

## Appendix 1

### List of Newly Established and Revised JIS Publicly Notified on January 20, 2026

<Division in charge and telephone number>

International Standardization Division (e-mail: [bzl-s-kijun-ISO@meti.go.jp](mailto:bzl-s-kijun-ISO@meti.go.jp) Tel:03-3501-1511 ext.3423～3427)

International Electrotechnology Standardization Division (e-mail: [bzl-s-iec@meti.go.jp](mailto:bzl-s-iec@meti.go.jp) Tel: 03- 3501-1511 ext. 3428～3429)

#### 1. Newly established standards

(Japanese Industrial Standards Committee)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Low-voltage electrical installations-Part 7-710: Requirements for special installations or locations-Medical locations	C0364-7-710	Japanese Standards Association	International Electrotechnology Standardization Division
Degrees of protection provided by enclosures (IP Code)	C60529	Japanese Standards Association	International Electrotechnology Standardization Division

(Submitted by Accredited SDO-Japanese Standards Association)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Test methods for electric cables with rated voltages up to and including 450/750 V	C63294	Japanese Standards Association	International Electrotechnology Standardization Division

(Total standards newly established: 3)

#### 2. Revised standards

(Japanese Industrial Standards Committee)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Nails	A5508	Japan Wire Products Association	International Standardization Division
Volcanic glass powder for use in concrete	A6209	Japanese Standards Association	International Standardization Division
Plain bearings-Wrapped bushes-Part 2: Test data for outside and inside diameters	B1584-2	The Japan Society Of Mechanical Engineers	International Standardization Division
Plain bearings-Wrapped bushes-Part 5: Checking the outside diameter	B1584-5	The Japan Society Of Mechanical Engineers	International Standardization Division
Plain bearings-Wrapped bushes-Part 6: Checking the inside diameter	B1584-6	The Japan Society Of Mechanical Engineers	International Standardization Division

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Plain bearings-Wrapped bushes-Part 7: Measurement of wall thickness of thin-walled bushes	B1584-7	The Japan Society Of Mechanical Engineers	International Standardization Division
Metallic materials-Charpy V-notch pendulum impact test-Instrumented testing machine	B7755	Japan Testing Machine Association	International Standardization Division
Cylindrical layered pressure vessels-Part 2: Alternative standards	B8248-2	High Pressure Institute Of Japan	International Standardization Division
Gas engine driven heat pump air conditioners	B8627	The Japan Refrigeration And Air Conditioning Industry Association	International Standardization Division
Low-voltage electrical installations-Part 7-702: Requirements for special installations or locations-Swimming pools and fountains	C0364-7-702	Japanese Standards Association	International Electrotechnology Standardization Division
Low-voltage electrical installations-Part 7-708: Requirements for special installations or locations-Caravan parks, camping parks and similar locations	C0364-7-708	Japanese Standards Association	International Electrotechnology Standardization Division
Alternating-current watt-hour meters (for connection through instrument transformer)-Part 2: Measuring instruments used in transaction or certification	C1216-2	Japan Electric Measuring Instruments Manufacturers' Association	International Electrotechnology Standardization Division
Alternating-current static meters for active energy-Classes 1 and 2-Part 2: Measuring instruments used in transaction or certification	C1271-2	Japan Electric Measuring Instruments Manufacturers' Association	International Electrotechnology Standardization Division
Alternating-current static meters for active energy-Classes 0.2 S and 0.5 S-Part 2: Measuring instruments used in transaction or certification	C1272-2	Japan Electric Measuring Instruments Manufacturers' Association	International Electrotechnology Standardization Division
Alternating-current static meters for reactive energy-Part 2: Measuring instruments used in transaction or certification	C1273-2	Japan Electric Measuring Instruments Manufacturers' Association	International Electrotechnology Standardization Division
Maximum demand meter-Part 2: Measuring instruments used in transaction or certification	C1283-2	Japan Electric Measuring Instruments Manufacturers' Association	International Electrotechnology Standardization Division
Luminaires-Part 2-2: Particular requirements for safety-Recessed luminaires and recessed air-handling luminaires	C8105-2-2	Japan Lighting Manufacturers Association	International Electrotechnology Standardization Division
Surface chemical analysis-Determination of surface elemental contamination on silicon wafers by total-reflection X-ray fluorescence (TXRF) spectroscopy	K0148	Japan National Committee for Standardization of Surface Chemical Analysis	International Standardization Division

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Surface chemical analysis-Chemical methods for the collection of elements from the surface of silicon-wafer working reference materials and their determination by total-reflection X-ray fluorescence (TXRF) spectroscopy	K0160	Japan National Committee for Standardization of Surface Chemical Analysis	International Standardization Division
Plastics-Aromatic isocyanates for use in the production of polyurethanes-Part 4: Determination of the isomer ratio in toluenediisocyanate (TDI)	K1603-4	The Japan Plastics Industry Federation	International Standardization Division
Rust preventive oils	K2246	Japan Association Of Corrosion Control	International Standardization Division
Flexible cellular polymeric materials-Part 9: Determination of antibacterial effectiveness	K6400-9	The Japan Rubber Manufacturers Association	International Standardization Division
Plastics-Acquisition and presentation of comparable multipoint data-Part 3: Environmental influences on properties	K7141-3	The Japan Plastics Industry Federation	International Standardization Division
Conformity assessment-Conformity assessment for Japanese Industrial Standards-Guidance on a third-party certification system for precast concrete products	Q1012	Japanese Standards Association	International Standardization Division
Pressure sensitive adhesive cloth tapes for packaging	Z1524	Japan Adhesive Tape Manufacturers Association	International Standardization Division

(Total standards revised: 25)
