

## Appendix 3-1

(The End-User is decided)

### Notice relating to the End-Use Certificate (EUC)

Ministry of Economy, Trade and Industry

The items (goods, software or technology) that you are going to obtain are regulated to export in accordance with the Foreign Exchange and Foreign Trade Act of Japan based on the agreements of the international export control regimes. The exporter/supplier has to obtain a license from the Ministry of Economy, Trade and Industry (METI) of Japan. For this reason, we ask for your understanding and cooperation about the following things;

1. We ask for your complete understanding and compliance of the contents of the End-Use Certificate specified by METI and this "Notice relating to the End-Use Certificate" (hereinafter referred to as "Notice"). On that basis, place a check mark by signer "☑" and put a representative's or authorized person's signature in the space provided on the End-Use Certificate. Complete two End-Use Certificates, one is for you to keep and the other one is for the exporter.
2. When you transfer ownership and/or right of use of the items obtained this time to a third party, owing to inevitable circumstances, verify in advance that the new end-user is not involved in activities of development and/or manufacture of weapons of mass destruction (including uranium enrichment, nuclear fuel reprocessing, heavy water production, manufacture of rocket or unmanned aerial vehicles), or activities of development and/or manufacture of arms.
3. When you transfer the ownership and/or right of use of the items obtained this time to a domestic third party, owing to unavoidable circumstances, you shall present the same End-Use Certificate format specified by METI and this Notice to the new end-user and obtain from new end-user an End-Use Certificates with the new end-user's signature. One of the Certificates is for the new end-user to keep and the other one is for your preservation.
4. When you re-export the items you obtained this time, owing to unavoidable circumstances, you shall obtain a prior written consent from the exporter/supplier who is obliged by METI to do so. When doing so, you need to submit objective documents such as business register book of the new end-user, corporate brochures, etc. to explain and prove the existence of the new end-user and their business activities. Furthermore, you need to submit End-Use Certificate with the signature of the new end-user (Complete two certificates, one is to the new end-user and the other one is to submit to METI through the original exporter/supplier). If the exporter/supplier is unknown, please ask METI.
5. When METI finds it necessary in the future, it may ask directly or through exporter/supplier about the status of use and storage of the items and who is holding the ownership and/or right of use of the items you obtained this time. At that time, we ask you to provide all the cooperation possible.
6. Any false statements or concealment of any fact in connection with this statement may result in giving any negative effect toward METI's licensing policy in the future.
