

Reconstruction Status of Textile Companies in Ishikawa Prefecture after 2024 Noto Peninsula Earthquake

- Textile companies in the Hokuriku region were affected by the Noto Peninsula Earthquake in January 2024. Even textile companies in Ishikawa Prefecture, which was particularly affected by the earthquake, major companies resumed operations in about a week.
- 157 textile companies in Ishikawa Prefecture, more than half of the companies affiliated with the prefectural textile association, were affected by the disaster, but more than 90% of them (142 companies) had resumed operation by the end of February. Although some companies have not been able to resume operations due to building collapses, the supply chain has not been affected.
- At the Tokyo International Gift Show held in February 2024, the textile companies that were affected by the disaster exhibited as planned. The reconstruction process is going well and active sales activities are underway.
