

**Joint Statement on the strengthening of the economic cooperation between Japan and
Romania**

Bucharest, 06.11.2024

We, the Representatives of the Ministry of Economy, Entrepreneurship and Tourism of Romania and the Ministry of Economy, Trade and Industry of Japan, gather today to reaffirm our commitment to strengthen the cooperation between our two nations.

Recognizing the importance of robust economic relations, we acknowledge that both Romania and Japan stand to benefit significantly through enhanced collaboration. Our partnership is grounded in mutual respect, shared values, and a collective vision for sustainable growth in our economies.

We seek to promote industrial collaboration, leveraging each other's strengths to foster innovation and competitiveness. Our aim is to support joint ventures and encourage investment that contributes to job creation and economic prosperity.

We will continue to work together to analyze and improve the business environments in both countries. Through regular dialogue and exchange of best practices, we aim to remove barriers and create favorable conditions for businesses to thrive.

We will implement workshops about the skills and knowledge necessary to adapt to evolving market demands.

We acknowledge the importance of sustainable development in our economic cooperation. Together, we will explore opportunities in green technologies and sustainable practices.
