U.S.- Japan Climate Partnership Fact Sheet (May 23, 2022)

Collaborating in the First Movers Coalition (FMC), where the United States welcomes Japan as a government partner and steering board member, and recognizing that Japan's participation in the First Movers Coalition, a flagship initiative launched at COP26 to drive demand for green innovation across hard-to-abate sectors, will help elevate the role of Japanese companies in these efforts, align public investment and demand with green innovation in FMC sectors, and provide supportive policies to help scale up supply to meet FMC demand signals;
