

## Appendix 1

### List of Newly Established and Revised JIS Publicly Notified on January 20, 2025

< Division in charge and telephone number >

International Standardization Division (e-mail: [bzl-s-kijun-ISO@meti.go.jp](mailto:bzl-s-kijun-ISO@meti.go.jp) Tel: 03- 3501-1511 ext.3423～3427)

International Electrotechnology Standardization Division (e-mail: [bzl-s-iec@meti.go.jp](mailto:bzl-s-iec@meti.go.jp) Tel: 03- 3501-1511 ext. 3428～3429)

#### 1. Newly established standards

(Japanese Industrial Standards Committee)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Design principles of public information symbols-Part 1: General requirement	Z8211-1	Japanese Standards Association	International Standardization Division
Design principles of public information symbols-Part 2: Shapes, colours for use in symbols for facilities	Z8211-2	Japanese Standards Association	International Standardization Division
Design principles of public information symbols-Part 3: Shapes, colours for use in symbols for safety	Z8211-3	Japanese Standards Association	International Standardization Division
Methods for testing comprehensibility of graphical symbols	Z8212	Japanese Standards Association	International Standardization Division
Optics and photonics-Optical materials and components-Specification of calcium fluoride used in the infrared spectrum	B7077	Japan Optical Glass Manufacturers' Association	International Standardization Division
Safety requirements for service robots-Part 4: Mobile servant robot with manipulator	B8446-4	Japan Robot Association	International Standardization Division
Cleanrooms and associated controlled environments-Part 3: Test methods	B9920-3	Japan Air Cleaning Association	International Standardization Division
Ergonomics-Manual handling-Part 1: Lifting, lowering and carrying	Z8505-1	Japan Ergonomics Society	International Standardization Division

(Total standards newly established: 8)

#### 2. Revised standards

(Japanese Industrial Standards Committee)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Public information symbols	Z8210	Japanese Standards Association	International Standardization Division
Components for wire net fences	A6518	Japan Exterior Industry Association	International Standardization Division
Fasteners-Mechanical properties of fasteners made of carbon steel and alloy steel-Part 2: Nuts with specified property classes	B1052-2	The Japan Research Institute For Screw Threads And Fasteners	International Standardization Division

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Fasteners-Heat treated steel tapping screws-Mechanical and physical properties	B1055	The Japan Research Institute For Screw Threads And Fasteners	International Standardization Division
Reciprocating internal combustion engines-Exhaust emission measurement-Part 2: Measurement of gaseous and particulate exhaust emissions under field conditions	B8008-2	Japan Internal Combustion Engine Federation	International Standardization Division
Hydraulic fluid power-Cylinders-Dimensions and tolerances of housings for single-acting piston and rod seals in reciprocating applications	B8396	Japan Fluid Power Association	International Standardization Division
Low voltage electrical installations-Part 7-701: Requirements for special installations or locations-Locations containing a bath or shower	C0364-7-701	Japanese Standards Association	International Electrotechnology Standardization Division
Low voltage electrical installations-Part 7-704: Requirements for special installations or locations-Construction and demolition site installations	C0364-7-704	Japanese Standards Association	International Electrotechnology Standardization Division
Low voltage electrical installations-Part 7-711: Requirements for special installations or locations-Exhibitions, shows and stands	C0364-7-711	Japanese Standards Association	International Electrotechnology Standardization Division
Low voltage electrical installations-Part 7-712: Requirements for special installations or locations-Solar photovoltaic (PV) power supply installations	C0364-7-712	Japanese Standards Association	International Electrotechnology Standardization Division
Bayonet lampholders	C8122	Japan Lighting Manufacturers Association	International Electrotechnology Standardization Division
Conduit systems for cable management-Part 1: General requirements	C8461-1	The Institute Of Electrical Installation Engineering Of Japan	International Electrotechnology Standardization Division
Conduit systems for cable management-Part 21: Particular requirements-Rigid conduit systems	C8461-21	The Institute Of Electrical Installation Engineering Of Japan	International Electrotechnology Standardization Division
Conduit systems for cable management-Part 22: Particular requirements-Pliable conduit systems	C8461-22	The Institute Of Electrical Installation Engineering Of Japan	International Electrotechnology Standardization Division
Conduit systems for cable management-Part 23: Particular requirements-Flexible conduit systems	C8461-23	The Institute Of Electrical Installation Engineering Of Japan	International Electrotechnology Standardization Division
Lighting busways-Particular safety requirements for luminaires use	C8472	Japan Lighting Manufacturers Association	International Electrotechnology Standardization Division
Fuel cell technologies-Part 4-102: Fuel cell power systems for electrically powered industrial trucks-Performance test methods	C62282-4-102	The Japan Electrical Manufacturers' Association	International Electrotechnology Standardization Division

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Rubber tubes for gas	K6348	The Japan Rubber Manufacturers Association	International Standardization Division
Wire reinforced rubber hoses, fittings and hose assemblies for gas	K6351	The Japan Rubber Manufacturers Association	International Standardization Division
Testing methods for water resistance of textiles	L1092	Japan Textile Evaluation Technology Council	International Standardization Division
Testing methods for efficacy against house dust mite of textiles	L1920	Japan Carpet Manufactures Association	International Standardization Division
Pulps-Determination of limiting viscosity number in cupri-ethylenediamine (CED) solution	P8215	Japan Technical Association Of The Pulp And Paper Industry	International Standardization Division
Laminated glass	R3205	Flat Glass Manufacturers Association Of Japan	International Standardization Division
Assistive products for walking-Walking frames	T9264	Japan Assistive Products Association	International Standardization Division
Assistive products for walking-Rollators and walking tables	T9265	Japan Assistive Products Association	International Standardization Division
Quantities and units-Part 1: General	Z8000-1	Japan Association For Metrology Promotion	International Standardization Division
Quantities and units-Part 6: Electromagnetism	Z8000-6	Japan Association For Metrology Promotion	International Standardization Division

(Total standards revised: 27)
