

## Appendix 1

### List of Newly Established and Revised JIS Publicly Notified on April 21, 2025

< Division in charge and telephone number >

International Standardization Division (e-mail: [bzl-s-kijun-ISO@meti.go.jp](mailto:bzl-s-kijun-ISO@meti.go.jp) Tel:03-3501-1511 ext.3423～3427)

International Electrotechnology Standardization Division (e-mail: [bzl-s-iec@meti.go.jp](mailto:bzl-s-iec@meti.go.jp) Tel: 03- 3501-1511 ext. 3428～3429)

#### 1. Newly established standards

(Submitted by Accredited SDO-The Japan Iron And Steel Federation)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Iron and steel - Determination of vanadium - Part 1: Ammonium iron(II) sulfate titrimetric methods after potassium permanganate oxidation	G1221-1	The Japan Iron And Steel Federation	International Standardization Division
Iron and steel - Determination of vanadium - Part 2: Spectrophotometric methods after extraction of N-benzoyl-N-phenylhydroxylamine complex	G1221-2	The Japan Iron And Steel Federation	International Standardization Division

(Total standards newly established: 2)

#### 2. Revised standards

(Japanese Industrial Standards Committee)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Non-ducted air conditioners and heat pumps-Testing and rating for performance	B8615-1	The Japan Electrical Manufacturers' Association	International Electrotechnology Standardization Division
Test methods for rubber or plastic insulated wires and cables	C3005	The Japanese Electric Wire & Cable Makers' Association	International Electrotechnology Standardization Division
Appliance couplers for household and similar general purposes-Part 1: General requirements	C8283-1	Japanese Standards Association	International Electrotechnology Standardization Division
Plugs, fixed or portable socket-outlets and appliance inlets for industrial purposes	C8285	Japanese Standards Association	International Electrotechnology Standardization Division
Boxes and enclosures for electrical accessories for household and similar fixed electrical installations-Part 21: Particular requirements for boxes and enclosures with provision for suspension means	C8462-21	The Institute Of Electrical Installation Engineering Of Japan	International Electrotechnology Standardization Division
Boxes and enclosures for electrical accessories for household and similar fixed electrical installations-Part 22: Particular requirements for connecting boxes and enclosures	C8462-22	The Institute Of Electrical Installation Engineering Of Japan	International Electrotechnology Standardization Division

(Submitted by Accredited SDO-Japanese Standards Association)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Environmental management systems-Requirements with guidance for use	Q14001	Japanese Standards Association	International Standardization Division
Conformity assessment-General requirements for the competence of proficiency testing providers	Q17043	Japanese Standards Association	International Standardization Division

(Submitted by Accredited SDO-The Japan Iron And Steel Federation)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Steel and iron-Sampling and preparation of samples for the determination of chemical composition	G0417	The Japan Iron And Steel Federation	International Standardization Division
Methods of measuring case depth hardened by carburizing treatment for steel	G0557	The Japan Iron And Steel Federation	International Standardization Division
Steel-Determination of case depth after flame hardening or induction hardening	G0559	The Japan Iron And Steel Federation	International Standardization Division
Iron and steel-Determination of copper-Spectrophotometric methods	G1219	The Japan Iron And Steel Federation	International Standardization Division
Steel bars for concrete reinforcement	G3112	The Japan Iron And Steel Federation	International Standardization Division
Hot-rolled steel plates, sheet and strip for automobile structural uses	G3113	The Japan Iron And Steel Federation	International Standardization Division
Steel sheet, plates and strip for gas cylinders	G3116	The Japan Iron And Steel Federation	International Standardization Division
Hot-rolled carbon steel strip for pipes and tubes	G3132	The Japan Iron And Steel Federation	International Standardization Division
Hot-rolled high strength steel plates, sheet and strip with improved formability for automobile uses	G3134	The Japan Iron And Steel Federation	International Standardization Division
Cold-reduced high strength steel sheet and strip with improved formability for automobile uses	G3135	The Japan Iron And Steel Federation	International Standardization Division
Dimensions, shape, mass and permissible variations of hot rolled steel plates, sheets and strips	G3193	The Japan Iron And Steel Federation	International Standardization Division
Alloy steel tubes for machine purposes	G3441	The Japan Iron And Steel Federation	International Standardization Division
Carbon steel tubes for general structure	G3444	The Japan Iron And Steel Federation	International Standardization Division
Carbon steel tubes for machine structure	G3445	The Japan Iron And Steel Federation	International Standardization Division

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Carbon steel square and rectangular tubes for general structure	G3466	The Japan Iron And Steel Federation	International Standardization Division
High carbon chromium bearing steels	G4805	The Japan Iron And Steel Federation	International Standardization Division

(Total standards revised: 24)
