

**(Annex) ASEAN - Japan 10-year Strategic Economic Partnership Cooperation Roadmap
Matrix (as of 4 August 2016)**

Pillar	Goals / Objectives	Activities / Sub - activities	Progresses (-2015)	Future Plans toward 2025	Responsible Body	Supporting Organizations
1. Human Resource Development	I Promote human resource development and capacity building					
	a.	industrial human resources development and support for institution-building	Assisting as many as 40,000 young people in Asia in improving their technical skills and acquiring knowledge within three years (Prime Minister Abe's Initiative in the last ASEAN summit) Providing courses of lectures and capacity building based on the ASEAN-Japan agreement with the new 2.5 billion yen (\$22 million dollar) HRD budget for ASEAN alone (Some HRD programs are expected to start from this spring)	Based on the ASEAN-Japan agreement, AMEICC secretariat started some HRD programs for capacity building for local employees in ASEAN countries and officials engaged in infrastructure development and engineering in collaboration with Japanese companies. They are also preparing to provide endowed courses at 20 universities in ASEAN countries in cooperation with Japanese companies operating locally.	METI and relating ministries	
	b.	Developing a "Comprehensive Higher Professional Education System (Multiversity)" in interested AMSs	In March 2015, a JAIF project 'Comprehensive Industrial Human Resource Development (Ci-HRD)' proposed by APEN was approved. The project consists of (1) Development of Credibility Index for SMEs, and (2) Comprehensive Higher Professional Education System. In June 2015, APEN launched the project under the JAIF scheme. Since then, APEN has made contracts with member universities in AMS, and held some seminars in AMS. In May 2016, APEN compiled the 'Normal Model' of Multiversity, which provides the reference in compiling localized models of Multiversity in each AMS.	*APEN will hold the Higher Industrial Human Resource Development Seminar at Universiti Teknologi Malaysia in July 2016*. Under the JAIF scheme, member universities in AMS will be required to compile local models of Multiversity, and implement feasibility studies of introducing the Multiversity system in each AMS by June 2017.	APEN	METI
	c.	Human resource development through strengthening faculty staffs of top engineering schools and building network by ASEAN University Network/Southeast Asia Engineering Education Network (AUN/SEED-Net)	JICA has been conducting AUN/SEED-Net Project Phase III (2013.3-2018.3) continuously with the expansion of the network from 30 to 40 universities among ASEAN Member Institutions and Japanese Supporting Universities member universities.	JICA will continue to support strengthening faculty staffs of top engineering institutions, organizing regional research conference and University - Industry collaboration seminars in ASEAN, and financing collaborative researches on global and local issues among universities and industry through the network of 40 universities.	JICA	MOFA, METI
	d.	Exchange human resources in industrial sectors for future generations	ASEAN-Japan Centre organized a series of "Career Development Support for ASEAN Students in Japan" to increase employment opportunities of ASEAN students in Japan. ASEAN-Japan Centre organized seminars and lectures to provide information on Japanese recruitment system to ASEAN students in Japan.	ASEAN-Japan Centre will continue to organize seminars and lectures to provide information on Japanese recruitment system to ASEAN students in Japan on an ad-hoc basis.	ASEAN-Japan Centre	
	II ASEAN Common skill Standard initiative for ICT Professionals					
	a.	Seminar on Capacity Building for ICT skill Standard System and the Evaluation System	JICA, in cooperation with IPA, held a seminar on capacity building for ICT skill standards and the evaluation system for two weeks in Japan. (Jan, 2014) The JICA training course for Seminar on Capacity Building for ICT skill Standard System and the Evaluation System was conducted in Jan 2014 JICA, in cooperation with IPA, held a seminar on capacity building for ICT skill standards and the evaluation system for two weeks in Japan. (Jan, 2015) The JICA training course for Seminar on Capacity Building for ICT skill Standard System and the Evaluation System was conducted in Jan 2015 JICA, in cooperation with IPA, held a seminar on capacity building for ICT skill standards and the evaluation system for two weeks in Japan. (Jan, 2016) The JICA training course for Seminar on Capacity Building for ICT skill Standard System and the Evaluation System was conducted in Jan 2016.		JICA	METI

Pillar	Goals / Objectives	Activities / Sub - activities	Progresses (-2015)	Future Plans toward 2025	Responsible Body	Supporting Organizations
		III Work towards strengthening the protection of Intellectual Property Rights (IPRs)				
	a.	Cooperation for human resource development, management/operation and system infrastructure of ASEAN IPOs	<p>For human resource development and management / operation, Training Course on Industrial Property Management was held on February 6-13, 2015 in Tokyo.</p> <p>JPO Support for digitization projects in Cambodia in 2014-2015.</p> <p>JPO Support for work flo optimization project in Cambodia in 2015.</p> <p>JPO Support for digitization projects in Lao P.D.R in 2015.</p> <p>JPO Support for digitization projects in Brunei in 2015.</p> <p>JPO sent experts to Singapore and Indonesia to share JPO's experience of human resources development in March, 2015.</p>	<p>JPO will cooperate for designing a comprehensive human resource development program, improving work flow and processes, and developing system infrastructure of ASEAN IPOs in order to secure appropriate protection of Intellectual Property Rights.</p> <p>JPO will Invite officials from ASEAN IPOs to trainings courses including human resource development and management/operation on February 16-23, 2016 in Tokyo(ASEAN IPOs - JPO IPR Action Plan 2015-2016).</p>	METI (JPO)	
		I Improving SME access to finance, technologies and markets				
	a.	Improving Access to Finance and proper financial management in ASEAN	<p>A JAIF project "Implementation of The Credit Rating System for SMEs within ASEAN Member Countries: Developing an ASEAN Benchmark for SME Credit Rating Methodology" project was conducted.</p> <p>Japan introduced its policy program on the "Guideline for SME Accounting" at the 13th Joint Consultation between the ASEAN SME Agencies WG and Japan.</p> <p>Japan and AMEICC Secretariat held a seminar focused on "SME Accounting " in the margin of ASEAN SME WG meetings in June 2014.</p> <p>JICA has resumed Private Sector Investment Finance (PSIF) scheme since October 2012.</p> <p>JICA provided two step loans for SME development in relevant countries in ASEAN</p> <p>JICA conducted "Study of financial inclusion in Indonesia" (2012-2013).</p>	<p>Japan will support ASEAN's effort to develop national credit guarantee systems. ASEAN and Japan will hold ASEAN-Japan SME Finance Round Tables (RT) to exchange good practices and to discuss steps to develop national credit guarantee systems in the region.</p> <p>Japan will share information and best practices with AMSs to introduce accounting to ASEAN SMEs</p> <p>JICA will continue to support to fill the financial gap by various schemes.</p> <p>JICA will continue to provide two step loan for SMEs in Myanmar.</p>	AMEICC SME-WG, Central Bank, METI	
			<p>AMEICC held the ASEAN-Japan SME Finance Round Table (RT) in November 2015 and June 2016.</p>	<p>Through the RT, ASEAN and Japan continue to exchange information and discuss future steps towards the development of National Credit Guarantee/Information Systems.</p>	METI	
	b.	Improving Access to Technologies	<p>A JAIF project "Strengthening SME business and technology incubator" was conducted.</p>	<p>Japan and AMEs will promote each AMS' efforts to improve Access to Technologies for SMEs through sharing information on best practices of Japan and each AMS' relevant policy programs.</p>	METI	
	c.	Improving Access to Markets through various initiatives such as One Village One Product (OVOP) initiative, exhibitions, seminar, workshops and other outreach opportunities	<p>ASEAN-Japan Centre held ASEAN Showcase in Japan (5 times, FY2013)</p> <p>ASEAN-Japan Centre organized 4 showcases with the business matching activities for Vietnam (Oct 2014), Myanmar (Nov 2014), Thailand (Nov 2014) and the Philippines (Feb 2015). Further, Singapore Showcase was conducted through the Internet.</p>	<p>ASEAN-Japan Cente will shift its activities more on promoting services trade and trade in creative industry.</p>	ASEAN-Japan Centre	METI, JETRO, JICA

Pillar	Goals / Objectives	Activities / Sub - activities	Progresses (-2015)	Future Plans toward 2025	Responsible Body	Supporting Organizations		
			JETRO contributed to the Import-Export One Province, One Product Exhibition in Cambodia. (Dec 2013, Dec 2014, Dec 2015) JETRO constantly presents and promotes products made in CLMV Countries in major Airports in Japan. JETRO will also invited from CCC staffs in June 2016 to support their understanding for Japanese market and role of them to promote Cambodia industry.	JETRO will contribute to the Import-Export & One Province One Product Exhibition (Cambodia, Dec. 2016) JETRO constantly presents and promotes products made in CLMV Countries in major Airports in Japan.	JETRO			
			A JAIF project "Improvement of rural living condition through OVOP movement" was conducted.	Japan and AMSs will disseminate and realise the concept of OVOP movement across the ASEAN region through sharing information on best practices of OVOP movement and its support policy programs.	METI			
			JICA is implementing Project on Small and Medium Industry (SMI) Development based on Improved Service Delivery in Indonesia(2013-2016), Project on Enhancement of Metalworking Capacity of Supporting Industries of Construction Machinery (2014-2017), Project for Enhancing Regional Integrated SME Promotion (RISMEP) Mechanism in Thailand(2013-2016), National Industry Cluster Capacity Enhancement Project in Philippines(2012-2015), Project for Strengthening Public Functions for Supporting Small and Medium Enterprises in Vietnam (2011-2014), and Project for Strategic Strengthening of Small and Medium Enterprise (SME) Support System in Cambodia (2013-2015)	JICA will continue to implement, Project on Enhancement of Metalworking Capacity of Supporting Industries of Construction Machinery (2014-2017), and Project for Enhancing Regional Integrated SME Promotion (RISMEP) Mechanism in Thailand (2013-2016).	JICA			
		d. Improving business environment to provide risk money to SMEs	Japan and AMEs promoted each AMS' efforts to improve business environment to provide risk money to SMEs through sharing information on best practices of Japan and each AMS' relevant policy programs.	Japan and AMEs promoted each AMS' efforts to improve business environment to provide risk money to SMEs through sharing information on best practices of Japan and each AMS' relevant policy programs.	AMEICC SME-WG< METI			
		e. Improving Product quality to comply global market through mentoring, including packaging, brand design & certification label	"Mekong Design Selection" project was organized for Cambodia, Laos, Myanmar and Vietnam. After awarding G-mark in Nov 2014, Japanese designers were dispatched to 4 countries to create new design products with 12 awarded companies. New prototype products were introduced to the Japanese market through the G-mark Exhibition in Nov 2015.	Collaborative works between CLMV private sectors and Japanese designers will continue for further business development under an umbrella of the promoting creative industries project.	ASEAN-Japan Centre	METI		
		II Promotion of SME cross-border business through FTAs						
		2.SME Development	a. Organizing investment Promotion Seminars and business consulting for SME	<ul style="list-style-type: none"> On February 18, JETRO co-organized the Thailand Investment Seminar welcoming Deputy Prime Minister Pridiyathorn Devekula. JCCI will dispatch the Economic Mission to Vietnam and Cambodia in October 2016, Economic Mission led by Chairman to Vietnam and Myanmar in January 2017. In addition, JCCI will organized meeting with MPI of Vietnam in October 2016, with MAJECA in 2017, with UMFCCI in 2016 and with PHILJECC in 2017.	JCCI	

Pillar	Goals / Objectives	Activities / Sub - activities	Progresses (-2015)	Future Plans toward 2025	Responsible Body	Supporting Organizations
		II Energy/Environmental infrastructure development				
	a.	Dispatching Special Missions to identify specific cooperation concerning the Smart Community Initiative	Japan dispatched Public-Private missions to Indonesia, Malaysia, Phillipiness and Vietnam in the particuller field of Energy conervation for enhacing corporation between Japan and local private companies.	Japan will dispatch public-private missions in specific field for cooperation between Japanese and local private companies	METI	NEDO, Japan Smart Community Alliance (JSCA), Japan Business Alliance for Smart Energy Worldwide
	b.	Implementing fundamental researches, feasibility studies and joint pilot demonstrations projects of Smart Community related technologies2	Japan has implemented three feasibility studies and demonstration projedcts of Smart commuinity.	Japan will continue to implement feasibility studies and joint pilot demonstrations projects of Smart Community related technologies.	METI	NEDO, Japan Smart Community Alliance (JSCA), Japan Business Alliance for Smart Energy Worldwide
	c.	Promoting participation of Japanese companies through information dissemination (ex. seminar, mission) and business matching activities	<p>ASEAN-Japan Centre dispatched Mission to SEZ, Industrial Park and the Southern Economic Corridor (Cambodia)</p> <p>ASEAN-Japan Centre translated Investment related laws and regulations into Japanese(Myanmar IN laws, etc (for 3 countries in ASEAN))</p> <p>ASEAN-Japan Centre established One-Stop Information Database on Relevant Laws and Regulations to increase Japanese Investment into ASEAN.</p>	ASEAN-Japan Centre will update the WEB of ASEAN Industrial Estates for the Promotion of ASEAN Industrial Estates.	ASEAN-Japan Centre	JETRO
			<p>JETRO held a business matching between Japanese-affiliated companies and local entities in Ho-Chi-Ming (Oct. 2013).</p> <p>JETRO held a business seminer about Philippine for Japanese affiliated companies in Singapore (Jul. 2013).</p> <p>JETRO dispatched a mission for business matching activities to Myanmar (Aug,2013).</p> <p>JETRO held a business seminer about Viet-Num for Japanese affiliated companies in Bangkok (Sep. 2013).</p> <p>JETRO dispatched an invest mission to Vietnam, Laos and Cambodia (Oct. 2013).</p> <p>JETRO launched and hold investment missions to the Thilawa SEZ in Myanmar (Mar. 2014, Jul. 2014).</p> <p>JETRO held a business seminer about Myammer for Japanese affiliated companies in Singapore (Jul. 2013).</p> <p>JETRO will dispatch an investment mission to Thilawa SEZ in Myanmar (July 2015)</p>	JETRO will continuously organize investment promotion seminars and missions focusing on infrastructure development in ASEAN economies.	JETRO	
	d.	Developing basic energy infrastructure in less developing ASEAN countries	JICA implemented/committed the on-going/new soft loan projects for energy infrastructure such as thermal/hydro power plants and transmission lines in Laos, Vietnam, etc.	JICA will continue support for construction of 500kV substations and reinforcement of distribution facilities in Myanmar.	JICA	MOFA, METI, ADB

:ral Economic Cooperation to Provide Individual Measures

Pillar	Goals / Objectives	Activities / Sub - activities	Progresses (-2015)	Future Plans toward 2025	Responsible Body	Supporting Organizations	
		e. Providing for infrastructure financing	JICA implemented the on-going soft loan projects for energy infrastructure such as thermal/hydro power plants and transmission lines in countries like Indonesia, Laos, Vietnam, etc.	JICA will continue support for construction of 500kV substations and reinforcement of distribution facilities in Myanmar. JICA will continue support for construction of thermal power plants, hydropower plants, substations and distribution facilities in Vietnam.	JICA	MOFA	
		f. Improving Financing Mechanism	ASEAN and Japan supported ERIA's PPP guideline launched at the PPP Networking Forum on December 2014.and dissemination of it.	ASEAN and Japan support ERIA's study on Financing Infrastructure Development in East Asia.	ERIA	METI	
		III Support development of quality infrastructure					
		a. Expanded Partnership for Quality Infrastructure	On the occasion of G7 summit in May 2016, Prime Minister Abe announced "Expanded Partnership for Quality Infrastructure", which aims to provide, among all, financing of approximately USD 200 billion to infrastructure projects in the next five years by expanding both the targeted area from Asia to the world and the scope of infrastructure from a narrow sense to a broader sense, which includes natural resources and energy, in comparison with the "Partnership for Quality Infrastructure" (PQI) announced in 2015.	GOJ will implement to improve related measures and promote quality infrastructure project in Asia.	CAS, MOFA, MOF, METI, MLIT, MIC	JICA, JBIC, NEXI, JOIN, JICT, JOGMEC, ADB	
5.Innovation	I Promote utilization of satellite technology						
	a. Promoting uses of satellite system	Japan has considered about uses of satellite system	Japan will continue to consider about uses of satellite system with supporting organizations	METI	JapanSpaceSystems (JSS),JAXA,JICA		
	b. Developing human resource capacity for outer space utilization, including the application of satellite images	Japan has considered about human resource capacity for outer space utilization	Japan will continue to consider about transferring Japanese manufacturing and management know-how, local industries in developing countries	METI	JICA,JapanSpaceSystems(JSS),JAXA		
		JICA has been implementing "the Project for Capacity Development for Immediate Access and Effective Utilization of Satellite Information for Disaster Management in ASEAN (2013-2016) to support capacity development of AHA Center and ASEAN member countries for the utilization of Satellite Information for Disaster Management	JICA will continue supporting capacity development of AHA Center and ASEAN member countries for the utilization of Satellite Information for Disaster Management thorough "the Project for Capacity Development for Immediate Access and Effective Utilization of Satellite Information for Disaster Management in ASEAN"	JICA	MOFA		
		11 Vietnamese students started their research on satellite development at the universities in Japan through "the Project for Disaster and Climate Change Countermeasures Using Earth Observation Satellite".	According to the original plan, totally 36 Vietnamese students will be accepted by the end of Sep. 2018.	JICA	MOFA		
	II Promote technology cooperation between Japan and ASEAN in areas such as: steel products, energy saving automobile and plastic products						
	a. Localize R&D				AMEICC WG-CI, WG-AI		

Pillar	Goals / Objectives	Activities / Sub - activities	Progresses (-2015)	Future Plans toward 2025	Responsible Body	Supporting Organizations
① Bilateral		III Promote utilization of IT technology				
		a. Improving cyber security environment in the region	Japan, through JPCERT/CC, collaborated with CSIRTs (Computer Security Incident Response Team) in the region. Japan held the training courses on Information Security Management System (ISMS) and Cyber Security Management System (CSMS). ASEAN and Japan formulated the Critical Information Infrastructure Protection Guideline.	Japan will continue the collaboration with CSIRTs in the region. Japan will continue the support to enhance the level of information security in the region.	METI	JPCERT/CC HIDA
		I Conclude the AJCEP services and investment negotiation				
		a. Supporting to Conclude the AJCEP services and investment negotiation	In the Commemorative Summit Meeting in December 2013, the Heads of ASEAN and Japan welcomed the substantial conclusion of the rule negotiations on the Services and Investment Chapters of the AJCEP Agreement.	ASEAN and Japan will strive for early conclusion of negotiations on remaining issues for both trade in services and investment	AJCEP Joint Committee and relevant Sub-Committees	
		II Improve logistics services				
		a. Accelerating the Cross-Border Transportation Facilitation Agreement (CBTA)			METI	ADB-GMS
		b. Promoting the connectivity of a global information network for sharing cargo status data based on interoperable standards for optimization of the global supply chain	A private company/capital continuously conducted the project to promote the connectivity of a global information network for sharing finished car status data based on interoperable standards for optimization of the global supply chain.		METI	
		c. Conducting a study on the Roll-on/ Roll-off (RoRo) Network and Short-sea shipping	The Master Plan and Feasibility Study on the Establishment of an ASEAN RO-RO Shipping Network and Short Sea Shipping has been completed, with recommendations on the importance of coordination among sectoral bodies to realise the prioritised routes as mentioned in the report and to follow progress of the Ro-Ro prioritised routes and harmonisation of institutional arrangement (e.g. CIQS, road administration). Following the completion of the Master Plan and Feasibility Study on the Establishment of an ASEAN RO-RO Shipping Network and Short Sea Shipping conducted by JICA, related ASEAN member states reported progress at the 26th ASEAN Maritime Transport Working Group Meeting (MTWG) held on 20th -22nd August 2013 in Yangon, Myanmar. the 27th MTWG held on 19th-21st 2014 in Phnom Penh, Cambodia, 28th MTWG held on 20th-22nd 2014 in Siem Reap, Cambodia and 12th ASEAN Japan STOM Leaders Conference held on 25th June 2014 in Tokyo Japan. the 29th ASEAN Maritime Transport Working Group Meeting (MTWG) held on 11th-13th February 2015, in Sihanoukville, Cambodia.	MTWG, STOM Leaders Conference, STOM+J and related bodies will follow the progress of the prioritised routes as envisaged in the final report of the study on Roll-On/Roll-Off (RO-RO) network and short sea shipping.	ASEAN Connectivity Coordination Committee (ACCC) and Japan ASEAN and Japan Transport Ministers Meeting (ATM+J)	JICA
		III Promote cooperation between ASEAN and Japan regarding OVOP development				
		a. Improvement of rural living condition through OVOP movement	A JAIF project "Improvement of rural living condition through OVOP movement" was conducted.	Japan and AMSs will disseminate and realize the concept of OVOP movement across the ASEAN region through sharing information on best practices of OVOP movement and its support policy programs	METI	

Pillar	Goals / Objectives	Activities / Sub - activities	Progresses (-2015)	Future Plans toward 2025	Responsible Body	Supporting Organizations
		IV Establish a disaster resilient society in East Asia				
	a.	Reduction of risks in key industrial infrastructures, including introduction of satellite system for forecasting disaster risks	<p>JICA has implemented "Study for Natural Disaster Risk Assessment and Business Continuity Plan Formulation for industry agglomerated areas of the ASEAN Regions (2013-2015)"</p> <p>JICA has conducted natural disaster risk assessment and economic losses assessment of Industry Agglomerated area in ASEAN and supporting formulation of Area Business Continuity Plan</p> <p>JICA-supported formulatiing Area Business Continuity Plan in 3 pilot areas in Indonesia, Philippine and Viet Nam</p> <p>JICA prepared a guideline for natural disaster risk assessment and area BCP formulation for Industry Clusters in the ASEAN</p>	The project finished and JICA will monitor the activities of three pilot Area Business Continuity Plan.	The ASEAN Committee on Disaster Management (ACDM), JICA	
				Japan and ASEAN will support ERIA study on "Development of resilient cities by optimizing solutions utilizing technologies of seismic isolation and vibration control structure".	ERIA	MLIT
			Japan has considered about expanding utilization of AJEOS-Net and capacity building.	Japan will continue to support expanding utilization of AJEOS-Net and capacity building.	METI	
			Japan has considered about expanding utilization of AJEOS-Net	Japan will continue to support expanding utilization of AJEOS-Net	Relevant Ministries/Agencies/ Committees and Japan	JAXA
			JICA has been implementing "the Project for Capacity Development for Immediate Access and Effective Utilization of Satellite Information for Disaster Management in ASEAN (2013-2016) to support capacity development of AHA Center and ASEAN member countries for the utilization of Satellite Information for Disaster Management	JICA will continue supporting capacity development of AHA Center and ASEAN member countries for the utilization of Satellite Information for Disaster Management thorough "the Project for Capacity Development for Immediate Access and Effective Utilization of Satellite Information for Disaster Management in ASEAN"	JICA	
			ASEAN and Japan supports ERIA study on "Policy on Disaster Prevention and Reduction for Industrial Parks in East Asia". ASEAN and Japan supported ERIA study on "Disaster Risks, Social Preferences, and Policy Effects: Field Experiments in Selected ASEAN and East Asian Countries" ASEAN and Japan supported ERIA's study on "Space-based Technology for Resilience in ASEAN."	Japan will continue its support to ERIA study to improve resiliency of the region.	ERIA	METI
	b.	Enhancement of mutual complementation among AMSs as well as between ASEAN and Japan such as providing support for the Work Programme for the ASEAN Agreement on Disaster Management and Emergency Response,	JICA dispatched Advisor to the AHA Centre (2011-)	JICA will continue to dispatch Advisor to the AHA Center when follow up activities are needed.	JICA	

Pillar	Goals / Objectives	Activities / Sub - activities	Progresses (-2015)	Future Plans toward 2025	Responsible Body	Supporting Organizations
			Implementation of the Work Programme for the ASEAN Agreement on Disaster Management and Emergency Response, through conducting research to draw a roadmap and suggest appropriate finance mechanism to enhance disaster resiliency of ASEAN utilizing satellite technology and geospatial information in cooperation with ERIA.	ASEAN and Japan support ERIA's study on "Integrated Space-based Disaster Management Infrastructure for Resilience in ASEAN."	ERIA	METI
V Improving cooperation on energy efficiency and conservation, and green environment						
	a.	Contributing to the realization of Low-Carbon Growth in each ASEAN country, by utilizing policy tools such as capacity building including improvement of domestic systems, institutions and finance	JICA held a bilateral policy dialogue under the climate change program loan in Vietnam, etc. JICA conducted a project for formulating master plan for introducing Clean Coal Technology in Indonesia. JICA conducted capacity building project for promotion of energy conservation in Vietnam. JICA conducted capacity building project for promotion of green economy policy and climate change strategies in Indonesia.	JICA will continue above projects in Indonesia. JICA will join in a policy dialogue under the SP-RCC (Support Program for Response to Climate Change) in Vietnam.	JICA	MOFA, METI
			"Strengthening of Regional Knowledge on Rural Renewable Energy (biogas) Development for ASEAN Countries was conducted.		METI	
	b.	Promoting the Joint Crediting Mechanism to interested AMS	Japan has signed the bilateral document for the Joint Crediting Mechanism (JCM) with Viet Nam (in July 2013), Lao PDR(in August 2013), Indonesia (in August 2013), Cambodia (in April 2014), Myanmar(in September 2015) and Thailand(in November 2015).	Japan will continue consultations to establish JCM with some interested AMSs and promote the formulation of projects in signatory countries.	METI	
VI Promote cultural exchange programs and forging a strong sense of community, regional identity, rootedness and inclusion						
	a.	Organizing cultural events	ASEAN Japan Centre held cultural events for ASEAN students to Japan (Feb , 2014) ASEAN-Japan Centre held cultural introduction events of ASEAN in Japanese localities (FY2014 & 2015)	ASEAN-Japan Centre will continue to introduce ASEAN culture through various activities in Japan.	ASEAN-Japan Centre	METI

Pillar	Goals / Objectives	Activities / Sub - activities	Progresses (-2015)	Future Plans toward 2025	Responsible Body	Supporting Organizations
		VII Encouraging people-to-people exchange through such measures as promotion of tourism				
		a. Organizing Exchange program	<p>ASEAN Japan Centre organized the following activities:</p> <ol style="list-style-type: none"> 1. ASEAN Fair (40th Anniversary Commemorative Project)at Yamashita Park in Yokohama, 5-6 October 2013 2. Continued P.R. Activities for ASEAN by improving AJC Website contents on tourism, conduct various events at AJC Hall, participate in major travel fairs in Japan, and visiting local governments, business associations, and academic institutions. 3. Conducted theme-based tourism promotion in Japan by continuing the conduct of seminars on "How to welcome Muslim tourists from ASEAN to Japan" to promote inbound tourism from ASEAN to Japan. (FY2013-2015) 4. Continued P.R. Activities for ASEAN by improving AJC Website contents on tourism, conduct various events at AJC Hall, participate in major travel fairs in Japan, and visiting local governments, business associations, and academic institutions. 5. Organized exchange program for tourism major students in CLMTV by inviting them to Japan. (Sept. 2014) 6. Invited travel agents from IMPV to visit major tourism destinations in Kyushu and to exchange views with tourism stakeholders in Kyushu. (March 2015) 7. Organized ASEAN AEC and Aviation Seminars in Tokyo and Osaka. (Dec. 2014) 8. Invited female entrepreneurs from the ten ASEAN Member States and conducted exchange programs-(FY2014 & 2015) 9. Organized exchange program for tourism major students in BIMPS by inviting them to Japan. (Nov. 2015) 	<p>ASEAN Japan Centre will organize following activities:</p> <ol style="list-style-type: none"> 1. Continue P.R. Activities for ASEAN by improving AJC Website contents on tourism, conduct various events at AJC Hall, participate in major travel fairs in Japan, and visiting local governments, business associations, and academic institutions. 2. Exchange program for tourism professionals by inviting them to Japan. (FY2016) 3. Exchange program in ASEAN for ASEAN-Japan women entrepreneurs (FY2016) 	ASEAN-Japan Centre	METI, and Ministry of Land, Infrastructure, Transport and Tourism (MLIT) of Japan
		VIII Work on the standardization and harmonization in priority sectors in order to ensure that technical regulations, standards, and conformity assessment procedures do not create unnecessary barriers to trade, the scope and basis of which would be based on standards mutually agreed between AMS and Japan				
		a. Cooperation in harmonizing energy-saving standards in selected E&E products	<p>JICA has been implementing the "Project on Strengthening the System and Operation on Standards and Conformance for Energy Efficiency and Labeling" in Vietnam since Novemer 2013.</p> <p>Japan implemented AJEEP(ASEAN-Japan Energy Efficiency Partnership) to support capacity building on Energy Efficiency.</p>	<p>JICA will continue the project until November 2016.</p> <p>Japan will continue to implement AJEEP(ASEAN-Japan Energy Efficiency Partnership) to support capacity building on Energy Efficiencyby 2020. Japan will support development of Practical Energy Manager Traning programe in ASEAN region.</p>	AJCEP SC-STRCAP, JSC EEE, ASEAN Energy Efficiency and Conservation Sub-Sector Network (EE&C-SSN), JICA	METI, MOFA
			<p>During JSC/EEE under the ACCSQ, Japanese session has been held regularly since 2015-</p> <p>Japan organized the JISC/IEC/APSG seminar in Singapore in November 2015 to raise awareness of international standardization activities.</p>		METI	

Pillar	Goals / Objectives	Activities / Sub - activities	Progresses (-2015)	Future Plans toward 2025	Responsible Body	Supporting Organizations
6.Others		IX Support the creation of new businesses, including healthcare, green and creative industries				
		a. Providing information on recruitment system	ASEAN-Japan Centre organized seminars and lectures to provide information on Japanese recruitment system to ASEAN students in Japan. (see 1. I.c)	ASEAN-Japan Centre will continue to organize seminars and lectures to provide information on Japanese recruitment system to ASEAN students in Japan on an ad-hoc basis. (See 1. I. d.)	ASEAN-Japan Centre	JEITA, METI
		X Advancement of service industries (e.g. distribution, retailing, healthcare, tourism, education services)				
		a. Supporting missions, assigning advisors and holding seminars	<p>Japan conducted human resource development supporting programs for Vietnam, and Indonesia and Myanmar.</p> <p>The 2nd policy dialogue on distribution and logistics between Japan and Vietnam was held in Tokyo (Nov. 2013). The 3rd was held in Hanoi (Sep. 2014), and The 4th was held in Tokyo (Mar. 2015).</p> <p>The 1st Policy dialogue on distribution between Japan and Indonesia was held in Tokyo (Nov. 2013). The 2nd was held in Yogyakarta (Jun. 2014). And Technical Meeting on distribution between Japan and Indonesia was held in Tokyo (Nov. 2014)</p> <p>The 1st Policy dialogue on distribution between Japan and Myanmar was held in Naypyidaw (Sep. 2014)</p>	<p>Japan will support the development of distribution industries in the ASEAN region.</p> <p>The 5th policy dialogue on distribution and logistics between Japan and Vietnam will be held in Vietnam (2016).</p> <p>The 3rd Policy dialogue on distribution between Japan and Indonesia will be held in Jakarta (Jul. 2016).</p> <p>The 2nd Policy dialogue on distribution between Japan and Myanmar will be held in Myanmar (2016).</p>	METI	
	<p>Japan held a workshop on Food Service Corporate Activities for Myanmar in February 2014, inviting restaurant managers and government officers related to food service industry. It also held a training program on Beauty Business for Vietnam in February 2014 for beauty salon managers. Government officers related to beauty industry were also invited to the program so that they would become aware of necessary regulations and monitoring for sound development of the industry.</p> <p>To enhance Myanmarese service industries' capability to make their business strategy/industrial promotion policies competitive enough in the international market, Japan held a workshop on business management and on store management for the Service Industry in Myanmar fromin September 2014.</p> <p>For further understanding, an advanced workshop was held in Japan in February 2015, inviting those who gave a good performance during the previous workshop in Myanmar.</p> <p>In response to a request from Beauty association in Vietnam, a seminar on Japanese nail industry and a workshop to experience the quality of service practice were held in March 2015.</p>	<p>A workshop on business management and on store management for the restaurant and hotel industries in Myanmar will be held in Myanmar and Japan to improve service quality in Myanmar.</p> <p>Training programs for Indonesia and Vietnam will be organized respectively in Japan to give them an opportunity to learn Japan's efficient distribution system, trained dining service based on "Omotenashi," and so on. **Business matching opportunity will be arranged in the course of program.</p>	METI	HIDA		

Pillar	Goals / Objectives	Activities / Sub - activities	Progresses (-2015)	Future Plans toward 2025	Responsible Body	Supporting Organizations
			<p>JETRO dispatched missions specialized in the service industry to Yangon and Bangkok in Sep.2013, and to Singapore and Malaysia in Jan. 2014</p> <p>JETRO dispatched missions specialized in the service industry to Ho Chi Minh and Hanoi(Dec. 2014), and Thailand(Aug 2015, consigned by Ministry of Agriculture, Forestry and Fisheries).</p> <p>JETRO and Japan Association of Coporate Executives(Keizai Doyukai) organized a symposium specialized in the service industry in Manila(Oct.2014).</p> <p>JETRO held a business matching between Japanese-affiliated companies and local entities in Yangon (Feb. 2015).</p> <p>JETRO invited business persons from Vietnam, Thailand, Indonesia, Philippines(Sep. 2014) and Myanmar(Aug. 2015) as well as arranging business matching with Japanese companies.</p> <p>JETRO plans to dispatch service industry missions to Indonesia(Dec. 2015)</p> <p>JETRO will support Japanese firms to participate in the exhibition, FLAsia in Singapore (Oct. 2015).</p> <p>JETRO will support Japanese firms to test the restaurant market in Vietnam(Feb. 2016, consigned by Ministry of Agriculture, Forestry and Fisheries).</p> <p>JETRO invited business persons from Vietnam, Indonesia, Philippines, Malaysia as well as arranging business matching with Japanese companies(Oct. 2015, consigned by Ministry of Agriculture, Forestry and Fisheries).</p>	JETRO will continue to these program. ② Economic C		II ASEAN Common skill Standard initiative for ICT Professionals				
		a. Supporting the developmnet of ICT skill standards in ASEAN	<p>Japan supports Phase II of the ASEAN ICT Skill Standards - Definition and Certification (ISSDaC) Project through funding by JAIF (Japan - ASEAN Integration Fund)</p> <p>IPA (Information-technology Promotion Agency, Japan) explained Information Technology Engineers Examination(ITEE) , the skill standard of Japan(ITSS), and the Information Technology Professionals Examination Council (ITPEC: Members are Malaysia, Myanmar, Philippines, Thailand, Vietnam, Mongolia, and Bangladesh) activities to promote ITEE and ITSS to be one of the ASEAN standards at the ISSDaC Phase II workshop.(30-31 Oct. 2014)</p> <p>The final report of Phase II of the project has already been completed. Conclusion from the report of Phase II was presented during 14th TELMIN/15th TELSOM and related meeting on the 20th January 2015, in Bangkok.</p> <p>The successful completion of ASEAN ICT Master Plan (AIM) 2015 was welcomed, and the adoption of AIM 2020 was agreed at 15th TELMIN in November 2015 in Dan Nang, Vietnam. According to the AIM 2020, efforts to align ICT Skill Standards for ASEAN is only stated to be continued, and no new direction nor plan is explained.</p>		METI, IPA	
		I Enhance Customs Administration through bilateral cooperation contributing to realization of current initiatives in ASEAN such as ASEAN Single Window and Cross-Border Transportation Facilitation Agreement (CBTA)				
	4.Custom	a. Promoting cooperation for Customs reform and modernization	<ul style="list-style-type: none"> • Technical cooperation and capacity building for Customs reform and modernization on various areas have been implemented by dispatching short term-experts as well as holding training courses in Japan. • Development of VNACCS has been completed in March 2014 and was taken over in April to Vietnam side. Japan continued Technical Cooperation Project for effective utilization of VNACCS. • The system development of MACCS has been completed and Japan continued Technical Cooperation Project for launching its operation. 	<ul style="list-style-type: none"> • Japan will continue technical cooperation and capacity building for customs reform and modernization on various areas. • The Running Test for MACCS will be commenced in Aug 2016, and the operation of MACCS is planned to be launched in Nov 2016. Japan will continue Technical Cooperation Project regarding MACCS. 	JMOF, JICA, ADB, WCO	MOFA
		b. Cooperation for introduction of port EDI system	<p>PTG (Port Technology Group) Meeting was held in Feb 2014 in order to finalize Guideline on the introduction of Port EDI.</p> <p>In addition, Port EDI seminar was held in Indonesia.</p> <p>In November 2014, 'Guideline for Introduction of Port EDI System on Port-related Procedures' has been endorsed in the 12th ATM+J.</p> <p>JICA conducted preparatory survey on the Project for Port EDI for Port Modernization in Myanmar from Aug 2014 till Mar 2015. Exchange of Notes on the Project was signed between Japan and Myanmar, as well as Grant Agreement between JICA and Myanma Port Authority in Mar 2015 respectively.</p> <p>JICA conducted a survey for project formulation in May 2015 (Indonesia).</p>	<p>ASEAN countries and Japan will work together to promote Port EDI system.</p> <p>The implementation phase of the Project for Port EDI for Port Modernization in Myanmar will commence.</p>	ASEAN and Japan Transport Ministers Meeting (ATM+J)	JICA
5.Industry/ Services	a. Building networking for mutual development in service sector			With the aim of the further productivity growth of the service industry in Asia, Japan will hold the Third ASEAN-Japan Public-Private Dialogue on New Industries in Bangkok, Thailand on June 22, 2016, jointly with co-organizing institutions from Japan and ASEAN.	AMEICC	METI

Pillar	Goals / Objectives	Activities / Sub - activities	Progresses (-2015)	Future Plans toward 2025	Responsible Body	Supporting Organizations	
6.Trade Facilitation	I Work towards promoting higher utilization of AEC and AJCEP						
	a. Monitoring ATIGA and AJCEP utilization		As of this date, 99.20% of all products of ASEAN-6 and 68.88% of CLMV have been at zero tariffs. The average tariffs are 0.05% and 1.69% for ASEAN-6 and CLMV respectively. The utilisation of Form D import in 2011 as reported to the 26th AFTA Council in August 2012 varies from 0.50 (Myanmar) % to 53.63% (Philippines).		CCA, AJCEP Sub-committee on ROO	METI	
	b. Conducting research studies on the utilization of the ATIGA and AJCEP		ASEAN and Japan supported ERIA's FTA and RCEP Study which includes the survey regarding the utilization of existing ASEAN+1 FTAs (both in trade in goods and investment) in ASEAN10 countries (2013-14) conducted in collaboration with the ASEAN Business Advisory Council.	ASEAN and Japan support ERIA' study on FTA which includes theoretical analysis on the impact of regional integration on both on members and non-members.	ERIA	METI	
	c. Conducting FTA utilization seminars that would be open for participation of AMSs and Japan		JETRO held an international symposium on economic integration in Asia.		JETRO	METI	
	d. Reviewing existing EPAs/FTAs with a view to improve implementation mechanisms		KEIDANREN urged the necessity of reviewing the Japan Indonesia EPA at the Japan Indonesia Joint Economic Forum: Oct. 2013	Expand business network and partnership through the 7th Asian Business Summit and bilateral economic meetings with ASEAN Members. Early conclusion of RCEP negotiations and infrastructure development as well as enhancement of business environment are the key issues.	Relevant Committees of each bilateral EPAs/FTAs		
			KEIDANREN issued a proposal on the early conclusion of the RCEP Negotiations: May 2013	Expand business network and partnership through the 7th Asian Business Summit and bilateral economic meetings with ASEAN Members. Early conclusion of RCEP negotiations and infrastructure development as well as enhancement of business environment are the key issues.	Relevant Committees of each bilateral EPAs/FTAs		
			JCCI seeks progress with RCEP negotiations and makes inputs not only WG activity but also through other opportunities.		Relevant Committees of each bilateral EPAs/FTAs		
	7.Energy	I Cooperating on enhancement of energy policy making and implementation					
		a. Energy Efficiency and Conservation and Renewable Energy		Japan continued AJEEP(ASEAN-Japan Energy Efficiency Partnership) activities to support capacity building on Energy Efficiency and conservation. Japan has also provided training opportunities for renewable energy development.	Japan will continue to implement capacity building activities on renewable energy, energy efficiency and conservation.	METI	
		b. Clean Coal Technology		Japan implemented the capacity building activities on Clean Coal Technology (CCT).	Japan will continue the capacity building activities on CCT.	JCOAL	METI
c. Oil Security			ACE (ASEAN Centre for Energy) and JOGMEC (Japan Oil, Gas and Metals National Corporation) organised the Workshop of Oil Stockpiling Road Map (OSRM) to follow up its progress in each country annually since 2011.	ACE and JOGMEC will continue to organise the Workshop of OSRM.	ACE, JOFMEC	METI	
			JOGMEC carried out the needs research on oil stockpiling for policy making and legal framework development for Cambodia in 2014 and 2015.	JOGMEC will carry out the needs research on oil stockpiling.	JOGMEC	METI	
			JOGMEC implemented ASEAN Energy Security on Oil Capacity Building Program for Director-General level as well as Director level in 2015.	JOGMEC will continue ASEAN Energy Security on Oil Capacity Building Program.	JOGMEC	METI	

Pillar	Goals / Objectives	Activities / Sub - activities	Progresses (-2015)	Future Plans toward 2025	Responsible Body	Supporting Organizations
		d. Civilian Nuclear Energy	JAEA's ISCN implemented the capacity building activities on nuclear non-proliferation and nuclear security tapping such as ACE-JAEA Seminar on Nuclear Security Culture in 2015.	JAEA's ISCN will continue to implement the capacity building activities on nuclear non-proliferation and nuclear security tapping.	JAEA	
③ Cooperation for Integrating the Region into the Global Economy				ASEAN and Japan start discussion toward the establishment of ASEAN-JAPAN Innovation Network, based on existing AJBC (ASEAN-Japan Business Council)	AJBC(JCCI, ABAC), FJCCIA, JETRO, Keidanren, ABC, etc.	AEM-METI, AMAICC
