

Summary

This summary provides the number of manufacturing establishments and the value of shipments by commodity from establishments with four or more employees, as well as their ranking by prefecture, out of the results of "the Census of Manufacture 2014" carried out as of December 31, 2014.

1. The number of manufacturing establishments

In terms of the number of manufacturing establishments, the commodity category "Offset printing for paper" accounts for the largest number, followed by "Miscellaneous fabricated plate and sheet metal products," "Miscellaneous processed foods," "Fresh concrete," "Miscellaneous fabricated construction-use metal products," "Parts, fittings and accessories of metal working machines," "Japanese-style pastries and cakes," "Stamped and pressed machinery parts, without machine finishing," "Plastic products for automobiles," and "Miscellaneous seafood products," suggesting that firms related with fabricated metal products and food products are showing up at the top of the list.

As for location, Tokyo, Osaka, and Aichi have a lot of plants belonging to "Offset printing for paper." These three prefectures occupy a little more than 30% of the total. Aichi, Osaka, and Kanagawa have many plants in the "Miscellaneous fabricated plate and sheet metal products," accounting for almost 30% of the total (Table 1).

30	Steel for special purposes	1,168,622	13.4	Aichi	Fukuoka	Hyogo

Note: "..." is indicated for commodities for which comparison cannot be made such as due to definition change or being newly added.

3. Top manufactured goods by prefecture

(1) Number of manufacturing establishments by commodity

Looking at the product category with the largest number of manufacturing establishments by prefecture, "Offset printing for paper" ranked first in 26 prefectures, the largest number of prefectures, followed by "Miscellaneous seafood products," "Japanese noodles," "Plastic products for automobiles," "Japanese-style ceramic tableware," and "Miscellaneous fabricated plate and sheet metal products" in 2 prefectures each.

Local specialty products rank first in many prefectures such as "Miscellaneous seafood products" for Hokkaido which includes seafood delicacies and marinated seafood, "Frames" for Fukui, "Precious metal accessories, including jewel, ivory and turtle products" for Yamanashi, "Green tea (finished)" for Shizuoka, "Japanese-style ceramic tableware" for Gifu and Saga, "Socks" for Nara, "Vegetables pickled or in brine, including fruits pickled or in brine" for Wakayama, and "Semi-finished green tea" for Kagoshima. These prefectures also rank high in the prefecture ranking for the respective products (Table 3).

Note: If two or more prefectures have the same number of manufacturing establishments, the prefecture with larger shipment value will prevail.

(2) Value of manufactured goods shipments by commodity

Looking at the product category with the largest value of manufactured goods shipment by prefecture, "Gasoline" ranked top in 8 prefectures, followed by "Medical products preparations, including preparations outside medicines" in 6 prefectures, "Ordinary passenger cars, 2000 ml cylinder capacity or more, including chassis" in 5 prefectures, "Cigarettes, cigars and pipe tobacco" in 3 prefectures, "Balanced compound feeds," "Electrolytic copper and straight copper, including steel billet and cake," "Electronic parts, device and electronic circuit, n.e.c.," and "Parts of driving, transmission and operating units" in 2 prefectures each.

Local specialty products such as "Baked rice confections" and "Low-class distilled spirits" ranked top in 2 prefectures (Table 4).
