

Appendix 1

List of Newly Established and Revised JIS Publicly Notified on August 21, 2023

<Division in charge and telephone number >

International Standardization Division (e-mail: bzl-s-kijun-ISO@meti.go.jp direct line: 03-3501-9283)

International Electrotechnology Standardization Division (e-mail: bzl-s-iec@meti.go.jp direct line: 03-3501-9287)

1. Newly established standards

(Japanese Industrial Standards Committee)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Disc springs-Part1: Calculation	B2706-1	Japan Spring Manufacturers Association	International Standardization Division
Disc springs-Part 2: Product specifications and Method of testing	B2706-2	Japan Spring Manufacturers Association	International Standardization Division
Material testing machines-Calibration and verification of speed	B7742	Japan Testing Machine Association	International Standardization Division
Air handling units	B8632	The Japan Refrigeration And Air Conditioning Industry Association	International Standardization Division

(Submitted by Accredited SDO-Japanese Standards Association)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Hazard and operability studies (HAZOP studies) -Application guide	C61882	Japanese Standards Association	International Electrotechnology Standardization Division
Information technology -Artificial intelligence -Artificial intelligence concepts and terminology	X22989	Japanese Standards Association	International Electrotechnology Standardization Division

(Total standards newly established: 6)

2. Revised standards

(Japanese Industrial Standards Committee)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Hypochlorous acid water producing apparatus	B8701	Functional Water Foundation	International Standardization Division
Hydraulic fluid power -Fluids- Method for coding the level of contamination by solid particles	B9933	Japan Fluid Power Association	International Standardization Division
Vibration level meters	C1510	The Institute of Noise Control Engineering of Japan	International Electrotechnology Standardization Division
Lampholders and starterholders for fluorescent lamps	C8324	Japan Lighting Manufacturers Association	International Electrotechnology Standardization Division

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Greenhouse gases-Part 1: Specification with guidance at the organization level for quantification and reporting of greenhouse gas emissions and removals	Q14064-1	Japan Environmental Management Association for Industry	International Standardization Division
Greenhouse gases-Part 3: Specification with guidance for the verification and validation of greenhouse gas statements	Q14064-3	Japan Environmental Management Association for Industry	International Standardization Division
Vacuum technology -Vocabulary-Part 2: Vacuum pumps and related terms	Z8126-2	The Japan Society of Vacuum and Surface Science	International Standardization Division

(Submitted by Accredited SDO-Japanese Standards Association)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Performance test methods for radiation thermometers	C1612	Japanese Standards Association	International Electrotechnology Standardization Division
Tests on electric and optical fibre cables under fire conditions -Part 1-1: Test for vertical flame propagation for a single insulated wire or cable-Apparatus	C3665-1-1	Japanese Standards Association	International Electrotechnology Standardization Division
Tests on electric and optical fibre cables under fire conditions-Part 1-2: Test for vertical flame propagation for a single insulated wire or cable-Procedure for 1 kW pre-mixed flame	C3665-1-2	Japanese Standards Association	International Electrotechnology Standardization Division
Tests on electric and optical fibre cables under fire conditions-Part 1-3: Test for vertical flame propagation for a single insulated wire or cable-Procedure for determination of flaming droplets/particles	C3665-1-3	Japanese Standards Association	International Electrotechnology Standardization Division
Test on gases evolved during combustion of materials from cables-Part 2: Determination of acidity (by pH measurement) and conductivity	C3666-2	Japanese Standards Association	International Electrotechnology Standardization Division
Dependability management -Part3-4: Application guide-Specification of dependability requirements	C5750-3-4	Japanese Standards Association	International Electrotechnology Standardization Division
Environmental testing-Part 2-11: Tests-Test Ka: Salt mist	C60068-2-11	Japanese Standards Association	International Electrotechnology Standardization Division
Environmental testing-Part 2-13: Tests-Test M: Low air pressure	C60068-2-13	Japanese Standards Association	International Electrotechnology Standardization Division
Environmental testing-Part 2-38: Tests-Test Z/AD: Composite temperature/humidity cyclic test	C60068-2-38	Japanese Standards Association	International Electrotechnology Standardization Division

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Environmental testing-Part 2-64: Tests-Test Fh: Vibration, broadband random and guidance	C60068-2-64	Japanese Standards Association	International Electrotechnology Standardization Division
Environmental testing-Part 2: Tests-Test Cy: Damp heat, steady state, accelerated test primarily intended for components	C60068-2-67	Japanese Standards Association	International Electrotechnology Standardization Division
Environmental testing-Part 3-3: Supporting documentation and guidance-Seismic test methods for equipment	C60068-3-3	Japanese Standards Association	International Electrotechnology Standardization Division

(Submitted by Accredited SDO-The Japan Iron And Steel Federation)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Microscopic testing method for the non-metallic inclusions in steel	G0555	the Japan Iron and Steel Federation	International Standardization Division
Iron and steel-Determination of nitrogen-Part 3: Thermal conductimetric method after fusion in a current of inert gas	G1228-3	the Japan Iron and Steel Federation	International Standardization Division
Metallic materials-Tensile testing-Method of test at room temperature	Z2241	the Japan Iron and Steel Federation	International Standardization Division

(Total standards revised: 22)
