	Changes in shares of the inward FDI stocks in the ASEAN countries	215
Figure II-2-5-24.	Changes in FDIs from China to ASEAN	215
Figure II-2-5-25.	Changes in FDIs from the U.S. to ASEAN (by Industry)	216
Figure II-2-5-26.	Proportions of the manufacturing industry in GVA in India	217
Figure II-2-5-27.	India's trade balance with the U.S. and China and the source countries of trade surplus and trade deficit for India (top 10 countries) (2024)	218
Figure II-2-5-28.	Changes in shares of India's major import items from China (2-digit HS code)	218
Table II-2-5-29.	India's major import items from China (4-digit HS code) (2024)	219
Figure II-2-5-30.	Changes in shares of import source countries in integrated circuits (HS8542) in India	219
Figure II-2-5-31.	Changes in shares of India's major export items to China (2-digit HS code)	220
Figure II-2-5-32.	Changes in shares of India's major export items to the U.S. (2-digit HS code)	220
Figure II-2-5-33.	Changes in export values of mobile phones in India	221
Figure II-2-5-34.	Changes in exports of services in India	222
Figure II-2-5-35.	Shares of service export destination countries from India (2023)	222
Figure II-2-5-36.	Changes in FDIs to India (by investor country and investment from China and Hong Kong)	223
Figure II-2-5-37.	Changes in FDIs to India (by Industry)	224
Figure II-2-5-38.	India's trade and investment relationships with the U.S. and China	225
Figure II-2-5-39.	Distribution of the HHI values by country	226
Figure II-2-5-40.	Numbers of items dependent on specific import source countries for more than 50% of imports (classified by import source country)	227
Figure II-2-5-41.	Characteristics of items with an HHI value higher than 50 (classified by two-digit HS code)	228
Figure II-3-1-1.	Changes in current account balance in Japan	231
