

Appendix 1

List of Newly Established and Revised JIS Publicly Notified on November 20, 2023

< Division in charge and telephone number >

International Standardization Division (e-mail: bzl-s-kijun-ISO@meti.go.jp direct line: 03-3501-9283)

International Electrotechnology Standardization Division (e-mail: bzl-s-iec@meti.go.jp direct line: 03-3501-9287)

1. Newly established standards

(Japanese Industrial Standards Committee)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Binary power generation systems with capacity less than 100 kW-Performance test methods	C63277	Japanese Standards Association	International Electrotechnology Standardization Division
Document management-Minimum requirements for the storage of documents	Z6020	Japan Image and Information Management Association	International Standardization Division
Determination of particle size distribution-Differential electrical mobility analysis for aerosol particles	Z8846	The Association of Powder Process Industry and Engineering, Japan	International Standardization Division

(Submitted by Accredited SDO-Japanese Standards Association)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Printed boards design, manufacture and assembly-Vocabulary-Part 1: Common usage in printed board and electronic assembly technologies	C60194-1	Japanese Standards Association	International Electrotechnology Standardization Division
Surface mounting technology-Part 2: Transportation and storage conditions of surface mounting devices (SMD)-Application guide	C61760-2	Japanese Standards Association	International Electrotechnology Standardization Division
Performance improvement of management systems-Guidelines for new product and service development management	Q9030	Japanese Standards Association	International Standardization Division

(Total standards newly established: 6)

2. Revised standards

(Japanese Industrial Standards Committee)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Polyvinyl chloride floorcoverings	A5705	Nippon Interior Association	International Standardization Division

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Earth-moving machinery-Operator's controls	A8919	Japan Construction Machinery and Construction Association	International Standardization Division
Internal combustion engines-Small diameter piston rings-Part 5: Quality requirements	B8032-5	Japan Land Engine Manufacturers Association	International Standardization Division
Motor gasoline	K2202	Petroleum Association of Japan	International Standardization Division
Liquefied petroleum gases	K2240	Japan LP Gas Association	International Standardization Division
Rubber, vulcanized or thermoplastic-Determination of tensile stress-strain properties	K6251	The Japan Rubber Manufacturers Association	International Standardization Division
Plastics-Unplasticized poly (vinyl chloride) sheets	K6745	The Japan Plastics Industry Federation	International Standardization Division
Methods of test for fungus resistance	Z2911	Society of International sustaining growth for Antimicrobial Articles	International Standardization Division
Labels for environmental-impacts achievement levels for the products using fluorocarbons or alternative fluorocarbons	Z7161	The Japan Refrigeration and Air Conditioning Industry Association	International Standardization Division

(Submitted by Accredited SDO-Japanese Standards Association)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Fixed capacitors for use in electronic equipment-Part 1: Generic specification	C5101-1	Japanese Standards Association	International Electrotechnology Standardization Division
Fixed capacitors for use in electronic equipment-Part 2: Sectional specification: Fixed metallized polyethylene-terephthalate film dielectric DC capacitors	C5101-2	Japanese Standards Association	International Electrotechnology Standardization Division
Fixed capacitors for use in electronic equipment-Part 25: Sectional specification-Fixed aluminium electrolytic surface mount capacitors with conductive polymer solid electrolyte	C5101-25	Japanese Standards Association	International Electrotechnology Standardization Division
Connectors for electrical and electronic equipment-Tests and measurements-Part 8-3: Static load tests (fixed connectors)-Test 8c: Robustness of actuating lever	C5402-8-3	Japanese Standards Association	International Electrotechnology Standardization Division
Environmental testing-Part 2-21: Tests-Test U: Robustness of terminations and integral mounting devices	C60068-2-21	Japanese Standards Association	International Electrotechnology Standardization Division

(Total standards revised: 14)

End of the document
