

Thermographic cameras

Thermographic cameras have possibility to be included in;

“10(2) Optical Detectors or Coolers thereof”;

“10(4) high speed cameras”; and

“10(7) Controllers of Optical Equipment or their components”

in Appended Table 1 of the Export Trade Control Order.

Other items that require export licenses are stipulated in the Export Trade Control Order, and details and interpretations of these items are stipulated in the relevant Ministerial Orders. For more information about Japanese export control legislation, please click here. ↓
