

Appendix 1

List of Newly Established and Revised JIS Publicly Notified on October 20, 2022

<Division in charge and telephone number >

International Standardization Division (e-mail: s-kijun-ISO@meti.go.jp direct line: 03-3501-9283)

International Electrotechnology Standardization Division (e-mail: s-iec@meti.go.jp direct line: 03-3501-9287)

1. Newly established standards

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Vacuum technology-Dimensions of knife-edge flanges	B2294	The Japan Society of Vacuum And Surface Science	International Standardization Division
Test method of the mold release film for thermosetting resin molds-Fluorine containing compound mold release film	H8691	Japanese Standards Association	International Standardization Division
Testing methods for industrial water and industrial wastewater-Part 2: Inorganic anions, ammonium ion, organic nitrogen, total nitrogen and total phosphorus	K0102-2	Japan Environmental Management Association for Industry	International Standardization Division
Testing methods for industrial water and industrial wastewater-Part 3: Metals	K0102-3	Japan Environmental Management Association for Industry	International Standardization Division

(Accredited SDO- The Japan Iron and Steel Federation)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Iron and steel-Determination of nitrogen-Part 1:Amidosulfuric acid titrimetric method after ammonium distillation separation	G1228-1	The Japan Iron and Steel Federation	International Standardization Division
Iron and steel-Determination of nitrogen-Part 2:Spectrophotometric methods after ammonium distillation separation	G1228-2	The Japan Iron and Steel Federation	International Standardization Division
Iron and steel-Determination of nitrogen-Part 3:Thermal conductimetric method after fusion in a current of inert gas	G1228-3	The Japan Iron and Steel Federation	International Standardization Division

(Total standards newly established:7)

2.Revised standards

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Low-voltage switchgear and controlgear-Part 5-1: Control circuit devices and switching elements-Electromechanical control circuit devices	C8201-5-1	Nippon Electric Control Equipment Industries Association	International Electrotechnology Standardization Division

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Chromium ores-Methods for determination of silicon content	M8264	Japan Ferroalloy Association	International Standardization Division
Glossary of terms relating to fine ceramics	R1600	Japan Fine Ceramics Association	International Standardization Division
Testing method for permeability to gases of refractory products	R2115	The Technical Association of Refractories, Japan	International Standardization Division
Supply and exhaust pipes for burning appliances	S3025	Japan Heating Appliances Inspection Association	International Standardization Division
Oil discharge copper pipe for oil burning appliances	S3028	Japan Heating Appliances Inspection Association	International Standardization Division
Method of welding procedure qualification test for stainless clad steel	Z3043	High Pressure Institute of Japan	International Standardization Division
Ergonomics of human-system interaction - Principles for the presentation of information	Z8522	Japan Ergonomics Society	International Standardization Division

(Accredited SDO- Japanese Standards Association)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Components for low-voltage surge protection-Part 341: Performance requirements and test circuits for thyristor surge suppressors (TSS)	C5381-341	Japanese Standards Association	International Electrotechnology Standardization Division

(Accredited SDO-The Japan Iron and Steel Federation)

Name of standard	JIS code	Association that prepared the draft proposal	Division in charge
Metallic materials-Bend test	Z2248	The Japan Iron and Steel Federation	International Standardization Division
Metallic materials - Sheet and strip - Determination of tensile strain hardening exponent	Z2253	The Japan Iron and Steel Federation	International Standardization Division

(Total standards revised:11)
